A Big Plate of Home Made ICE CREAM.

This Freezer is small, but it will make two quarts of Ice Cream, enough for quite a large family. It weighs only 2 1/2 lbs., and may be kept on the pantry shelf. It saves ice, for it requires about half as much as a freezer with a wooden tub. It can be placed in an ordinary refrigerator after the cream is frozen.

This saves ice and time and labor in packing.

Two Quart Sizes, \$2.00 each.
