

STRIKE OF C.P.R. MEN IS AVERTED

Agreement Reached by Which Men Will Gain Ninety Per Cent Of Demands

Montreal, July 21.—As the result of repeated conferences, extending over several weeks, a definite agreement was reached this afternoon between the Canadian Pacific Railway Company and its conductors and trainmen, and all possibility that the men will follow the example of the Grand Trunk Railway men and go out on strike is now averted.

At the final conference, which was held this afternoon between Messrs. Leonard and McTier, representing the C.P.R., and Mr. Murdoch and the committee representing the trainmen and conductors, a formal agreement was accepted by both parties, and after it had been typewritten it was signed by the representatives of both parties and became binding.

Men Gain 90 Per Cent Of Demands. The agreement, which covers all the points in dispute, is largely technical. The general principle according to the men's representative, is that the standard rate of pay for the territory east of Chicago is recognized by the rates in the west.

WORK TRAINS COLLIDE

On Pleasant Hills Branch of C. P. R.—Engine Went Down 30 Foot Bank.

Biggar, Sask., July 19.—Two work trains on the Pleasant Hills branch of the C. P. R. came into collision early this morning, an eastbound locomotive with a coal car, rolling down a thirty foot bank and turning over twice in the fall. The crew jumped safely, but the cab and tank were reduced to kindling. The westbound engine was pushing a water tank ahead, which bore the brunt of the collision and saved the locomotive from injury.

The collision occurred on a curve where the outlook is restricted. Had the engine rolled down the opposite bank it would have dropped fifty feet. A wrecking train from Saskatoon under the direction of Superintendent Chudleigh, cleared the track by 9 a.m.

THE HOPEFULNESS OF THE WESTERN PEOPLE

Sir Wilfrid Finds That Optimism Is Unequalled and Irrepressible in the Prairie Provinces—In First Address in Saskatchewan He Refers to Manitoba's Cordial Reception.

Yorkton, Sask., July 19.—Sir Wilfrid Laurier concluded his tour through the province of Manitoba this afternoon when he passed over the boundary into the province of Saskatchewan on his way to the Pacific Coast. Speaking at Ellettsville, in the last of the Manitoba towns visited by the premier, Sir Wilfrid said the province of Manitoba had given him a right royal reception and he would never cease to appreciate it.

"In every town I visited," said the premier, "I have met with a cordial reception which would rarely, if ever, be excelled. I have found the sentiments here toward me that I find in my own province of Quebec."

Sir Wilfrid emphasized the possibilities of the west. He said today: "The further west and north I go the better your country seems to be. I do not hesitate to say that this is the best portion of the continent. The more I see of Western Canada, the more proud I am of the fact that I am a Canadian and the more I see of it the more I love it. In this west you do not know what disappointment is. You might have had a poor crop this year, but you look forward to the next year with the greatest hopefulness. The hopefulness of the west is unequalled."

Since he left Brandon this morning the premier has covered over 200 miles, and at several of the places on the route between Brandon and Yorkton, which he reached this evening, he stopped to deliver addresses to the enthusiastic crowds who met him at the stations. He has received civic addresses and bouquets all day.

Ottawa, July 21.—Hon. W. L. Mackenzie King, minister of labor, has addressed a long letter to President Hayes and the officials of the settlement commission for an opinion regarding arbitration. After reviewing the loss to the public interest from the present situation, he says that the resources of the Conciliation Act have been exhausted, he goes on to say that the company, the men, as well as the settlement commission, consider their moral responsibility for the present situation, and whether further steps by mutual co-operation should not be made to attain a settlement.

Hopes They Will Arbitrate. He then refers to Mr. Hayes' offer to refer the dispute to arbitration, provided the men will agree to accept that finding as final and to a statement of the men on this arbitration question. From these he gathers hope that both parties in theory are favorable to arbitration, and in conclusion he asks in the following terms whether both parties will agree to arbitrate: "I am writing to you to ask if each of the parties will be willing to refer the existing differences to arbitration and to agree to the award given, provided that a board of arbitrators, mutually acceptable, can be secured; I also say that if such a reference to arbitration is agreed upon, all the necessary expenses incidental thereto will be met by the government."

Strikers Reply Received. Ottawa, July 21.—Hon. W. L. Mackenzie King received by telegraph today the reply of the strikers to his invitation to arbitrate. From these he stated that the prospects for the appointment of an arbitration board are still good.

Affecting Ottawa Industries. Ottawa, July 21.—Industry, Ottawa is beginning to be seriously affected by the strike. One large packing establishment, employing 600 men, was shut up this afternoon to the shut-up. About 3,000 men in Ottawa and Hull are idle. They were to have commenced work on the Chateau Laurier yesterday, but were unable to do so on account of having no material. Unless a strike is soon settled it is said the stone masons at work on the Chateau will have to quit work for the same reason.

Elevator Burned. Brandon, July 18.—The McCabe company's elevator at Beverley, thirty miles south of Brandon, on the Great Northern, was destroyed by fire on Saturday night. The building contained 5,000 bushels of wheat. The elevator and its contents were a total loss. It is reported that the fire was the work of an incendiary. The loss is about twenty-five thousand.

When the stomach fails to perform its functions, the bowels become deranged, the liver and the kidneys congested, causing indigestion, flatulence, and a general feeling of uneasiness. The stomach and liver must be restored to a healthy condition and Chamberlain's Stomach and Liver Tablets can be depended upon to do it. Easy to take and most effective. Sold by all dealers.

MILNER AND AMERY ON EMPIRE UNITY

Two Celebrated Imperialists Deliver Strong Addresses on Imperial Constitution Before Distinguished Audience of Royal Colonial Institute.

London, July 19.—Viscount Milner presided at a meeting of the Royal Colonial Institute, at the Whitehall Rooms, London, when Mr. H. Fenwick L. Amery introduced a discussion on "Some practical steps towards an Imperial Constitution." There was a distinguished company present among them being Brigadier-General Sir Frederick Lugard (Governor of Hong-Kong) and Lady Lugard, the Hon. R. H. B. Brand, the Hon. W. Peckers, Lieut.-General Sir J. Bevan Edwards, Lady Edwards, Admiral Sir Harry F. Wilson, Colonel Sir John S. Young, Hon. T. A. Brassey, Mr. J. Henniker Heaton, M. P., Sir William Russell, and Lieut.-Colonel Sir Matthew Nathan.

Mr. Amery, in the course of his paper, said: "The importance of constitutional issues is being brought home to us very directly in this country at the present time by the discussion over the powers and composition of the House of Lords. Without minimizing the importance of the House of Lords, that discussion, I venture to submit that there is a far more important and minority constitutional problem which confronts us in the present relations of this country to the younger nations of the Empire. Failing to arrive at a solution of the problem means the disruption, gradual or sudden, of the Empire as a world state, and a disastrous loss, if not irretrievable ruin, to each of its component parts."

Powers of Overseas States. Mr. Amery went on to point out that the existing constitutional framework of the British Empire had entirely ceased to be adequate in view of the circumstances of the time. The changes during the last twenty years had been especially great, and the conditions were rapidly changing. The scattered groups of Colonies, said Mr. Amery, have become great Dominions, no longer in the past, but now by young nations, nations conscious of their individuality, and filled with the ambitions of great national destiny. In actual fact, the Imperial Federation League, and for some years past, the Young Men's League, have been doing their best to bring about a new constitution for the Empire. He believed that before long the Congress of the Empire would constitute a deliberative body not very far removed from a true parliament of Empire.

Mr. Amery said that on looking back himself on the movement of the Imperial unity he recollected that at the time he left the university, more than twenty years ago, it seemed to have entered into a new era of development. That was, if he remembered rightly, the time of the formation of the Imperial Federation League, and for some years past, the Young Men's League, have been doing their best to bring about a new constitution for the Empire. He believed that before long the Congress of the Empire would constitute a deliberative body not very far removed from a true parliament of Empire.

DR. CRIPPEN WHOLLY DROPS OUT OF SIGHT

Scotland Yard Has Found No Trace of Man Since He Was Last Seen at 110, Grosvenor Gardens, London.

London, July 19.—This evening Scotland Yard has found no trace of Dr. Crippen since he was last seen at 110, Grosvenor Gardens, London, on the morning of the murder of his wife. The doctor, who is charged with the crime, has been reported to have fled to the continent. It is believed that he is now in the hands of the police of some foreign country.

It has been a long time since a murder case in England has attracted such general attention. The fact that the murdered woman and her husband, who is charged with the crime, are Americans, has spurred the police to unusual activity. The full force of Scotland Yard under the personal direction of Superintendent Forest, are making a thorough search for the fugitive doctor and Miss Ethel Clara Levee, who is believed to be with him.

Mrs. Crippen Was Jealous. Miss Levee was employed by Dr. Crippen as a typist. It is stated that Mrs. Crippen objected to the presence of the young woman in her husband's office, and that his refusal to dismiss her led to frequent quarrels between husband and wife. Some time after Mrs. Crippen disappeared Miss Levee appeared in public with Dr. Crippen, who introduced her as his typist. The doctor, however, explained that his former wife had left him, following a quarrel, and that she had subsequently died.

Reported to Have Been Seen. The police say that Crippen and Miss Levee were seen together some time the latter part of last week. They are still convinced that the two fled the country, sailing either for the United States or the continent. At the same time both have been reported as having been seen in different parts of this country, and the authors of these reports are not without grounds for believing that if this is the case the police believe that their separation is only temporary and in the hope of thus avoiding detection.

Identification Not Complete. Whether the matter of identification will also be determined is a matter of doubt, but the importance of this point has not been overlooked. The police appear to be satisfied that it was Crippen's wife who found a grave in the cellar of her home, so far as known the identity of the body was not established to the satisfaction of the law. After death the body was cut to pieces, and some of the bones were removed, as a hand skilled in surgery, and the flesh covered with quicklime, that destroyed the possibility of easy recognition.

Revolver Found by Body. The police consider the story of the shop woman who told of hearing the reports from revolver practice in the Crippen garden on different occasions and later being aroused during the night by a woman's screams are significant when connected with the fact that a revolver was found nearby where the body was discovered. It develops that Crippen had in his possession only \$250 when he disappeared, but according to the police, he had been carrying a large sum of money in the jewelry that had been his wife's. From this they figure that his funds cannot hold out long, and that he will not be likely to attempt to dispose of the jewels.

The police late today concluded their examination of the Crippen residence and grounds, having disposed of the theory advanced by some that a burial ground for bodies other than the one discovered.

A Neighbor's Story. "The first story of what may have been the actual committing of the crime was told today by a neighbor of Dr. Hawley H. Crippen, in the cellar of whose home was unearthed the body believed by the police to be that of the physician's wife, the American woman who was known on the stage as Belle Elmore.

Since the discovery of the body and the disappearance of Dr. Crippen and his typist, Miss Ethel Clara Levee, the Scotland Yard detectives have inquired diligently among those living in the vicinity of the Crippen home in Hill Drop Crescent, North London, for some information that would throw light upon the domestic habits and relations of the doctor and his actress wife.

Heard Screams for Mercy. Nothing helpful was learned until today, when the proprietress of a small shop at the rear of the Crippens' residence told of hearing a woman's screams and pleas for mercy arising seemingly from the cellar in which the burned and mutilated corpse was later found.

BR/DSTREETS REPORT

New York, N.Y., July 22.—Broad streets tomorrow will say of Canadian trade.

Wholesale trade in Canada has declined somewhat. This condition is partly due to seasonal developments, but the most complete factors are the strike of railway employees on a leading line and adverse crop reports from the west. The strike has hampered wholesale trade at Montreal and also seriously affected shipping facilities at that port. Incidentally, the stoppage of work will be very keenly felt by retail dealers.

Wholesale trade in Canada has declined somewhat. This condition is partly due to seasonal developments, but the most complete factors are the strike of railway employees on a leading line and adverse crop reports from the west. The strike has hampered wholesale trade at Montreal and also seriously affected shipping facilities at that port. Incidentally, the stoppage of work will be very keenly felt by retail dealers.
