

RESOLUTION CONDOLENCE

MISS DEBBIE AND MR. FERGUSON
LAMKEY

Dear Sister and Brother:—

As an expression of our sympathy with you in your sore bereavement, and as a token of the esteem in which your brother was held by us, we, the members of Harcourt Division, take this our earliest opportunity of conveying to you our sincere words of comfort.

So far as compensating for the loss you have sustained is concerned we can do nothing—that lies beyond the realm of human power, your brother has passed beyond this "bourne of time and place," and now Christ alone the source of all true consolation can fill with his love the place that is vacant.

It is only a short while since your brother came to be one of our number, but even in this period we had learned to honor and esteem him. We shall miss him in our meetings, but how small will be our loss compared with your loss in daily life at home.

Why one in the bloom and vigor of youth should be taken away seems hard for us to understand.

"Truly God moves in a mysterious way."

His wonders to perform."

Still it was never intended that we should know and understand all His dealings with us.

If we had to find a reason for all of God's actions, we should certainly find it very difficult—that we must never forget, is not part of our duty. We have only to submit and say "Shall not the Judge of all the earth do right?"

But we shall not always be kept in the dark respecting these ways of Providence for He has promised saying "What I do thou knowest not now, thou shalt know hereafter."

It must have been a great blow to you to have your brother taken away so suddenly. The news of his death must have come to you with a tremendous shock.

How true it is that oftentimes the trials of life seem greater than we can bear, yet when we know that He who overrules all "doeth all things well" and when we believe further that "He is too wise to err, too good to be unkind," it should console us and lead us even in the midst of our heaviest sorrow, to say from the depths of our hearts "Not my will but thine be done."

In trying to understand the trials and sorrows of life we must never forget how short sighted we are, we cannot see the end from the beginning. We know not what is best for us. These trials which come to us if accepted in the right spirit are full of blessings. The wounds which are made by God are always healed by Him. All that He sends, if borne submissively, becomes rich in mercy. As the Apostle Paul has well said, "These light afflictions which are but for a season work out for us a far more exceeding and eternal weight of glory."

In passing through these afflictions and sorrows Christ who has tasted every sorrow, has promised saying, "I will not leave thee comfortless, I will come to thee," and for even the heaviest sorrows, we are assured that "His Grace is sufficient for us."

In this your dark hour of trial and bereavement we extend to you, and through you to the other members of your family, our sincere sympathy. But after all in the trying hours of life all that human sympathy can heal is but little. In such times we owe and all must flee for comfort to Him who is able and willing to heal all the wounds of life.

Then we can only commend you to Him our only source of true consolation and we trust that He will comfort and sustain you and will pour into your bleeding hearts the balm necessary to heal every wound. Signed in behalf of Harcourt Division,

JESSIE P. DUNN
MARION WATSON
J. ROBINSON BELYEA
R. HENSLEY STAVERT.

Further Confessor

Keeps Silent

QUEBEC, Friday.—Rev. Father Aubert, a Dominican priest, declined this morning to give evidence in the trial of Omer Rochette, for the murder of his wife. Aubert refused to give information concerning the marriage of Rochette to his second wife, which took place twelve days after the death of the first wife. The priest took the ground that as the confessor of the man on trial, he could not divulge what had taken place. He said he held the ruling of the court in high respect, but the circumstances were such that the information could not be given.

Organizing
Against Railways

MONTREAL, Friday.—Mr. Sohier, vice-president of the International Order of Mechanics, is trying to organize the Unions here. Today he and the local agents visited several of the secretaries, and if they get enough encouragement, toward the formation of a Union of all the allied trades, they will go on to Quebec and John. The primary aim is to get strength to oppose the C. P. R. and C. N. R. in the open shop fight. No definite has as yet been done.

MONTREAL, Friday.—Chas. Drinkwater, who had been with the C. P. R. from its inception, died today. He was appointed secretary of the C. P. R. in 1881.

CELEBRATION

AT QUEBEC

Will Be One To Be Long Remembered By The Country

27,000 SOLDIERS

Will Be Present, Largest Army Ever Seen In Canada In Times Of Peace

QUEBEC, Saturday.—Twenty-seven thousand officers and men under canvas at Quebec, will be the representation of Canadian militia at the tercentenary, July 19th to 31st. This is five thousand more than at first estimated and will be the largest army ever encamped at one encampment during time of peace in Canada.

The rules governing the sending of corps have been announced as follows:

All qualified and warrant officers, as well as brigade and divisional staffs, have been ordered to take part. It is especially stated that no provisional officer can attend. Rural battalions will be permitted to take a band of twenty and fifty per cent. of their establishment of men who have served their training three years and more. With city corps it is provided that they must make their choice of two alternatives, which are given them. The first is that they may take their band, their officers and fifty per cent. of their establishment, and receive at least eight days' pay or perhaps more and subsistence while away, as their transport. The second is that as they may take their full establishments and obtain transportation and subsistence for all, but they will only draw pay for four days. Each infantry regiment will in addition be allowed to take five buglers, who, it is stipulated, must be included in the fifty per cent. of their establishment. This also applies to cavalry and artillery, who will only be allowed not more than three buglers.

Pugsley Pays

Respects to Foster

OTTAWA, Friday.—When the House went into com. of supply on Public Estimates Mr. Fowler constituted himself the chief critic of the Minister of Public Works, whom he plied with most irrelevant and useless questions. Hon. Mr. Pugsley good naturedly retorted there was a time when Mr. Fowler had said nice things about him and that, therefore he did not take too seriously his present criticisms.

Mr. Fowler replied with a personal attack on the Minister whose political history he recalled at length. The chairman Mr. Johnston, suggested that Mr. Fowler was wandering away from the estimates.

Mr. Fowler excitedly replied that the chairman wanted him to stop because the Minister was getting the worst of it. Mr. Fowler then proceeded with his harangue, referring to the Minister as steeped in political sin and said there was a time when he called Sir Wilfrid Laurier a traitor.

Hon. Mr. Pugsley said he was not disposed to take Mr. Fowler seriously but he was really indulging in heights of imagination and making statements that were absolutely without foundation. Dr. Pugsley apologized to the House for taking up a moment of time in reply to remarks that were foreign to the matter under discussion. He wished to say, however that Mr. Fowler had made the same speech that he made some months ago before the by-election in St. John. The Hon. Gentleman had strongly appealed to Conservatives to oppose Dr. Pugsley. The answer of the electorate of St. John had been the election of himself by acclamation.

Mr. Fowler said that it was the office and not the man who had been elected. That is rather insulting to the intelligence of the electorate of St. John replied the Minister.

Foresters to
Increase Rates

TORONTO, Thursday.—Shall the old policy holders in the Independent Foresters pay a vastly increased rate for insurance, which they now have or shall they have amount called on the face of their policies materially reduced in order to meet actuarial and financial conditions in which the order now finds itself?

These are the questions which will be discussed at the coming supreme court of the order to be held in this city on June 16. The new rates of premium which are proposed as an act of necessity by the executive will affect those members who joined previous to 1899 and who are at present paying a rate much lower than those whose policies bear a later date.

Certain Chicagoans assert that they have discovered how to metallize human bodies, but the announcement will stir only languid interest in the bosom of the ossified man.

No Settlement Yet

WINNIPEG, Friday.—In spite of the daily conferences between the C. N. R. and C. P. R. and their mechanical unions, no amicable settlement is now anticipated. Neither side will give any information, the various companies withholding their proceedings at present, even from their unions, but it is known that the companies persistently refuse to revoke the new rules which the men claim amount to "open shop."

AMEND THE WORKING ACT

OTTAWA, Friday.—The gold and silver plate manufacturers of Canada today asked Sir Wilfrid Laurier and Mr. Fielding to amend the marking act by providing for the prohibition of the importation from England of gold plate below 9 carats.

FREDERICTON, Thursday.—Within a week work will be commenced upon the contract which the Willard Kitchen Co. of this city has been awarded for building thirty-two miles of the Grand Trunk Pacific between the Tobique river and Grand Falls. Mr. Kitchen who is in the city today stated that the snow on the ground had prohibited work starting before. When the work will be in full swing there will be upwards of one thousand men employed by the Kitchen company and the sub-contractors. Mr. Kitchen estimates roughly the contract price for constructing the thirty-two miles will be about \$3,000,000. There will be a tunnel one thousand feet long. The company will also do some blasting, and will erect the telegraph line and place the ties and rails in position. The building of practically the entire piece of road will be done by sub-contractors. Johnston Bros. of Winnipeg, and Ryan & McDonald of Montreal, have the heaviest contracts on the line. Johnston Bros. will build one and one half miles which will likely cost \$200,000, while Ryan & McDonald will build two miles which will cost about \$250,000.
