W. F. GRAHAM, REVIEW EDITOR.

Papers desiring Notice under this head will please send one copy to Wm. F. Graham, Smith's Falls, Ont.

The Foreign Mail system of the United States is the leading article in the December *Bay State Philatelist* and it contains a great amount of interest but bewildering statistics.

Redfield's Philatelic Post Vol. 2 No. 1 appears with more advertisements than anything else. In the Canadian Notes "Canuck" finds fault with the November No. "Jubilee" because Sir Wilfrid Laurier's picture appears on cover, suggested instead the likeness of some noted stamp collector. Dear "Canuck" send on your picture, we'll place it on the next cover of—Ayer's Almanac.

Adhesive for November arrived with as usual an attractive cover. Veritas of the *N.Y.P.* receives a well deserved dressing in this number.

The Philatelic Advocate for December, to say the least is rather diminutive and contains no reading matter of merit. Great things are promised for the 20th century number however.

Weekly Era Vol. 15 No. 11 contains a Chronicle of New Issues by W. O. Wylie which is the only thing of interest to stamp collectors in general.

Nations Philatelic News, another new one, Vol. 1 No. 1 published at Indianopolis. Ind. The editor has for some reason omitted mentioning his name. However with a change in the color of the cover, and a little

better reading matter it will present a better appearance. We wish the editor unbounded success and a happy, prosperous new year.

Montreal Philatelist the November No. is to hand. The leading article, an address by Basil G. Hamilton is of interest to juveniles about to begin collecting. *Philately as an aid to Culture* by Edward Bell is also a readable article.

In conclusion I would remind all publishers that it is quite out of the question to review papers which do not arrive.
