THE CAMPBELLTON GRAPHIC

FRIDAY, MAY 7 1909

Steady newspaper... tried, tested, proven. Not in... alone, but in many of the smaller places in this great Dominion.

The growing business of the city's big stores, which are every day liberal uses of newspaper space, is as good an object lesson as any retailer could require. The constant dropping of water will wear away the hardest stone; keeping everlastingly at telling the public facts and reasons why your goods should have the preference is bound to bring results.

Of course the size of your space should vary according to the season. When business is dull is no time to condense your advertising; that's the time to get right after all the business, there is—let your opposition do the "snooze" act.

Then when business opens up in the spring, and the new goods upon your shelves and counters fairly sparkle in all their bright freshness, you should be early to the front with a generous advertising space packed full of those suggestions that womankind is longing for. In the fall, when all the fields have added their big share to the fullness of mows and barns, and woman's heart is glad because of the beautiful droppings from the hand of a kind Providence, and when preparation for a long siege of winter fills the minds of the thrifty ones—that's another time to tell your good news in accents big and loud.

Run all through the winter, and all through the summer, every home that gets your local paper should find your name, and good store news staring each reader in the face, beckoning him to your store, appealing to his buying instincts.

The CAMPBELLTON GRAPHIC is largely circulated throughout the Bay Chaleur Country and is a proved journal of advertising merit. Write or phone for advertising rates.

REPORT OF FINANCE COMMITTEE
To the Town Council of the Town of Campbellton.

Gentlemen: Your Committee to whom are referred all matters relating to the Finances of the Town and the regulation of its Corporate Investments, beg leave to submit the following brief report for the fiscal year ending March 31st, 1909.

We are pleased to be able to state that, notwithstanding the heavy obligations assumed by the Town during the past year, including the laying of the new 16 inch water main, and other extensive additions made to the Water and Sewerage systems, the finances of the Town are still in a healthy condition.

At the beginning of the year, the balance of an issue of \$25,000.00 of 5 per cent. Bonds, previously authorized, was disposed of at par, and the proceeds applied to the wiping out of an overdraft which had been carried by the Bank of Nova Scotia from year to year. This overdraft was incurred by the construction of the new concrete reservoir, and the extension of the water system throughout the newly settled portion of the Town, and at a time when, from a financial point of view, the issue of Bonds would be inadvisable.

During the summer, however, despite the continued stringency of the money market, we were able to dispose of another issue of \$50,000.00 of 5 per cent. Bonds at par, for the purpose of providing funds for the installation of our new water main, already referred to, and which the increased demands of the Town rendered absolutely necessary.

The greater part of this water main is already laid, and there is a sufficient amount of the proceeds of this Bond issue on deposit in the Bank of Nova Scotia, bearing interest, to complete the undertaking during the coming summer.

Considering the fact that other Towns and Cities, and even our Provincial Government, are paying as high as 6 per cent. for money with which to carry on their public works, we must congratulate ourselves on the high standing which our Town has maintained in the financial markets of the Country. We may add, also, that our Bonds have always found a ready market, not only in St. John, Montreal and Toronto, but even in our own County of Restigouche, where our people have, by their ready purchase of our securities, given ample proof of their unwavering faith in the steady growth and permanency of our Town.

Among the minor matters of improvement which have also been effected during the year, under the jurisdiction of the Finance Department, may be mentioned the following: Offices have been fitted up in the Town Hall for the Town Clerk and Treasurer, and a large size Goldie & McCulloch Safe and Filing Cabinets installed, for the better classification and preservation of the Town Books, Papers and Public Documents. A Smith Premier Typewriting Machine and a new Bond Identification Record Book have also been procured, as well as other appliances, which were required to facilitate the clerical work of the Corporation.

In conclusion, we have every reason to hope that with the early completion of the additions and extensions to our water works system, now in course of construction, and the projected extension of our Electric Light and Fire Protection services, our natural industries—present and prospective—will receive that encouragement which they deserve, and with our already increased shipping facilities, will result in the material development of our financial resources, and the consequent lessening of the burdens of our civic obligations.

Respectfully submitted,
WM. H. MILLER,
Chairman of Finance Committee

That grand, old, time-tested remedy—
BEECHAM'S PILLS

Prepared only by Thomas Beecham, St. Helens, Lancashire, England.
Sold by all Druggists in Canada and U. S. America. In boxes 25 cents.

VITOL Men, women and children all find a benefit from this great blood, flesh and nerve tonic. It is an unfailing blood builder and nerve tonic, and the thousands who have used it, and have been benefited by it, never cease to recommend it to their friends who have suffered as they themselves. Vitol cures all diseases which are directly due to a weak and watery condition of the blood, bringing new life and ruddiness to pale and sallow cheeks; cures general muscular weakness, loss of appetite, depressed spirits, weak and enervated will, shortness of breath on slight exertion, coldness of hands or feet—which is an unnatural condition, pains in the back, loss of memory, all forms of female weaknesses, suppression of menses, and rheumatism; in short, all blood diseases instantly.

PRODUCERS OF GOOD WORK

Strongest and Most Stylish-Looking

MARITIME Ornamental Fencing and Gates have the quality. There is no gaining that. Only first quality tubing is used for the gate frames. We could, like many makers, use second quality and save one-third to one-half the tubing cost. We could also use small wires and save some more. But we use large, strong, stiff No. 9 wire. This wire is more smoothly, thoroughly and heavily galvanized than the wire generally used for fence and gate purposes. You know what that means. Strongest, most lasting, as well as most stylish-looking. Write for free catalogue, showing the different designs, and from them choose a gate you'll be proud of.

NOTICE OF SALE

To Joseph Cart, and Elizabeth Cart, his wife, of the Parish of Addington, in the County of Restigouche and Province of New Brunswick, Farmer, and to all others whom it may in any wise concern—

Notice is hereby given, that under and by virtue of a Power of Sale, contained in the certain mortgage made the 2nd day of January in the year of our Lord one thousand eight hundred and ninety one, made between the said Joseph Cart and Elizabeth Cart, his wife of the said Parish of Addington County and Province of New Brunswick, the said mortgage, and Alexander E. Alexander of the Town of Campbellton, of the second part, and duly recorded in Restigouche County Records, in Book 'K' pages 193, 194, 195, 196 and 197 under the number 1954, and by assignment dated the 28th day of December, A. D. 1908, the said mortgage and all sums of money secured thereby was by the said mortgagee, Alexander E. Alexander, transferred and assigned to the undersigned 'Victoria, Cart'.

There will for the purpose of satisfying the moneys secured by the said mortgage, default having been made in the payment thereof, contrary to the provisions of the said mortgage, be sold at public auction in front of the post office in the Town of Campbellton on Monday, the 7th day of June, next, at the hour of twelve o'clock, noon, the land and premises mentioned and described in the said mortgage as follows:

Beginning at a beech tree standing on the northern side of a road named at the south-east angle of lot number seventy nine in the Colebrooke Settlement thence running by the margin north one degree, east seventy five chains, thence south eighty seven degrees and thirty minutes, east thirty chains and fifty links, thence south one degree west twenty five chains to a fir tree standing on the northern side of the aforesaid reserved road, and thence along the same north eighty-seven degrees and thirty minutes, west thirteen chains and fifty links to the place of beginning.

Containing one hundred acres more or less and delineated as Lot No. 77 in the Colebrooke Settlement. Together with all and singular the buildings and improvements thereon, and the appurtenances therunto belonging.

Dated at the Town of Campbellton this first day of March, A. D. 1909.
