ERAL COLLECTOR. The 1908 Issue.—In 1908 a two cent stamp was issued but for what pur- the new Gibbons catalogue. Unless pose no one has yet been able to dis- otherwise stated all stamps quoted cover. This stamp, which is carmine are unused. in color, bears on it a map of the island. It is supposed that is the precursor of a new set and Jan. 1913copies of the 1c. and 5c. were reported though they have never been seen. "It has been stated that the supplies of those stamps were shipwrecked 1914and for this reason they were never placed on sale," says Mr. J. Ireland in an article written some time ago in the "Stamp Lover." Whether he is right or not I do not know, but what he says could quite possibly have happened. The only thing worthy of note about this stamp is that it is the last ever printed by the American Bank Note Co., New York, for Newfoundland. Although this firm continues to print our revenue stamps, it no longer is able to advertise itself by means of its name in serted in the space at the foot of the

complicated one I shall deal with it

next week.

The Latest About the Provisionals: -From late reports received, our 1853provisionals are beginning to decline in value in the English market. I note that stocks are now in the hands | 1861of several dealers. I have seen these stamps quoted as low as 16 for the 2c. on 30c., 3 6 for the 3c. on 35c. and 5 - for the 3c. on 15c. wide spacing. The narrow spacing of the 3c. on 15c is now quoted at 10 shillings, whilst the "o" of TWO over "s" of CENTS variety of the 24 on 30c. is also quoted at 10 shillings. No quotations have yet been made on the inverted surcharge of the 2c. on 30c. of which only 75 are said to exist, of the missing bar variety of the 3c. on 35c. nor of the inverted surcharge of the narrow setting of the 3c. on 15c. A wellknown collector informed me recently that he would sell the only copy he possessed of the last mentioned variety for \$37.00. This seems rather a stiff price, but as there are only 25 conies in existence. I do not think that it is unreasonable. I believe that there are still a lot of these provistors dislike it is attempts at specula- and early season. tion by holding over large stocks of stamps until the prices rise. As a

rule the speculator burns his fingers. C. C. C. At Home The Alcock Air Stamps are a very good instance of the truth of this statement. Several sheets of these several months will probably elapse ance and lady friends will serve supbefore prices will settle down.
