The Shipping Intelligence and Markets are made a speciality of this journal, and it is acknowledged to be in advance of its contemporaries in that department. The CITIZEN contains all the latest intelligence received by mail and telegraph, up to the hour of going to press, as well as Editorial comments on passing events at home and abroad.

The CITIZEN is especially interesting to Masons, as it devotes more attention to matters connected with the Craft than any other journal in the maritime province.

It is forwarded to all parts of the Province by the mails which leave Halifax on the mornings of publication.

These papers, from their large circulation, offer advantages to advertisers second to none in the Province.
