**Automobiles Bought Sold and Exchanged**  
**W. J. HOGAN**

### The Present Cost and Selling Price Of Hogs

When a man states that there is no money in hogs he bases his contention largely on more or less accurate records of feeding costs, and feeding costs only. If the market hog cannot even pay for his feed, what then of interest on investment, labour, risk, losses, marketing expenses, etc. etc.

The feed cost to produce one hundred pounds of pork may be calculated by including the cost of maintenance of the breeding stock responsible for the market hogs. Applying this method, one hundred pounds of pork would require about 600 pounds of meal. American farm survey figures indicate even a higher meal cost—615 pounds. Valuing meal and grain at \$70.00 per ton which is conservative enough the herd feeding charges per hundred pounds of pork would amount to \$21.00 on the 6 to 1 basis. Even this does not cover all farm costs.

Figures available from the Experimental Farm System vary closely with those obtained in farm survey reports i. e. that approximately 78% of the cost of pork production is for feeds and the remaining 22% to cover farm costs exclusive of shipping charges. To produce 100 pounds of pork under average Canadian conditions requires from 450 to 500 pounds of grain or the equivalent. At \$70.00 per ton for meal this would represent a feed cost per cwt. of pork of \$16.82 which figure represents only 78% of the total cost. One hundred per cent of the feed plus the farm charge would amount to \$21.88 per cwt.

The above figure may appear startling. There are hundreds of small feeders who can feed a litter or so of pigs on a much cheaper basis. Otherwise there would be very little pork produced. Why can a few hogs be raised comparatively cheaply on the farm? Simply because of the fact that a considerable proportion of the feed is in the nature of a by-product or perhaps home grown. Multiply the swine activities on the farm and it is necessary to purchase more meal and grain at market prices. The cost to produce mounts alarmingly. So with the farm, seek of poultry.

What shall we feed hogs? Grain mill feeds and by product feeds are becoming scarcer than ever. Wheat by-products are practically off the market. The feed marks of the future are most discouraging in prospect. The wholesale price of hogs has not appreciated correspondingly. The man who can feed hogs profitably today MUST HAVE A COMPARATIVELY CHEAP PRODUCT OR BY-PRODUCT to replace meal as largely as possible. Such are scarce. Milk products form the greatest of all. City and hotel refuse is another. Green feed intelligently used, soiled or under the right conditions, pastured, is a third. Barley is one of the best of Canadian hog feeds, too little appreciated. Elevator screenings, if of standard quality, may be utilized wherever available. The man who is raising young pigs, who plans to feed them almost entirely on a grain ration, who has little or no milk or green feed available, will almost certainly be forced to place a high valuation on manure and expectance if he is to get an even break next fall.

**EAT What You Want**  
 without disturbing sleep effects. There is no reason why you should not, now that you know there is a medicine that will unfailingly counteract dyspepsia and other stomach troubles.  
**HAWKINS' DYSPEPSIA REMEDY**

### Empire Press Delegates in Evangeline's Land

(1) Delegates taking a bucket of water from Evangeline's well.

(2) The Statue of Evangeline just after the unveiling by Lady Burnham.

Five continents were represented at the unveiling of the statue of Evangeline, Grand Pre, Nova Scotia. Nearly all those present belonged to the Imperial Press Conference party, and the unveiling ceremony was performed by Lady Burnham, who said:  
 "Evangeline is the beautiful conception of an American poet whose verses we learnt to read on both sides of the Atlantic when we were children. History has shed another light on the Acadian story. We see today that British policy was not as black as it was painted. Whatever may be the truth of the story, as a woman, and an English woman, I shall always regard it as one of the most painful episodes in our annals. Thank God these cruel old days lie behind us forever, and from the fate of Evangeline has sprung a great wave of sympathy which has been carried on the healing hand of time. It is a good omen that the beautiful sun, God's healing hand, should be resting upon us all today, who are here to do honor to that sweet woman. Under those rays in your wonderful land so full of beauty and promise, the old hatred is dead. I have now the great honor and privilege of unveiling the statue of

The statue, which is of bronze, is the work of Henri Hebert from a model by his father the late Philippe Hebert, a descendant of the Acadians of whom Evangeline was one. It is a magnificent work of art, and was presented to the Park at Grand Pre by the Dominion Atlantic Railway, which is now part of the C. P. R.

### THE CITY OF VICTORIA

The charming city of Victoria, on Vancouver Island, the portal to the Pacific, the ocean gateway to the Orient, is one of the most favored spots in the world in beauty of situation, equability of climate and magnificence of scenery. Surrounded by water on three sides, the city is situated in a setting of low-lying wooded hills, in a foreground of the latter ranges of the Island Cascades. Across the Georgian Straits, the Olympian range is distinctly visible, the growing glory of the scene being Mount Baker, which lifts its towering cone in solitary splendor to a height of 11,000 feet.  
 Victoria is recognized as possessing one of the finest climates in the world. The winters are very mild and the summers cool. In May and June Victoria is especially enchanting with the gardens of roses, helios or sunset, bougainvillea and other plants in the state of bloom. The air is laden with the perfume of the plants.  
 The city is approached through a chain of wooded islands. On the left stretches the harbor, sheltering craft from all winds. Directly in front, backed by a crescent-shaped peninsula, the city extends to the water's edge. The city is surrounded by a belt of green hills, the finest of which are the hills of the city. **Scene - Beacon Hill Park, Victoria**  
 Beacon Hill Park, Victoria, is one of the most picturesque winding driveways in the city. To the mountain, Victoria is the gateway to the land of pleasure. Vancouver Island is entered by a series of excellent roads and pleasure drives. The city is surrounded by a belt of green hills, the finest of which are the hills of the city.
