Scientific and Useful.

DOYLES in delicate pink or blue-linen, embroidered in white are now used with finger bowls of Bohemian glass. To fill glass fruit jars wet a towel in cold water and fold several thicknesses; place the glass jar on it and fill with boiling fruit. No breakage.

BRASS work can be polished by rubbing the metal with finely powdered tripoli mixed with linseed oil and applied with a rubber made from a piece of an old hat or felt; or a mixture of glycerine, stearine, naphthaline, or creosote mixed with dilute sulphuric acid, can be used.

WHEN a felon first begins, a sure remedy is to apply a piece of soft kid over the part affected, in which is cut or punched a hole as large as a split marrowfat pea. On the part left bare apply a fly blister, double strength, until it draws a heavy blister, blister as large as the hole, when the felon is cured.

MINERAL wool is used for a packing to deaden the sound between floors in buildings, and being incombustible, it is now pretty generally used between floors and ceilings in new houses. Mineral wool is obtained from the slag from blast furnaces, and is produced by throwing a jet of steam against the stream of slag as it flows from the furnace.

POTATO FRITTERS:—Three large potatoes and three eggs, two tablespoonsful of cream; boil the potatoes and beat them until they are light; beat the eggs very light, and mix them with the potatoes, add salt to your taste, beat the cream in last, mould the potatoes into round balls, sift flour over them, and fry until brown in hot lard; drain them on a napkin before serving.

THE SECRET OUT.—The secret of success of Burdock Blood Bitters is that it acts upon the bowels, the liver, the kidneys, the skin and the blood; removing obstructions and imparting health and vigour.

APPLE PUDDING:—A new way to make an apple pudding is to make a batter of flour, sweet milk, and one egg, with baking powder in proper proportion. Pare and core six tart apples, stew them in a very little water until they are quite soft; then beat the apples into the batter. This is to be baked in a buttered earthen pie plate; it should be a deep plate. This is to be eaten with cream and sugar, or if cream is an impossibility, use butter instead.

If you have a Cough, do not neglect it; buy at once a bottle of Allen's Lung Balsam.

CHICKEN PIE:—A Southern friend contributes the following recipe for chicken pie: Boil a chicken until it is tender, then take a deep earthen dish and put into it a layer of chicken, well-seasoned with butter, pepper, and salt, then put a layer of cold boiled rice on this, and so on until you have exhausted your resources, taking care to have a layer of rice on the top. Put this into the oven and let it remain there until it is very hot and then serve.

BOTH the Mason and Hamlin organs and pianos excel chiefly in that which is the chief excellence in any musical instrument, quality of tone. Other things, though important, are much less so than this. An instrument with unmusical tones cannot be a good musical instrument. Yet all are not good judges of such a matter. An inferior quality of tone will often please the uncultivated ear best, at first; though time and use will reveal the superiority of really good tone. Hence in selecting an organ it is safer to choose one from a maker whose reputation is thoroughly established, and whose productions are acknowledged to have superlative excellence, especially in this chief thing.—Boston Journal.

AN APPETIZING SAUCE:—Appetizing sauce to be eaten with beefsteak is made of four tablespoonfuls of butter, one of vinegar, or of lemon juice, half a teaspoonful of salt, quarter of a teaspoonful of pepper, and a teaspoonful of parsley, or a tablespoonful of tomato catsup. The butter must not be melted, but should be beaten to a cream; this is to be poured over or spread upon the steak, and a hot plate should be laid over it when it is being carried to the table.
