Classic City Northern Leaguers Outscore Local Students in Fast Game-Phillips, of Juniors, Starred-Final Count Was 5 to 3.

STRATFORD, Jan. 12.—Western University's Northern League team made its first appearance here in a league game tonight when it was defeated by the local Northern Leaguers 5 to 3 in a fast and exciting game.

The ice was stick and consequently little attention to combination play was paid by either team. Fast individual work predominated, and in this vidual work predominated, and in this students did not show the checking shilling the locals, either, although McAvoy's work in this respect was a feature.

Boles Scores First.

The game was fast all the way through, both teams maintaining a pace that kept the crowd on its feet. Boles secured the first goal for the locals, and at half time the score read 2 to 1 in their favor.

In the second period Western played a much better game, and, although the local seven outscored the visitors, the play was just about even. Boles was the bright star of the local team, and server before the satisfaction of the teams and the fans.

CITY RONSPIFI MILL

Charlie White, the speedy Chicago lightweight, at last has achieved the object of his life. By persistent effort he has compelled Freddie Welsh, the champion, to give him a match and a real chance at the title.

White and his manager, Nate Lewis, are rejoicing as if the night of January 26 already had passed and White had won the title. Never have I heard more confidence from any persons connected with the prize ring. heard more confidence from any persons connected with the prize ring.

The weight agreed upon does not appear to favor either. White is near the weight now and will not have to do any work to reach 135 at 3 o'clock. He probably will scale close to 134 when he steps on the scales, and fight about three pounds heavier. Welsh, unless he has worked off considerable weight during his recent period of idleness, will have to exert himself to get down to 135, and will weigh perhaps 139 when he faces White in the ring.

White has marked himself as the best left-handed fighter in the country and the hardest hitter of his weight in the ring with his left. He packs a heavy punch in his right, but probably will depend upon his left to bring He has one immense advantage: that is that he is absolutely confident

that he can beat Welsh. He tested Welsh out in their meeting at Milwaukee and came out of the ring after mussing the champion up badly in the last two rounds, expressing surprise that Welsh was not a better man. This confidence is a big thing for any fighter. I know that White did not feel sure of Shugrue and, in fact, was more afraid that Shugrue would slip something over on him than he was that Welsh would whip him. He has had so much hard luck in this line of missing out just when the title was within reach that perhaps the fear that Shugrue would turn the trick was netural

White is in better condition and is fighting better now than he ever has in his life. Every boy who has worked with him in gymnasiums believes this, and the power of his left has them wincing. He has been keeping in perfect trim ever since there was a chance to force Welsh into a match, and it is fortunate for him that he can finish training in New York without taking the long ride back and forth from

As for Freddie Welsh, the simple truth is that the fight fans in America do not know how good this boy is or whether he is good or not. He has shown only flashes in America, and since coming over has not been in ripest fighting condition. Knowing that he was carded for a long run of rather hard short-distance.

battles, he made his condition with that in view, and did not try to make weight for each lad as they came.

The boys who have fought him are firmly convinced that he is much weight for each lad as they came.

Two boys who have fought him are firmly convinced that he is much overestimated as a fighter. Some of the experts who have studied his style are puzzled to know whether he is not good or whether he has a lot in

The popular verdict in favor of White in the Milwaukee affair was not the true one. As a matter of fact, Welsh deserved a draw, and perhaps had a trifling shade over White. In the Shugrue affair, Shugrue's flash and speed prejudiced observers. Two deep students of the game who watched that battle say Welsh had him well in hand at all times. Anyhow, Welsh has been smoked out of cover. He will have to show all of his goods on the evening of January 26, or lose a title, and from the manner in which he started to prepare for White, he will not take this scrap jestingly, but will attempt to settle White's aspirations once and for all.

The London intermediate hockey club | Victorias. The complete arrangements The London intermediate hockey club held a workout in the Princess Rink last evening, and about a dozen players were out. For over an hour the players dashed around the rink, showing some speed and some clever stickhandling. Harry Lecky, Laurie Gillies and Al Moore were the speed merchants, together with Ernie Hagerman. Davy Reid, George Chanther and Lee Walden also looked good, while Wright and Wardrope handled themselves well between the goal posts.

The team is practicing hard for its game Monday night with the Toronto Victorias. The complete arrangements for this game have not been agreed upon yet, but it is expected they will be fixed up today.

A proposition has been put to the players of the new club that they offer heir services to the Western University teams for the balance of the season. In reply, however, they offer to put a whole intermediate team on the gate receipts. Whether this proposition will be accepted by the university management remains to be seen.
