STANCH AND RELIABLE ROADSTERS.

I take pleasure in adding my testimony to the claims which you set forth in the construction of the *Columbia* bicycle and tricycle.

I have ridden one *Expert Columbia* over 3,500 miles on country roads, and have never had any repairs of any description whatever to make upon it.

With its standard of rake, and your vibrating suspension saddle, I consider it *unequaled for safety* and long-distance riding. It is always in perfect order, if properly cared for, like any piece of machinery.

From the practical results which I determined by subjecting the different qualities of steel from which it is constructed, to the recognized standard of Government tests, I am free to assert that you may justly claim that the *Columbia has not its equal in quality of material and finish*; all of which is shown in the tabulated results in your possession.

I am, very respectfully,

F. J. DRAKE,

*Lieut. and U. S. Inspector of Material.*

SOCIAL TRICYCLE.

The Tricycles, as well as the Bicycles, of THE CUNNINGHAM COMPANY are made with special regard to their use on the rougher roads which are usually found on this side of the Atlantic. They are fitted with every modern improvement which the test of experience has proven worthy of adoption; are stanch, easy-running and reliable, and are made in the forms of Sociables, Singles, and Convertibles.

The Catalogues above referred to fully describe each variety, and contain, besides, articles of literary merit by two of the leading Tricycle riders and writers of the day.
