Filing and Finding Papers Made Easy

Relief from tedious details in filing and finding correspondence and similar papers will be eagerly welcomed by the business man who is harassed by the loss of time and vexatious mistakes due to careless filing.

If you have not had the opportunity of seeing a Vertical Filing System in use, phone to us. We'll arrange a demonstration to suit your time and convenience. You'll be benefited because the Vertical Filing System will produce the correspondence you want in ten seconds! You may have our System Catalogues, too.

Home Beauty Aids.

"Household Hints."

A persistently shiny nose or a dull, lifeless complexion drives many a woman to cosmetics and consequent despair. And all the time a simple remedy lies at hand in the home. If you have no clematis in the house you need only get about an ounce from your chemist and add just sufficient water to dissolve it. A little of this simple lotion is Nature's own beautifier. It is very good for the skin and instantly gives the complexion a soft, velvety, youthful bloom that any woman might envy. It lasts all day or evening, renders powdering entirely unnecessary, and absolutely defies detection.

To bring a natural red colour to the lips, rub them with a soft stick of product.

Getting Rid of Female Moustaches.

To women who are annoyed by disfiguring, downy hair growths a method of permanently eradicating the same will come as a piece of good news. For this purpose pure powdered phenol may be used, applied directly to the superfluous hair. Almost any chemist should be able to supply an ounce of this drug. The recommended treatment is designed not only to remove the disfiguring growth instantly, leaving no trace, but to actually kill the hair roots without irritating the skin. * * * * * Object-ionable body odours resulting from perspiration and other causes may be instantly banished by simply applying a little powdered (white) percol to the affected surfaces occasionally. * * * Smart women are rapidly adopting the use of the natural alicite of orange blossoms when the complexion is inclined to be oily. It makes a capital greaseless cream and holds the powder perfectly.

The Magnetism of Beautiful Hair.

Beautiful hair adds immensely to the personal magnetism of both women and men. Actresses and smart women are ever on the lookout for any harmless thing that will increase the natural beauty of their hair. The latest method is to use pure stallax as a shampoo on account of the peculiarly glossy, fluffy and wavy effect which it leaves. As stallax has never been used much for this purpose it comes to the chemist only in 1/4 lb. sealed original packages, enough for fifteen or twenty shampoos. A teaspoonful of the fragrant stallax granules, dissolved in a cup of hot water, is more than sufficient for each shampoo. It is very beneficial and stimulating to the hair, apart from its beautifying effect.

For a natural hair-grower nothing equals pure boranum. It is quite harmless and sets the hair roots tingling with new life.

Brushing the Eyelashes.

Much can be done to train and beautify the eye-brows and lashes by gently stroking them with a soft camel-hair eyebrow brush. There is nothing which so enhances the beauty of the face as fine eyebrows and long, curling, dark lashes. Clipping the lashes to make them grow longer and stronger was long ago abandoned as worse than useless, and smart women of to-day will risk no such radical method. Instead, many of them use a perfectly harmless but very rare and delicate substance known to chemists as menaline. It greatly stimulates and also to darken the growth of the hairs in brow and lash. It may be applied at night with the finger tips close to the hair roots. Rouge is always obvious, but powdered collaudum defies detection, and is quite harmless.

Strychnine For Speed.

Stockholm, March 20.—Recent remarkable results attained in skating races at 5,000 and 1,000 metres, when the Russian Apollonov, broke the world's record of the champion Norwegian, Mathiesen, at Helsinki.

are accounted for by the Russian taking strychnine immediately before the race. The poison is said to affect the energy and will power to a high degree. The blood pressure of the Russian immediately after the race was 148 as against 108 of the Norwegian.

Needs \$240,000 A Year.

French Countess Says She Cannot Live Decently on Less.

Paris, March 25.—Two hundred and forty thousand dollars annually is the minimum on which a countess can live decently in this country, judging by the suit just brought against her two sons by the Countess de Perdon, a member of one of the oldest families of the French aristocracy. The countess resides at the Chateau de la Roche-Zenon, and avows that her diminished revenues are insufficient to allow her to keep up the traditions of her patrician lineage, especially in view of the increased cost of living. She is, therefore, suing her sons for the allowance of \$240,000, asserting that as sole heirs of the late Lichel Pasha, director general of the Turkish lighthouses, they are well able to afford it.

Newfoundland With Saving Trip.

The S. S. Newfoundland, Capt. W. Kean, returned from the icefields at eight o'clock Saturday evening, having made 13,000 seals, 10,000 young and 3,000 old. The Newfoundland struck what was supposed to be the main body of seals on March 17th in company with the Stephano. Dense fog prevailed and Capt. 'Wes.' had to exercise great care in directing his men. Eight thousand were killed in the patch but only 5,000 secured, the rest being lost when the ice loosened and broke up, after that the Newfoundland got into a small patch with the Florizel and got 2,000 out of it; several other small patches were struck and 700 and 800 were taken out of them. The ship could scarcely move in the ice. Her stem was stove in by contact with heavy ice early in the spring and as a result she was leaking, the pumps having to be kept going constantly. She could not turn in ice at all and required careful nursing. The Newfoundland struck a patch of old hoods on April 3rd, three thousand were killed and stowed down; no seals were taken since then and on Friday Capt. Kean decided to bear up for home. The Newfoundland's seals are very heavy.

Action Taken.

The fishermen who were to the seal-fishery in the Sagona have taken action against Crombie & Co. for the recovery of \$3.00 which the stokers claim to be due them, according to agreement, for bringing the ship to Pool's Island before the sealing voyage opened. Mr. W. J. Higgins has been retained by the plaintiffs.

MINARD'S LINIMENT CURES GARTER IN COWS.

Coban Arrives.

The S. S. Coban, Capt. McPhail, arrived here yesterday at 1 p.m., after a run of 48 hours from Louisburg, coal laden to the Reid Nfld. Co. The ship had fair weather on the run but had fog and rain Saturday night. She is discharging at the dry dock.

Considerably Damaged

The S. S. Earl of Devon which went into the dry dock, Saturday, with the Morwenna, is pretty badly damaged about the hull under the water line; several of the plates are indented and there is a hole under the engine room. The work of repairs will be rushed.

With The Cue.

The final billiard game in the B. I. S. tournament will take place tomorrow night when the skips for both sides will compete. On Saturday evening Mr. F. O'Leary (plain) defeated P. O'Mara (spot) by 49 points. Plains are ahead by 94 and an exciting finish is promised.

Maximum of Nutriment

**EPPS'S
COCOA**

GRATEFUL—COMFORTING

The unsurpassed food value of this delicious and fragrant cocoa is due to the retention of the nutritious cocoa butter. There is warmth and strength and energy in every cup of Epps's Cocoa. It is a most refreshing and stimulating breakfast beverage, whether for old or young. Children thrive on "Epps's"

Neptune At Channel.

A message received from Channel last evening stated that the S. S. Neptune had arrived there hailing for 24,000 seals; she also reported 12,000 to be stolen on her. The vessel left for St. John's at 6 o'clock last evening.

ATTACKED BY DOG.—Saturday afternoon a boy named Fox was set upon by a vicious dog. The little chap's screams attracted citizens who gave the canine what it deserved.

INGRAHAM RETURNS.—The tug Ingraham arrived here at noon, yesterday after being north with members of the Sagona's crew, which she sailed with from Harbor Grace. The tug landed men at Trinity, Shambler's Cove and Cat Harbor and had fine weather going and coming.

UNION DELEGATE.—Mr. W. E. A. O'Dell, of Boston, a delegate of the Shoe Workers International Union, arrived here by the Bruce express on Saturday. He comes here to organize the local union and confer with Executive as to its work in the future.
