r mother of the deceased, or any of them, of such last mentioned be other or more than be subject to a duty of $6 on every $100 value; where the value of the property of the deceased exceeds $5,000 and any part thereof passes to or for the benefit of any person in any other degree of collateral consanguinity to the deceased that is a stranger in blood to or, for the benefit of any stranger in blood to the deceased, save as hereinafter provided for, the same shall be subject to a duty of fifteen per cent. on the value; provided that where the whole value of any property does not exceed $500 and the property or passing to any person under a will or intestacy does not exceed $250, the same shall be exempt from payment of the duty imposed by this section. These duties shall not be imposed upon any estate the value of which, after payment of all debts and expenses of administration, does not exceed $5,000, nor upon property given, devised or bequeathed for religious, charitable or educational purposes, nor upon property passing under will, intestacy or otherwise out of the use of the father, mother, husband, wife, child, daughter-in-law or son-in-law of the deceased, where the aggregate value of the property of the deceased does not exceed $50,000 in value.

The resolution was supported in a lengthy speech by Mr. Blair, and opposed by Messrs. Hannington, Alward and Stockton, the latter concluding at midnight, when the resolution was carried, the vote being as follows:—

Yeas—Messrs. Blair, Mitchell, Ryan, Labillois, Porter, Perley, Colter, Russell, Taylor, Hibbard, Hetherington, Murray, Wilson, Douglas, McQueen, Lugsdin, Anderson, O'Brien, Burchill—19.

Nays—Messrs. Hannington, Stockton, Phinney, Alward, Atkinson, Lewis, Smith, McKeown, Perley—9.

Hon. Mr. Mitchell moved that the following be substituted in lieu of the resolution as originally adopted.

Resolved, That it is expedient to impose an annual license fee or tax, payable to the receiver general, upon all insurance companies and associations of any kind having agencies or accepting risks upon the lives of persons within the province or transacting business of life or endowment insurance therein, as the sole object of their organization or as incidental to other purposes of their organization whose principal office and organization is not within the province of $250, and of all similar companies or associations whose principal office and organization is within the province, of $100 each.

Hon. Mr. Mitchell explained that this resolution as amended was much preferred by insurance men to the resolution as first adopted.

The resolution as amended was carried.

Hon. Mr. Mitchell then moved the following:

Resolved, That it is expedient to impose an annual license fee or tax, payable to the receiver general, upon all travelling agents or persons, other than persons or agents who for one year prior to their employment as such agents, had and while so employed continued to have a residence and a fixed office or place of business in the province, soliciting applications for insurance on behalf of life insurance companies or associations of any kind doing a business of life or endowment insurance, of $100 each.

This was adopted.

The committee rose, reported on the resolutions and was given leave to sit again.

Dr. Stockton committed a bill amending the Consolidated Statutes, chapter 47 of memorials and executions, Mr. Lewis in the chair.

Agreed to with amendments.

FREDERICTON, March 25th.—The house in committee resumed consideration of supply, Mr. Palmer in the chair.

On the item of $5,600 repairs on legislative building, Hon Mr. Ryan, answering Dr. Stockton, said that was for repairs all through the building and included the improvements on the assembly chamber; $4,000 of that amount has already been paid.

The item passed.

On the item to provide for land at lunatic asylum annex, Mr. Hannington called for an explanation. Was it necessary to purchase more land? The expenditure has greatly increased, while the number of patients has not increased in proportion to the increased cost.

Hon. Mr. Blair said it was not correct to say that there had not been considerable increase in the number of patients in the asylum. It was a fact that since 1882 there was an average increase in the number of patients of 105. If the annex had not been decided upon a new wing to the asylum would have had to have been built, which would have entailed a cost of $25,000. The lands and buildings in connection with the annex had been secured at a figure not much more than what the new wing would have cost and in securing the lands and the buildings we were able to follow the example of other countries in utilizing the labor of a large number of patients. The expenditure in connection with the asylum was low when compared with the cost of the maintenance of similar institutions in other provinces of the dominion and the United States. The salaries of the medical superintendent and other officers of the institution were not high as compared with salaries paid in Nova Scotia, Quebec and Ontario. The costs have been kept within reasonable limits. In the purchase of land the government did not promise to go beyond what was necessary in the public interests. The item before the committee proposed the purchase of 60 acres of land at $50 an acre. The property belonged to Dr. Steeves, the medical superintendent, and lies between lands directly connected with the annex. Dr. Steeves had wanted $4,000 for the property and the house and barn that are upon it. The government refused to pay him that figure, although they had bought lands in the neighborhood for $60 an acre. The government having been buying the grass grown on the land now proposed to purchase for some years paying $4 a ton therefor. The amount paid for the grass would equal the interest on the cost of the land which it was now contemplated to purchase. The only arrangement entered into between Dr. Steeves and the government regarding the purchase of the land, was that if the legislative gave them authority the government would purchase the land at $50 an acre, or $3,000 for the 60 acres, and the cost of last season's grass would be deducted from the total amount to be paid. As the committee would observe, the government were now able to purchase the property for much less than they could have got it for some time ago.

Mr. Hannington—how much land have you got at the annex now?

Hon. Mr. Blair—Over 300 acres. They had now a plentiful supply of milk for the asylum patients, and he stock at the annual farm was well worth inspecting. While the expenditure in connection with the asylum seemed large, we must not lose sight of the fact that last year the farm yielded products to the value of within a few dollars of $9,000.

Free Farms in the Canadian Northwest!

Manitoba, Assiniboia, Alberta, Saskatchewan.

THE Government give one quarter section (160 acres) free to every bona fide settler. A second quarter section can be pre-empted by deferred payments.

The Canadian Pacific Railway Company has a large quantity of the best farming lands for sale at $3.00 PER ACRE, with easy terms of payment.

In Manitoba, 2,000,000 *Acres; In Assiniboia*, 4,000,000 *Acres; In Alberta*, 3,000,000 *Acres.*

Under the Ten Years' Credit Plan, the purchaser pays only one-tenth of the purchase money in cash; the balance is payable in nine annual instalments with interest at only 6 per cent per annum.

1892 SPECIAL TERMS FOR FARMERS. 1892.

To enable Farmers to meet their payments from the products of the land, they can have their instalments fall due in each year after harvest.

REDUCED PRICES.

The Company are making special effort to secure the settlement of their lands, and are offering a REDUCTION in the price of those listed at $4 per acre and upwards; in most cases amounting to FROM 25 TO 33 PER CENT.

Do not purchase Lands until you know OUR PRICES and TERMS. If you do not intend purchasing write for the NEW PUBLICATIONS just issued by the Company. These will show you how and when to

SECURE A FREE HOMESTEAD OF 160 ACRES,

And give you facts regarding successful Farmers that will surprise you.

The Canada Northwest has the most productive soil in the world. Its wheat fetches the highest price; its live cattle are admitted to the English market, while United States cattle are not. There is a market for the farmer at every station; and there are schools and churches where there are settlers. It is not subject to drought nor floods, to grasshoppers or to cyclones or tornadoes. Ask any Canadian Pacific Railway agent for books and maps concerning it; ask for "Farming and Ranching in Western Canada," or the "Free Farms" map, or "Actual Experience," and read the testimony of men who have gone there from Eastern Canada. Young women are in great demand; they find occupation as domestics directly they arrive, and readily get married to prosperous young farmers. Young men or young women can start life there almost without money. They make the money there; and independance is gained in a very few years by the thrifty.

The old settlers of Prince Edward Island should use their influence with the young men who intend emigrating to keep them within the Dominion, where they are offering better advantages than in the United States and do not lose their nationality.

Lose no time in getting to the West and choosing your location. First come first served.
