**COMBINATION SALE**

—OF—

**HIGHLY BRED SHORTHORNS**

and Shropshire Sheep,

—AT—

**Clochemohr, Galt, Tuesday, Oct. 13.**

Among the forty lots to be disposed of will be found the famous Princess Bull, 6th Earl of Antrim—1212—; several splendid cows of the Polyanthus and Sans-a-familles; others descending from Mr. Cowan's best show bull Oxford Lad (24713), as well as from the Duchess Bull Constance's Duke 7853; and others in the blood of the famous old Princess cow Red Top 10th, one of whose daughters and calf sold for \$100. Most of Mr. Patteson's cows will be found bred by the Kentucky bred bull Connaught Ranger, one of the Fillgree cow Famo 3rd and Imp. Wild Eyes Connaught. Connaught Ranger is a Duke of Connaught, the highest priced bull ever sold, \$23,000 having been paid for him by Lord Fitzhardinge. Lord Dunmore, a sum which he fully earned in his services while in the Berkeley Castle herd. The Grand cow, Gunilda, by 5th Duke of Alford, is in fact, and one of her daughters, as are heifers by the Earl of Oxford, from the daughter of a cow sold at the sensational New York mills sale, and bred by Baron Aylmer, by 2nd Earl of Goodness, one of the celebrated 4th Duke of Clarence.

It has been observed that animals purchased at the various sales of James Cowan and Sons have given the most qualified satisfaction, and the Eastwood herd was founded on animals procured at Clochemohr. Every lot offered will be off the grass, in good breeding condition, and free of blemishes or any known weakness or defect. The Shropshire sheep will be pure and bred from the best imported stock, made up of the prize-winning blood of Lord Beaumont's famous flock, crossed with representatives of the Scotch and Lorient flocks.

OAKVILLE, March 3rd, 1885.  
DEAR SIR,—In regard to the 15-foot Geared Wind Mill, I will say it does good work. I use it for pumping, running a grain crusher, cutting hay and root pulper. The cutting box used to take six horses to run it all day, but the wind mill does the work now, and does not get tired either. I expect to run a chiller mill with it next fall, and purpose attaching my grinding stone as soon as I can get a pulley. The mill is perfectly self-regulating. The No. 2 IXL Grinder works like a charm. We can grind ten bushels an hour easily. I might also add the Four-Wheel Carrier and Four-Tread Grapple Fork I got from you are giving the best of satisfaction. The Fork is far ahead of anything I have seen. Respectfully yours,  
H. G. MOORE.
