THE LONDON BUDGET. LONDON, To-day.

The Austro-German armies contin-ue to press the Russian forces, defending Warsaw. While they have made progress at some points, they have not as yet made any serious breach in the well-fortified inner lines, defending the city. The Russians have been pressed back to bridgehead positions directly west of Warsaw and into the fortress of Ivangorod further southeast of the Vistula, but at these points they are probably in a better position to offer tubborn resistance than their oppon ents. Two attacks that are being made from the north along the Narew River by Von Hindenburg and that which Von MacKenzen is directing from the southeast between Vistula and Bug Rivers, have apparently been held up, or the Germans are waiting for an opportune moment for a move forward to catch the Russian armies, should it be decided to evac-uate Warsaw. At any rate, Berlin Pacific, near Fiji Islands. official statement does not claim any advance for Von MacKenzen, while the report although it states the Russians have ceased counter-attacks along the Narew, does not mention success on the part of Von MacKen-

TROUBLE BETWEEN ITALY AND TURKEY.

Diplomatic relations between Italy and Turkey are already strained and are becoming more tense, because of the reported refusal of Turkish authorities to permit Italian subjects to leave the Ottoman Empire. It is believed here that a declaration of war in the near future is highly probable. in the near future is highly probable.

Struck a Rock Near Cape Broyle

The S. S. Polanhall crippled into port at ten o'clock to-day for repairs. She was fourteen days out from West Hartippool, bound to Cape Henry, in wate, ballast. Last evening the ship encountered dense fog while coming along the Southern Shore and struck a rick near Cape Broyle. It was the boy of the vessel which struck. A hate was punched and water began to rush into the fore peak quickly. The ship then came along to port slowly. She will be dry docked for repairs, following a survey this afternoon. The Polanhall is 4,010 tons gress and is 14 years old. She was never here before.

An Interesting Programme.

The Sports' Programme of the Mt. Cashel Garden Party next Wednesday promises to be one of unusual interest. The final baseball game for the H. D. There will also be some new competitors who will likely be heard. competitors who will likely be heard

the Westward is, on the whole, a complete failure, while on the contary the bank fishery is a great sucess. In and around Placentia and S. Mary's Bay the codfishery is the worst for the past quarter of a cen-try. At St. Lawrence, Lamaline and ang that section of the coast there ita fair trap voyage, but nothing beit done by trawlers and hook and hers. Even along the Southern Sore, where the fishery opened re-mrkably good and gave promise to bean unprecedented success, there has been a falling off the past week or io. Regarding the Bank fishery ikiner Tom Hollett and John Lewis are igh liners with about 3,200 qtls. land, each. They are now getting reach the Labrador trip and hope to reach the four thousand mark.
