

PORT CARLTON.

Continued from First Page.

TROOPS AT QU'APPELLE.
Special train with second detachment from Winnipeg reached Qu'Appelle, and occupy comfortable quarters in the buildings vacated by detachment who are at Fort Le, 18 miles further north.

TRENGTH OF THE FORCES.
Force Albert there is a Mounted at with an officer and fifteen or more. The post at Carleton is the terms of the division known as Major Crozier, with seven, is in charge of this post. The rest post is Battleford, where the able twenty men are located. The Duck Lake is merely a trading one, which is only a telegraph station at which horses can be changed. The celebrated novelist, in of Port Pitt post. He has 20 men in charge. Mr. Gresham is in of Port Saskatchewan with 25.

THE VERY LATEST.

Winnipeg, Man., March 29.—The latest news from the West indicates that the army is expected to advance in the near future. Settlers and their families are transported to Swift Current Station, where they are being held.

At Toronto, Ontario, March 29.—(Special.)—To-day 30 p. m. the army was surrounded by two or three thousand civilians anxious to gain admission to the building where the army was being held. The army was surrounded by two or three thousand civilians anxious to gain admission to the building where the army was being held.

The parade in the army at 2:30 was the Q. O. R. active service men, and at 3 p. m. the army was surrounded by two or three thousand civilians anxious to gain admission to the building where the army was being held.

At Montreal, Quebec, March 29.—The city volunteers are actively engaged in making preparations for active service. Last evening the Victoria Rifles, 400 strong, and the 65th Mount Royal Rifles, 300 strong, mustered at their respective armories. The last named is the only French Canadian volunteer regiment in Montreal, and are most enthusiastic at the prospect of being sent to the front.

At Kingston, Ontario, March 29.—A K. and P. special train, with one hundred men of "B" Battery, two guns, 20 horses, arms, ammunition, etc., left at 4:30 for Renfrew, where they will be joined by a detachment from Battery "B," and together proceed west by the C.P.R. An immense crowd gathered at the station and cheered vigorously as the train took its departure.

At Ottawa, Ontario, March 29.—A battery from Quebec, arrived here at noon yesterday and proceeded westward in the evening by the Canadian Pacific Railway north of Lake Superior.

A WARLIKE FEELING.
Cobourg, March 29.—On the occasion of an order to Col. Graves calling out two companies of the 4th Batt. for active service, and in view of the reports of the rebellion in the North-west, a meeting of the town this evening to consider the situation. Victoria Opera House was densely packed with leading members of the town and clergymen of the several denominations. After speeches, resolutions were unanimously adopted pledging themselves to see to the families and others dependent on those going to the North-west.

Belleville, March 29.—Col. Lazier, having been invited to organize a company, made up from the 13th Battalion, for service in the North-west, a meeting of the officers was held last night, when all volunteered. The Colonel then asked the Government to accept the whole Battalion, but this morning received

the answer that but one company could be taken. Shortly before ten this morning the Battalion was summoned by the ringing of the fire alarm, and a splendid turnout was made in the Army. The city is full of excitement, and all sorts of exciting rumors are in circulation. At two p. m. Col. Lazier received orders to have his men ready to start for Kingston tomorrow morning on receipt of instructions. Hamilton, March 29.—The Thirtieth Battalion and officers had a meeting on Saturday night, and a parade of the regiment is called for to-morrow night. The men feel that the regiment has not so far been called on to furnish a contingent for the North-west. An ambulance corps is to be formed here at once, and the members of the Thirtieth hope they will at last be permitted to send so much to help on the cause. There is intense excitement in this vicinity. Bulletins were issued to-day and until late to-night crowds thronged the telegraph office. In the evening the churches held a service was made to the matter and prayer for the success of our volunteers. There will be a parade to-morrow night for inspection.

ENGLAND AND RUSSIA.

A Favorable Reply from M. DeGiers Expected.

ENGLAND'S NAVAL PREPARATIONS.

Earl Dufferin Considers the Situation Critical—Russian Press Opinion.

(Midnight Cable Despatches to the Free Press.)
London, March 29.—The Government has chartered the new Cunard steamer Ettruria, and the steamer Oregon and Alaska for service as armed cruisers trans-Pacific. The Admiralty has ordered the men-of-war to be prepared for service; presumed they will go to the Baltic. The Admiralty has also ordered, eight other war ships, including the Indefatigable, to be prepared for service.

DE GIER'S REPLY.
The Daily News says:—There is reason to believe DeGier's reply is on the way, and that it is distinctly favorable to peace, for which we must thank the French Government. There is increasing ground for belief that Russia will be enabled to abandon her claims without loss of prestige, if not England's duty is clear and arbitration would be inapplicable.

RUSSIAN PRESS COMMENTS.
The St. Petersburg German Gazette thinks the dispute between England and Russia of too trivial a nature to fight about. The Gazette says it is difficult to understand how a nation with such an experience as that of the Russian Empire can assume such a warlike attitude towards a powerful military state. The Journal de St. Petersburg believes the reply of DeGier will have a conciliatory effect, and that the Marquis of Hartington of England, who is expected to respond to the Russian message calling out the reserves.

CRITICAL.
Lord Dufferin has telegraphed the Amir to hasten the meeting in consequence of the critical situation of the affairs of the East.

THE EGYPTIAN FINANCIAL AGREEMENT.
The recent meeting between Musurus Hassan and Pasha and Earl Granville were in connection with the Egyptian financial convention. Pasha has been asked to sign the convention, thinking it implied recognition of the bombardment of Alexandria, and of England's subsequent action in Egypt, which was considered as opposed to the Sultan's suzerain rights, and likely to produce a bad impression on Muslims. It is reported that Granville has refused to give Musurus and Pasha their passports and break off diplomatic relations with Turkey until the Sultan signed a firman for the loan of nine million pounds. The Sultan then agreed to issue the firman, and has since signed the Convention with certain reservations, which Granville accepted.

FIRE FLASHES.
Thedford, March 28.—A fire broke out last night in Dr. Bice's brick building, Main street, occupied by Dr. Cornell as a drug store and dwelling, and by J. Teckner, a jewelry store, and further along, a jewelry store. The loss will be partly covered by insurance. Insurance on building not known. The fire burned very rapidly, and in a few minutes the whole House was destroyed. Part of the household goods were saved and the loss is partly covered by insurance. Total loss estimated at \$5,000.

Wingham, March 28.—Mr. Kerr's confectionery was destroyed by fire this morning. Considerable damage was done to Cough & Hughes carriage factory adjoining. Kerr's loss is \$2,000; insurance, \$1,800. Insured in the Huron & Middlesex Company. The building was owned by Robinson. The fire originated from an exploded lamp. Cough & Hughes were insured in the Gore Mutual. Loss about \$500.

NORQUAY SUSTAINED.

The Better Terms Resolutions Adopted by the Legislature.
Winnipeg, March 28.—The Norquay Government have carried through the Legislature the resolutions which were adopted on the better terms arranged by the delegates who recently visited Ottawa. The ministers forced the members to sit all night, and the vote was taken at six o'clock this morning. It stood 19 to 9 against. The excitement in the west seems to overshadow the local agitation in Manitoba.

SHIPPING.

THE SOUDAN STRUGGLE.

Arrival of the Entire British Force at McNeill's Zareba.

TO ADVANCE ON TAMAON WEDNESDAY.

Four Thousand Rebels Killed in Last Week's Engagements.

THE DEADLY KASMIN WIND.

Much Sickness Among the Troops—Railroad Building Under Difficulties—Arrival of the New South Wales Contingent at Suakin.

London, March 28.—A Suakin dispatch says:—Gen. Graham and the whole British army advanced to-day at Gen. McNeill's zareba. This advance includes all the troops except fifty men from each regiment left behind in the camp. A violent sand storm delayed the movement considerably.

DIGNA'S LOSSES.

Osman Digna's losses during all the engagements the past week are estimated at 4,000 men.

DEPLORABLE STATE OF AFFAIRS.
Nearly all the infantry and cavalry engaged in the convoys have arrived at the zareba on the Tamaon road. The number of sunstroke among the troops daily increased. The troops are greatly overworked with convey duty during day and sentry service at night. Forty per cent of the marines from the fleet are at Suakin sick with enteric complaints. Many are also suffering from ailments of the eyes.

THE RAILWAY.
The building of the Berber railway has been suspended outside Suakin owing to the inability of the army to afford protection along the line beyond the zareba. It is decided that the forces necessary for such protection cannot be spared at least till after the impending battle at Tamaon, which is expected to be decisive, shall have been fought. The laborers engaged for railway construction will be employed meantime in the much needed work of improving the wharfage accommodations at Suakin.

MONTA'S ADVANCE.

The troops will advance Monday from the advanced zareba and construct another zareba five miles nearer Tamaon. GRAHAM FEARS THE EFFECTS OF THE HEAT.
Gen. Graham is anxious to get the troops into a permanent summer camp as soon as possible, because he fears there may be frightful mortality among them if they are much longer exposed to the terrible heat and malarial influence of their present quarters.

NOT CONFIRMED.

No confirmation of the report that Osman Digna, said to negotiate terms of surrender with Gen. Graham.

THE KASMIN.

From Dongola comes the intelligence that the dreaded kasmin wind began to blow Wednesday last. The heat is excessive, but it is said the health of the men is good.

NOT DESERTING THE PROPHECY.

The Arabs friendly to El Mahdi, instead of abandoning the prophet's cause, seem to become daily more hostile to the British. The British are making very little progress in their expedition to Berber. After the much heralded advance, to make which two weeks have been consumed and several hundred lives lost, his camp is to-day just two miles nearer Berber than Suakin. The camp is connected with Suakin by a tramway. Nothing has yet been done in the way of constructing the projected Berber railway. The transport service is very defective. For want of better transport service the whole army is suffering. The camels being used to carry the baggage to carry otherwise unnecessary burdens in the terrible heat. Typhoid fever and dysentery are quite prevalent among the troops, although in the regular official dispatches to London the health of the soldiers is described as excellent. At Gen. McNeill's zareba there have been many cases of fatal as well as disabling strikes.

GRAHAM'S EXPEDITION.

Cablegrams received from Suakin, between which place and Suakin there is good communication, show that Gen. Graham is making very little progress in his expedition to Berber. After the much heralded advance, to make which two weeks have been consumed and several hundred lives lost, his camp is to-day just two miles nearer Berber than Suakin. The camp is connected with Suakin by a tramway. Nothing has yet been done in the way of constructing the projected Berber railway. The transport service is very defective. For want of better transport service the whole army is suffering. The camels being used to carry the baggage to carry otherwise unnecessary burdens in the terrible heat. Typhoid fever and dysentery are quite prevalent among the troops, although in the regular official dispatches to London the health of the soldiers is described as excellent. At Gen. McNeill's zareba there have been many cases of fatal as well as disabling strikes.

GRAHAM'S EXPEDITION.
The military papers severely criticize Gen. Graham's conduct of the Suakin-Berber campaign. The Army and Navy Gazette says at the rate at which Gen. Graham is making progress it is safe to calculate that Christmas, 1885, will see him half way to Berber.

OPPOSITION TO THE WAR.

The Federation of Liberal Associations, which wields the greatest influence upon the Liberal vote, has decided to actively oppose the continuance of the war in the Sudan. It is believed the Government is not unwilling to submit to party coercion. The opinion prevails that it will abandon its intention to march to Khartoum, and that after the defeat of Osman Digna has been accomplished will endeavor to open negotiations with the Mahdi.

GEN. WOLSELEY.

London, March 29.—Gen. Wolseley, after inspecting military stations from Dongola to Cairo, will go to Suakin.

THE ADVANCE TO TAMAON.
Gen. Graham will advance to Tamaon Wednesday.

THE TONQUIN TUSSE.

Another Serious Defeat for the French.

The Chinese Recapture Langson—Retreat and the Chinese in Pursuit—Negrier Severely Wounded and Reported Dead—DeLisle Expected for Reinforcements—The Downfall of the Ferry Ministry Predicted.

Paris, March 28.—Gen. Negrier telegraphs from Langson, under date of the 27th inst., as follows:—The greater part of the brigade is now concentrated here. The advanced guard remained yesterday before the gate of the town. The enemy failed to appear. The enemy lost heavily Tuesday. Our losses during the two days' fighting were six officers and 72 men. The Chinese are greatly overworked with convey duty during day and sentry service at night. Forty per cent of the marines from the fleet are at Suakin sick with enteric complaints. Many are also suffering from ailments of the eyes.

THE RAILWAY.

Gen. Graham will advance to Tamaon Wednesday.

ST. THOMAS AND VICINITY.

Aymer is to have a roller rink and another newspaper.

Mr. Z. Rowland, of this city, will leave for Colorado soon.

It is expected a branch of the Traders Bank will be established in the city soon.

The Court of Revision on the frontage tax assessments with Havestock Smith, ordered by Messrs. M. A. Gilbert, Dr. Gutin and John Farley arrived home from their trip to Cuba on Saturday.

Mexican Joe, the alleged fortune-teller, will leave for Mexico on the 15th inst. He has been appointed a scout by the United States Government.

A meeting of the St. Thomas Cemetery Company was held the other afternoon, when Mr. John McLean was re-elected president for the current year, and Messrs. J. H. Midgley, Hiram Comfort, A. McInyre and A. Hutton were appointed an improvement committee for the year.

Mr. W. R. Meredith, Q. C., has been engaged to defend Havestock Smith, charged on the charge of being an accomplice in the murder of Marshall Pigeon, of Maldeide, Smith, for the first two days of his incarceration in jail, accustomed himself to prison fare, but not having a particular relish for that diet, now has his meals sent up from a city hotel.

Mr. C. O. Ernatinger, M. P. P., has been ever alive to the interests of this city. Mr. Ernatinger and the citizens have much to thank him for. Among many other bills introduced by him for the purpose of remedying the grievances of St. Thomas was the one to compel councils to make a sworn statement by the 15th Dec. each year, of the exact condition of the finances of the city. This was strenuously opposed by members of the Government, whose popularity will not by any means be increased by their action. Last year the customary grant of \$900 to the St. Thomas Mechanics' Institute was not made, and a fortnight ago Mr. Ernatinger inquired why the grant had not been made. The Minister of Education asked for time to consider the question, and in a few days the amount was received by the Free Library. The local Grit syndicate organ thereupon remarked "how generous the Government had been" when it had not been for the action of Mr. Ernatinger, in all probability the money would not have been received.

One of the strongest proofs of the value of Kidney Wort as a remedy for all diseases of the Kidneys, Liver and Bowels, is the fact that it is used and prescribed by "reputable" physicians. Philip C. Ballou, M. D., of Montreal, Vt., says: "It is the most successful remedy I have ever used."

The rates are the same in all the stock insurance companies. Now, therefore, insure only in the best. The Royal of England stands at the head of the list. F. B. BEDFORD, Agent. C2-vn
