NEW YORK STOCKS ADVANCE.

OUTSIDE WHEAT MARKETS GENERALLY EASIER.

Strong Advices from Liverpool—Montreal and New York Stock Exchanges—Grain and Flour—Visible Supply—Beerbohm's Report — N.Y. Cotton Exchange — Miscellaneous.

TUESDAY EVENING, June 2.

Wheat on the curb in Chicago at 2.10 was quoted at 99½c.

Bank of Commerce stock sold ¼ higher than yesterday.

Transactions on local Stock Exchange aggregated 321 shares compared with 172 yesterday.

About $2,000,000 in gold was engaged in New York to-day for shipment.

Canadian Pacific was stronger in London today, closing ¼ above opening.

John Stark & Co.'s London cable quotes Hudson Bay shares at £16½, a decline of 12s since yesterday.

Consols closed at 94 11-16 for money and 95 for account, an advance of ¼ and 3-16 respectively on the opening.

Gold to the amount of £473,000 was received by the Bank of England to-day. Foreign situation is improving.

The feature of the local market was the strength in Bank of Montreal stock, it being quoted 1½ to 2 points higher than yesterday.

The total paid-up capital of the joint stock banks of the United Kingdom amounts to £75,-004,000, an increase compared with a year ago of £3,163,000. The Economist, however, points out that £1,800,000 of this increase consists of the capital of private banks which have been converted into joint stock companies.

American wheat markets closed ½c to 1c lower. July opened in Chicago at 98⅞c, advanced ½c and closed same as opening; in New York at $1.07¼ and closed at $1.07⅜; in Milwaukee opened and closed at 99½c; in St. Louis at 94⅝c and closed at 94⅝c; in Toledo at 99½c and closed at 99¾c; in Duluth at $1.08¾ and closed at $1.07¾; in Detroit at 99⅝c and closed at 99¾c.

Advices to George A. Chapman & Co. of this city from Liverpool, under date of May 23, state that the weather has been most unfavorable to the growing crops, both in England and France. We seem to have gone back to midwinter, with hail, snow and hard frosts at night. Even with the most favorable weather from now on it must be a late harvest. Reports of French crops still continue very bad and it seems to be a generally accepted fact that they will want at least 96,000,000 bushels this cereal year.

LOCAL STOCK EXCHANGE.

NEW YORK COTTON EXCHANGE.

Drummond & Brown quote the following fluctuations at the New York Cotton Exchange to-day: June, opening 8.48, highest 8.54, lowest 8.47, closing 8.48. July, opening 8.54, highest 8.63, lowest 8.54, closing 8.58. August, opening 8.63, highest 8.73, lowest 8.65, closing 8.68. Sept., opening 8.74, highest 8.81, lowest 8.74, closing 8.75.

R. Cochran received the following from Counselman & Day of Chicago to-day: Outside holders were unloading wheat all day. Local shorts covered freely and on reports of lighter estimated receipts were inclined to advance prices again, but the flood of offerings by longs at 99c was sufficient to prevent it. Cable advices were dull and heavy with marked declines except in Berlin, which showed an advance. Close was weak. Corn and oats were firm all day. The so-called clique, who had sold calls on Friday last, seemed to be bulling market in order to unload at call prices. The heavy receipts had invited a large short interest, which were driven to cover. Provisions were quiet and trading was mostly in the way of changing deals forward or closing old trades.

John J. Dixon & Co. received the following despatch over their private wire from Henry Allen & Co. of New York: Dulness has pervaded the market to-day and little effort has been made by either side to affect quotations. The most noticeable activity in the market was upon the part of one or two short interests, which for special reasons of their own not bearing upon market conditions covered outstanding contracts. The result was something of a rally in quarters where they were most interested, but after they had all the stock they wanted the market was listless and quotations were heavy. Some gold goes abroad and there are intimations that before the week is over the present engagements will be largely added to. The L. & N. Company's program for bringing out something like ten millions of new stock has awakened anxiety in the Stock Exchange district, for what this company is doing other companies are very likely to do. One of the rather remarkable incidents connected with the L. & N. issue comes in the form of current street rumors that the stock is being issued to the stockholders because the bond market will not take mortgages which the company wants to float. The ostensible reason for the new stock issue is to enable the company to acquire auxiliary roads. There is very little in the program to cheer people who have their money in the company's securities. In another southern quarter there is likely to be something of a sensation soon through default upon a dividend hitherto regularly paid. The general bond market continues dear. There is no activity in any branch of it, and according to bankers of prominence there are no indications of any promise in it for the near future.
