

42ND YEAR. NO. 17816

THE ADVERTISER, LONDON, ONTARIO, WEDNESDAY, MAY, 2, 1906.—TEN PAGES.

PRICE TWO CENTS.

**NEW DEPOT WILL NOT GO EAST;  
MATTER PRACTICALLY SETTLED****G. T. R. Officials Meeting Railway Committee This  
Afternoon—Liability Clause Has Been Dropped.**

A meeting of the railway committee of the city council was called for this afternoon at 3 o'clock, for the purpose of meeting Manager McGuigan of the Grand Trunk Railway in regard to the proposed improvement in London.

The city solicitor has completed the agreement, which will be submitted to both the city and the company, and each alderman and the mayor now has a copy of it.

It is understood that Superintendent Brownlee, and Mr. Biggar, the Grand Trunk solicitor, from Montreal, with one of his assistants, will also be present.

From good authority, it was learned this morning, the new depot is to be built across Clarence street, and that it will not be moved east unless a vote of the council chooses to have the present agreement amended, and this is scarcely likely.

At all events, it is understood that a clause is now entered in the agreement which fixes the location of the new station between Richmond and Wellington streets, and across Clarence street, with a 20-foot opening, for vehicles and pedestrians.

It is further understood that the Grand Trunk has agreed to make all 66-foot streets in the city crossed by the overhead tracks the full width, and that there is a good chance for a 20-foot opening at Colborne street. Previously, the company would not agree to a 20-foot viaduct at any street but Wellington.

The clause which made it clear that the G. T. R. would be liable for all damages will likely be eliminated, as the company is liable anyway.

As to the lighting of the subways and viaducts the city and the company will have yet to come to terms. So far Mr. McGuigan has refused to pay for the lighting, but the city claims that as the company will be able to dispense with a large number of watchmen because of the overhead tracks, it could well afford to pay for the lighting of the subways and viaducts.

It is understood that the committee this morning decided to exclude the reporters from the meeting this afternoon. If this decision is adhered to it will mean that two of the meetings with the company so far have been held behind closed doors.

Some of the committee claim that it isn't necessary for the people to know anything about the agreement until it is presented to the council for final ratification.

This will probably be on Monday night next.

The Grand Trunk has a large gang of men at work tearing down buildings which are in the way of the extension of the tracks in the city. Today the old No. 2 freight shed, which runs from Burwell to Maitland street, along the tracks, is being demolished.

It is understood that the old depot, used by the Grand Trunk before the absorption of the Great Western Railway, will also have to go.

**25,000 ARE IDLE  
IN LAKE PORTS****Tie-Up of Shipping by 'Long-  
shoremen's Strike Is Now  
Complete.**

Buffalo, N. Y., May 2.—The strike of the longshoremen put an effective embargo on Lake Erie commerce yesterday, and today it is expected traffic will stop at all upper lake ports. All unions affiliated with the longshoremen either quit or made preparations to quit work. There are about 25,000 men idle and that number will be vastly increased when industries dependent upon lake commerce for supplies are compelled to cease operations.

The strike being primarily in aid of the lake pilots, the returns of the first day were expected to show the number of pilots affiliated with the longshoremen. But that important point is still clouded. Vessel owners claim not 10 per cent are in the labor union. Longshoremen claim 90 per cent.

**FAULDS CASE ARGUED****Love to Secure Possession of Child  
Before Justice Anglin**

The action brought by John A. Faulds, barrister, of this city, to recover possession of his 11-year-old daughter, Eva, who is now residing with her grandmother, Mrs. Isabella Gibb, of Wardville, came before Mr. Justice Anglin, at Toronto, yesterday, when Mr. W. E. Middleton (representing Mr. Faulds) moved for an order for the custody of the child. The motion was opposed by W. A. McMaster (Toronto), on behalf of Mrs. Gibb. Judgment was reserved.

**QUITE LIKELY PARK THEATER  
WILL BE OPERATED THIS YEAR****Majority of Commissioners Are  
Opposed to Keeping It Closed  
—Get Offers for It.**

There is every probability that the Springbank Theater will be running as usual this year. It is understood that Mayor Judd and Chairman Darch are in favor of keeping the theater open, while Commissioner Saunders, though opposed to playhouses on principle, has not singled out the theater at Springbank as one of which to make an example.

Up till the present the commissioners hoped to be able to influence the street railway company to maintain the old schedule of fares, but yesterday this hope was blasted, for the new rate went into effect the 1st of May.

The commissioners appear to be of the opinion that the people want the Springbank theater, and it is felt that if a reliable man is given the management, the tastes of Londoners will not be offended.

Some offers as high as \$500 have been made for the theater, provided the commissioners will roof it in, but this the commissioners will not do. If any performances are to be given in the

**TORNADO SWEEPS  
TEXAS COUNTIES****Crops Destroyed, Immense Dam-  
age Done to Farm Property,  
Church Blown Down.**

Dallas, Texas, May 2.—A tornado swept over parts of Brown, Wise, Denton and Grayson Counties late yesterday afternoon, doing great damage to crops and farm property. Two persons are known to have been killed. At the village of Cowen in Wise County, one house was destroyed, and Mrs. Parks was killed. Two other persons were badly injured and they may die.

At Stony, in Denton County, the house of Joseph Foster was blown down and the ruins took fire. Mrs. Foster and the children crawled out of the ruins safely, but Mr. Foster was pinned down by heavy timbers, and before rescuers could get him out he was so badly burned that he died last night.

At Sherman a Methodist church was blown down, and at Brownwood several houses were badly wrecked.

**STEAMERS ARRIVED.**

May 1. Reported at. From.  
Holland, New York. Genoa.  
Oscar II, New York. Copenhagen.  
Kino Prinz Wilh., New York. Bremen.  
Bohemian, Boston. Liverpool.

Nimrod, Father Point. Glasgow.

**Congratulations.**

Ottawa, May 2.—Lord Grey has received the following cable from the British ambassador at Athens: "Congratulations on Sherrington's victory." (Signed) Elliott.

**WITTE HAS RESIGNED****Russian Premier Steps from Office—  
Goremykin Succeeds.**

St. Petersburg, May 2.—The resignation of Count Witte as premier has been accepted. He will be succeeded by M. Goremykin, former minister of the interior.

The official announcement of the changes in the cabinet will be made tomorrow.

The clause which made it clear that the G. T. R. would be liable for all damages will likely be eliminated, as the company is liable anyway.

As to the lighting of the subways and viaducts the city and the company will have yet to come to terms. So far Mr. McGuigan has refused to pay for the lighting, but the city claims that as the company will be able to dispense with a large number of watchmen because of the overhead tracks, it could well afford to pay for the lighting of the subways and viaducts.

**EARTHQUAKE FREAKS****River Has Fallen Twelve Feet, Lake  
Is Drying Up.**

Stockton, Cal., May 2.—It has been discovered that in the vicinity of Woodbridge, the Mokelumne River has fallen twelve feet, the bed of the river having dropped from the effects of the recent earthquake shock. As the waterway has overflowed frequently farmers along the stream are highly pleased with the change, since it can carry far more water than heretofore, and not endanger their lands. Another incident of the earthquake is the drying up of the Tracy Lake in the northwestern part of San Joaquin County.

**RED FLAG AT MONTREAL****Parade of Socialists Passes Through  
Streets, But No Disturbance.**

Montreal, May 1.—For the first time in the history of Montreal, Socialists marched through the city's streets last night under the red flag. The procession, which was headed by the great red ensign of the Socialist party, marched to the music of the Italian band, playing the socialist anthem, "L'Internationale," through some of the principal streets. The procession, which numbered about 500 men, included representatives of the German and Canadian Socialists, Social Democrats, Industrial Workers' Union, Socialist Labor party, Italian Federation of Socialists and the group of the German "Makers," Cap Makers, Carpenters and Machinists' Unions. When passing Laval University there were shouts of "Down with the clerical skull caps!" The demonstration passed off without any disturbance.

**MEDS. HAVE BANQUET****First, Second and Third Year Stu-  
dents at Pleasant Gathering.**

The annual banquet of the first, second and third year medical students was held last night at a local cafe. A full representation of the different classes were present and an excellent time was spent.

After the dinner, a programme of speeches, songs and instrumental solos was given. The inevitable college yell was also given with a will.

The programme was as follows: The King, vocal solo, H. Chamberlain; piano solo, M. E. W. G. Quanz; The Faculty, Dr. Westcott; vocal solo, Ed. Jeffries; Our Country, piano selection, C. Smith; The Profession, Dr. Williams and Dr. Kingsmill; vocal solo, Allan Danks; The Ladies, Dr. Campbell; violin solo, A. Wood; light sketches, Roy. Lindsay; vocal solo, Jack Nash; Future Success of the College, Dr. Seaborn; vocal solo, Bert Stockwell; Success of the Convocation, piano selection, Jack Wood.

**PLENTY OF WATER****Niagara Falls Has Much More Than  
Necessary for Scenic Purposes.**

Niagara Falls, N. Y., May 2.—S. P. Franchot, chairman of the committee appointed to prepare a brief to be presented to the rivers and harbors committee of Congress, setting forth the objections of the city to the Burton bill, left here last night for Washington, with the brief. In the preamble it is maintained that the flow of water over the falls is far greater than is necessary for scenic purposes, and at least 40 per cent of the water might be classified as "surplus water," which could be taken away without diminishing the beauty or the grandeur of the cataract.

The members of the committee have dealt upon the dam which will result to the frontier, and particularly to this city, if the Burton bill is passed in its original form, and they ask that it be amended in several particulars, viz.: That no restriction be placed upon the importation of electric power from Canada generated by the companies having their plants in course of construction, and the products of which plants have been largely sold in this country, and that the section referring to revocable permits be stricken out.

**A MYSTERIOUS DEATH****Galt Young Woman Dies Strangely  
on the Streets of Detroit.**

Detroit, Mich., May 2.—Late last night Mary Volmer, about 23 years of age, who came from Galt, Ont., was found lying on the walk on Macarthur street in convulsions. She died before medical aid could reach her. Attached to her body was a card asking that her brother, Wm. G. Volmer, be notified.

**BRITAIN AND TURKEY****Negotiations Progressing for Settle-  
ment of the Trouble.**

London, May 2.—In the House of Lords today Lord Fitzmaurice stated that the report of the cruisers from El Arish had not been received. The Grand Visier had informed Sir Nicholas O'Connor, British ambassador at Constantinople, that a committee had been sent to make inquiries, and to replace the boundary pillars if they had been removed. The Government considered that Tahah and one or two other points in the Sinai peninsula recently occupied by Turkish troops as within the Egyptian administration. The Turkish title to Akabah had never been disputed. The peninsula had been in the Khedive's possession years before Ismail's accession to the Khedivate. Turkey's demands extended far beyond the neighborhood of Tahah, necessitating a joint delimitation of the whole frontier. Pending a general settlement, the Turks should evacuate Tahah. Negotiations were in progress, Lord Fitzmaurice said.

**THE SOO PAYS  
OFF ONE MILLION****Matheson Secures Extension of  
Guarantee for Another  
Six Months.**

[Special to The Advertiser.]  
Toronto, May 2.—Premier Whitney yesterday afternoon received the following telegram from Provincial Treasurer Matheson, who is in New York in connection with the Soo loan guarantee:

"Matter closed. One million paid off entirely. Our guarantee for six months for other million extended."

**BOSSSES SAY THEY  
WILL NOT GIVE IN****Decide to Continue Fight Against  
Increase in Bricklayers'  
Wage Scale.**

The contracting bricklayers of the city, who refused to sign the agreement with the Bricklayers' and Masons' Union, and whose men went on strike yesterday, held a meeting this morning, and decided to continue the fight. One of the contractors said after the meeting that there was no division of opinion on the matter.

The arbitration committee of the union handed the following to The Advertiser this morning for publication:

"The Bricklayers' and Masons' Union, No. 5, wishes to correct the list of employers who have refused to sign the new agreements, by stating that Simpson & Murray, Sing & Beer, J. Nutkins,

are the only employers who refused to sign when approached by the arbitration committee of the union.

S. FOXWORTHY,  
H. RYAN.

In the list given in The Advertiser on Tuesday the names of Fred Dealey, Joseph Loney, John Hayman & Sons and Henry Hayman also appeared. It transpires, however, that Messrs. Dealey and Loney promised before May 1 to sign the agreement, and in accordance with their promise, did so yesterday. Their men did go on strike. As far as John Hayman & Sons and Henry Hayman are concerned, it was stated by members of the union today that the latter had no dealings with them for three or four years.

**THE WEATHER.****Tomorrow—Fine and Warm.**

London, Wednesday, May 2.  
Sun rises, 5:29 a.m. Moon rises, 12:22 p.m.  
Sun sets, 7:29 p.m. Moon sets, 2:01 a.m.

Light scattered showers have occurred today in Alberta, Ontario, Eastern Quebec and Cape Breton, but otherwise the weather in Canada has been fair generally, and temperatures have been moderate in most districts.

Minimum and maximum temperatures: Dawson, 22-50; Athol, 30-43; Victoria, 42-55; Kamloops, 24-42; Calgary, 42-52; Edmonton, 48-54; Qu'Appelle, 24-54; Minnedota, 22-52; Port Arthur, 30-44; Parry Sound, 24-54; Toronto, 38-52; Ottawa, 24-38; Montreal, 38-54; Quebec, 28-46; St. John, 40-52; Halifax, 41-62.

**FORECASTS.**

Wednesday, May 2-5 a.m.  
Today—Southerly and westerly winds; cloudy, with showers and thunderstorms.

Thursday—Westerly winds; fine and moderately warm.

**TEMPERATURES.**

Stations. Sun. Min. Weather.  
Calgary, 42 32 Clear  
Winnipeg, 40 22 Clear  
Port Arthur, 42 32 Cloudy  
Parry Sound, 44 34 Cloudy  
Toronto, 42 40 Rain  
Ottawa, 42 32 Cloudy  
Montreal, 42 40 Cloudy  
Quebec, 38 32 Cloudy  
Father Point, 42 32 Fair

**WEATHER NOTES.**

A few scattered showers have occurred in the Northwest Provinces, and the weather is now showery in Ontario. The temperature was between 60° and 70° yesterday in British Columbia and Manitoba, and somewhat lower elsewhere.

LOCAL TEMPERATURES.  
The highest and lowest readings of the thermometer at the local observatory for the 24 hours ended at 8 a.m. Tuesday were: Highest, 65°; lowest, 42.5°.

WILLIAM SHERRING.  
Winner of the Marathon Race and Long-Distance Running Championship of the World.

**BISHOP SWEATMAN  
WOULD RESIGN****Head of Anglican Diocese at  
Toronto Finds Duties  
Too Exacting.**

[Special to The Advertiser.]  
Toronto, May 2.—Bishop Sweatman, for 28 years bishop of Toronto diocese, has asked the synod to allow him to resign owing to ill-health. It is well known that his lordship has been in very poor health for months, and the duties of his office are too exacting. It has been suggested that a coadjutor bishop be appointed, and that a long leave of absence be granted the present bishop; but it is said that he would prefer to be relieved of office. Bishop Sweatman came to Toronto from London, Ont.

**COLONEL HUGHES  
IN HOT WATER****Makes Sensational Charges in  
Connection With the North  
Atlantic Co. Contract.**

[Special to The Advertiser.]  
Ottawa, Ont., May 2.—The agriculture committee had a stormy meeting this forenoon. Trouble arose over Col. Sam Hughes' motion to summon A. P. Collier, formerly private secretary to Hon. Clifford Sifton, and Miss Violet Kelly, formerly stenographer in the interior department. The Liberal members of the committee did not object to the summoning of the witnesses, but to certain statements made. In the resolution which Col. Hughes submitted for the consideration of the committee, it was stated, for instance, that Mr. Smart had refused to disclose information in reference to the North Atlantic Trading Company, and that he turned his back.

He therefore thought the presence of Collier and Miss Kelly necessary. The resolution said they would come if guaranteed safe conduct in coming and returning from San Francisco. Col. Hughes said that in his opinion, Col. Hughes was credibly informed, and Mr. Fisher wanted to know who was "credibly informed" as the committee were not. The minister also objected to the statement that witnesses required a safe conduct in Canada. He wanted to know why this was necessary. The point was also raised as to whether the committee could grant immunity to any witness that rendered himself liable to the law. The view of the Conservatives was that this could be done. The Liberals held that it could not. The opinion of the latter was that protection could be given for evidence given before a committee, but not for any criminal act committed outside. A special act of Parliament would be necessary for this.

Mr. Duncan Ross said that Collier had deserted his wife and children. A man who disregarded his marriage vows would not have much regard for his oath before the committee. Mr. Ross said he wanted the policy of slander stopped.

The committee then turned down to business.

**Gorgos Got Guinness.**

London, May 2.—At Newmarket today the Two Thousand Guinness stakes for entire colts and fillies foaled in 1905, distance one mile, were won by Gorgos.

**What Is Russia's New Game?**

St. Petersburg, May 2.—Further intimation that Russia is playing a deep game in the far east is given in a circular sent by the censorship to all newspapers and periodicals forbidding the publication of any news with regard to the demobilization of the army, and movements of troops in Manchuria, and the reorganization of the military establishment in Siberia and the far east. It is generally supposed the circular was incited by the publication of the news of a halt in withdrawing the Russian army from Manchuria, and the dispatch of the Novitski expedition to Mongolia, which, though supposed to be general staff secrets, were published even in official papers, and are liable to seriously embarrass Minister Pokotloff's negotiations at Peking.

**FOSTER'S CHARGE  
TORN TO SHREDS****Premier Makes Strong De-  
fense of Immigration Policy.****FOSTER'S VICIOUS INSINUATIONS****Opposition's "Contract" Resolution  
Defeated by Big Majority—Leader  
Borden's Stand.**

Ottawa, May 1.—The debate upon Mr. Foster's amendment to the motion to go into supply, condemning the contract with the North Atlantic Trading Company, was brought to a close at an early hour this morning. The Government was sustained by a large majority.

Mr. Boursassa was the only member occupying a seat on the Government side of the House to vote for the amendment. Sir Wilfrid Laurier, in an eloquent appeal to his supporters, justified his refusal to accept the amendment, and maintained that the Government had been justified by the practice of former Governments, and by the results produced in entering into the contract, which was merely a continuance of the policy which had existed for many years. He charged Mr. Foster with having been guilty of levity in making the charges in support of which he had no evidence in fact.

Mr. Borden, who replied, contended that the Government had not given to Parliament the real reason for having canceled the contract, which was entered into without the knowledge of Parliament, or without any appropriation of money except from year to year. No good reason, he contended, existed now for the cancellation of the contract which did not exist in July last, when the Government refused to cancel it; therefore, he asserted, it was canceled for some reason which had not been disclosed. Others spoke in support of Mr. Fisher, Mr. Miller, Mr. Lake, Mr. Stockton and Mr. Boursassa.

The Premier's Speech.  
When Sir Wilfrid Laurier rose to speak tonight the galleries were crowded to excess by an audience that listened with the closest attention. The Premier said that, having followed the debate with the closest attention, he had no hesitation in saying, after four days' debate, that the most extraordinary feature of the debate was the levity, the incredible levity, with which Mr. Foster launched into the question. As the debate progressed it became evident that that gentleman had launched into the matter without being sure of his facts, and that in the desire to create a scandal, to throw dirt at his opponents, he took statements for facts and brought his indictment upon statements, which had no foundation in fact whatever, which could not be justified, and which, Sir Wilfrid said, justified him in saying that the indictment presented by Mr. Foster against the Government was, to quote from the language of that gentleman himself, "injurious, improper, and absurd." (Cheers.) He did not pretend to say that there might not be two sides to the contract, that it was not liable to attack. There were few transactions in a system of immigration so intricate and so delicate as the merits of which it may not be possible to honestly differ. But if this contract was liable to attack, there was one man precluded from making the attack, and that man was Mr. Foster, who exclaimed with dramatic tone and still more dramatic gesture, "Siftonism, Siftonism." If Siftonism it were, the only mistake in it was that it was simply a continuation of the "Fosterism" of former days. (Applause.)

But this contract was not new; it was not the first time a similar arrangement was entered into by the Government, and not by the Government as represented by the Liberal party, but by the Government as represented by the Conservative party. Mr. Foster had missed a fine opportunity for speaking the whole truth upon the legitimate question of the origin and inception of this contract and its raison d'être. The policy of immigration as it now exists had long been in force. Mr. Sifton did not invent it; he simply put more energy, more enthusiasm in it, than did any of his predecessors. Sir Wilfrid then outlined the system of bonuses and methods adopted in European countries. In the United States and Great Britain, Canada has several agents; in France we have agents, but in Germany and that part of the continent which is covered by this contract we have had no agents for 30 years. The reason was we could not have an agent (Continued on Page Eight.)

**WESTERN MAN ON  
ADVISORY COUNCIL****Public School Trustees Also  
To Be Represented.****WHITNEY AND ROSS IN TILT****Former Loses Temper, Makes a  
Threat and Is Told He Is "Bluff-  
ing" by Opposition Leader.**

[Special to The Advertiser.]

Toronto, May 2.—A brisk five-minute spat enlivened the discussion in the Legislature yesterday afternoon, on the new educational bill. The House was proling along in committee of the whole, when Hon. Mr. Ross jocularly observed that some of the arguments being advanced by the Premier and his colleagues were quite on a par with their contentions the other day, that the water, rock and soil in Eastern Ontario were so diverse from those in the west, that they gave rise to engineering problems, which demanded a different drainage reference for their solution.

This brought Mr. Whitney to his feet with a trade against Mr. Ross, in which he charged the latter with taking such an interest in engineering questions that just before the last provincial election, an engineer had been to Osnabrook Township, at a season of the year when it was impossible to take a level, in order to delude the voters of that section of Stormont County into the belief that a public work was to be started for their benefit, and here induced them to return a supported of the then Government. Mr. Whitney said he had in his possession the letter of instruction sent to the engineer in question, who was today kicking his heels about the Province, and looking for payment for his services.

Hon. Mr. Ross rose and accused Mr. Whitney of making a big game of bluffing. He challenged the Premier to bring his engineer and his correspondence before a committee of the House. The only important amendment made in the bill was the increasing of the members of the committee from 17 to 20, two to be trustees, and the other a representative of the Western University of London.

Despite the arguments of the Opposition, the Government declined to change the provision making the president of Toronto University chairman of the council.

**Bee Culture.**

Hon. Mr. Monteth's bills, one for the suppression of foul brood among bees, and the other for the appointment of an agricultural advisory committee, were read a second time.

Hon. Mr. Ross asked if the Inspector provided for by the former measure was a new official.

Mr. Monteth replied that the Inspector was merely transferred to the department from the Beekeepers' Association, the grant for his salary to the latter body being discontinued.

Regarding the advisory council, the minister said that the need of such a body of farmers, whom he could consult in connection with the work of the college, had been felt for some years.

Mr. Ross suggested that some of the council members should be elected by the graduates. Mr. Monteth said that under such a plan the eastern end of the Province would not receive its proper share of representation.

**The Railway Bill.**

Hon. Mr. Hendrie, being detained in Hamilton by the dangerous illness of his father, William Hendrie, the task of phasing the railway bill and the railway and municipal board bill through committee was undertaken by Mr. Whitney. In the latter bill the salaries of the members were fixed. The chairman will receive not more than \$8,000 per annum; the other commissioners not more than \$4,000, and the secretary not more than \$2,000. The board is given exclusive jurisdiction in railway matters. On questions of law the board of appeal may grant an appeal but on questions of fact there is to be absolute majority. The act comes into force on June 1 next.

**Keep Off the Steps.**

Some changes were also made in the railway bill. No passenger is allowed to stand on the side steps of summer cars for a longer time than is necessary to enter or leave the cars. Offenders may be fined \$2 to \$10 and costs. Sunday excursions are permitted in railway parks, provided no admission fee is charged. In the first draft of the bill the prohibition of Sunday operation was limited to electric railways running on the public highways, and not already possessing Sunday rights, but the bill was amended, making the prohibition apply also to roads running on their own also to pavements. Anyone throwing stones at inspectors or otherwise damaging railway property is subject to a heavy fine.

Another amendment gives the board power to remove any electric railway equipment considered dangerous to the public, this applying also to pavements, etc., supplied by municipalities under agreement with railways. In Toronto, for instance, if the city lays a defective pavement on the street railway track allowance, the board could order it relaid at the city's expense.

Hon. Mr. Cochrane introduced an act providing that the Ontario and Minnesota Power Company, at Fort Francis, on the Rainy River, must be developed and kept available for use on the Canadian side.

Continued on Page Nine.
