GAS EXPLOSION

In the Blast Furnace of a Pittsburg Establishment.

Nine Men Killed and Three Probably Fatally Hurt.

A Number of Others Injured-Money Loss Estimated at \$20,000-Death Trap From Which There Was No Escape.

Pittsburg, Pa., Dec. 19.-By an explosion of gas in the Soho furnace of Jones & Laughlin, near Brady street, this city, at 6:20 o'clock this morning, nine men were burned to death and probably twenty others more or less injured. The damage to the plant will amount to \$20,000.

The explosion occurred in one of the big blast furnaces. The men were at work at the top of the furnace, over 120 feet from the ground. They were

ting ready to quit work, being mem-bers of the night crew, when the gas which accumulated in the furnace, exploded and TONS OF MOLTON METAL. inders and slag were thrown over the unfortunate men on top of the struc-ture. When the gas let go a panic ensued on the small platform about the

employed as fillers and were just get-

top. All the men made a rush for the elevator, but it had gone down and THERE WAS NO ESCAPE. To jump meant death, and to remain platform was just as certain a The tons of molton metal and flames fell upon them and burned ten men to death. Their bodies dropped to the roof of the mill, 85 feet below, very bone broken and an unrecognizable mass of human flesh.

TO THE RESCUE. Hurry calls were sent to the police and morgue. Patrols from all sections wagon was with them. The bodies of some of the dead and many of the injured were strewn about the yard beneath the furnace, some of the dead having fallen from the slippery roof to the ground. The cries of the injured broke the stillness which had spread over the place when the fury of the explosion and fire had abated.

To remove the dead from the roof of the mill it was found necessary to get hook and ladder. The firemen carried the burned, charred and miss-hapen masses of humanity to the morgue wagon and placed them in. Four bodies were removed at a time the wagon making three trips, When the dead were removed the in-

jured were then looked after. In all parts of the yard beneath the furnace the injured were found. How many injured they are is not known at this The injured were hurried to the Mercy and other hospitals.

NINE KILLED. At 9 o'clock Thomas Jones and Arthur Young, managers of the plant, gave out the statement that nine men were killed and five injured. They say that ordinarily only three men work on top of the furnace, but this morning about 6:15 o'clock one of the heavy iron wagons used in taking up the ore to the top of the furnace got stuck on the structure, and the three men sent for assistance. A few men went up, but they could not move the wagon, and more went up, until the number reached fourteen. It was while they were trying to get the wagon released that the fatal explosion took place. All the men at work on top of the furnace were Slavs and Poles. Nine of them were killed outright and three taken to Mercy Hospital are so badly hurt that it is feared they will die.

The Preference Shown by Thinking People for Dr. Chase's Syrup of Linseed and Turpentine - Record Sales Last Month.

Considering the large number of remedies for coughs and colds that are now offered to the public, and in view of the fact that nearly every druggist has a preparation of his own which he makes an effort to substitute for the medicine asked for, it seems truly remarkable that the demand for Dr. Chase's Syrup of Linseed and Turpentine should increase such leaps and bounds.

During October the sales of Dr. Chase's Syrup of Linseed and Turpentine exceeded by several hundred bottles the record of any previous month in its history. When it is remembered that this preparation receives very little newspaper advertising the evidence seems to be conclusive that it makes its way by sheer force of merit. Thinking people recognize the harmfulness and danger of using strong drugs which are said to cure a cold in a few hours. They prefer to cling to and copies duly signed and exchanged Dr. Chase's Syrup of Linseed and Tur-in Washington before it can become pentine, which they know beyond a doubt to be a thorough and effective treatment for coughs, colds, croup

bronchitis, whooping cough, throat irritation, asthma, and even consump-The combination of linseed and turpentine, with half a dozen other ingredients of equal value for treating and Turpentine, has proven to be a perfe protection against such developments as pneumonia, consumption, and serious lung troubles. preparation to afford prompt relief Do you suppose that, the sale of Dr. Chase's Syrup of Linseed and Turpentine would be more than three times that of any similar preparation if it was not the most effective remedy that money can buy? It has stood the test and proven itself worthy of the confidence that is placed in it. People recommend it one to another, and so the good news spreads. AN EXPLANATION

Re Anglo-American Telegraph Company's Treatment of Marconi.

New York, Dec 18 .- The solicitors of the Anglo-American Telegraph Co. have made public the following state-

There seems to be some misapprehension as to the action of our clients, the Anglo-American Telegraph Co. (Limited), with respect to the experiments in wireless telegraphy re-cently carried out at St. John's, Nfld. by Mr. Marconi. In a letter addressed to Mr. Marconi by the company's legal advisers in Newfoundland, after stating the company's intention to take the necessary steps to secure a recognition of their rights in the colony, the letter proceeds: 'However, they (the company) instruct us to inform you that they are not averse to giving the most careful consideration to any proposals which may be put forward by you with a view to the further continuance of your work.' As to the statement said to have been telegraphed from St. John's by Mr. Marconi, on the 17th inst., to the effect that in consequence of the threatened legal proceedings of the company, he was compelled to discontinue wireless telegraph tests between England and the colony, we give the following extract from a letter of Mr Marconi, dated the previous day (the 16th), to the company's advisers: may mention that prior to the receipt of your letter I had decided to discontinue the tests and to remove the in-
