The Earthquake in Syria.

The Earthquake in Syria.

Particulars of the late earthquake in Syria, which caused such terrible loss of life, are now-coming to hand. At appears that the fatalities were not greatest in the city of Antioch, as the first desputed intimated, but were heavier in the country in the vicinity of that city. A letter from Antioch under date of the 4th of April says the American Protestant church was severely injured. Four of the American community were killed; all the members of the families of the missionaries are safe. The number of persons killed in the city of Antioch is less than 300, but it is known that 1,600 people are, in the surrounding towns and country where the shocks were as severe, if not greater than here, were killed, and this number may be increased. The distress of the people will be only temporary, as the crop prospects are good. The supply of provisions on hand is moderate. Correspondents of the London papers praise the Rev. Mr. Powers, an American missionary, for his assiduity in administering to the relief of the afflicted people.

"Horse-men," and others who pretend to know, say that the following directions had better be observed in using Sheridan's Cavalry Condition Ponders: Give a horse a tablespoonful every night for a week; the same every other night for 4 or 6 nights; the same for a milch cow, and twice as much for an ox. The addition of a little fine salt will be an advantage.
