

The leading editorial of a Cincinnati paper says: "Fifty millions of paper collars and cuffs are made annually at Troy, New York, and 13,000 people are employed in doing it." According to this the "people" average about 8,000 collars a year each, or ten a day for each working day in the year. At the low price of these articles their means of livelihood are scarcely visible.

**A Chemical Food and Nutritive Tonic.**

Without Phosphorus no thought, say the Germans, and they might add, no action, since Phos. is the motive power of the nervous and muscular system. They constitute more than half the material of the human body, and are found in every tissue, and their presence is absolutely essential to nutrition, they promote the conversion of albumen in the food into fibrine, which is the vitalizing agent of pure, healthy blood. They are now coming into universal use in Europe and America in the treatment of Scrophulous, Consumptive and Venereal diseases, which are caused by impoverished blood, and in diseases of women suffering from irregularities, obstructions and exhaustive discharges, in pale, puny children, and that condition of nervous and physical prostration resulting from bad habits, excessive use of stimulants and tobacco, and all that train of evils known as a fast life. The great reliability and promptness in its effects, immediately and permanently restoring the debilitated constitution, has made Dr. WIGGLESWORTH'S COMPOUND ELIXIR OF PHOSPHATES and CALISAYA a great favorite with the Physicians and Public. Sold at \$1.00.
