

“The Chancellor's Prize” (books), to the student who passes the best examination on the Final branches; Prize for the best examination in Histology; Prize to the best Dissector, and best examination in the practical Anatomy course (first year) and a similar Prize for the same (second year). A scholarship, consisting of a reduction of one half the fees, in all theoretical subjects of the Medical course, to the applicant showing the highest aggregate of marks, taken in the Provincial Matriculation examination. A similar scholarship to the graduate in Arts of Bishop's College who shows the highest aggregate number of marks in the Arts course. The vacant position of Dean, and the Professorship of the Theory and Practice of Medicine, was filled in 1882, by my election thereto, and which positions I still occupy. In another year the Faculty will be in the thirtieth year of its existence, and until recently the work has been performed by all as a labour of love, the various members not receiving any money reward for their labour. A surplus there has been over expenses—but this has been used in the purchase of equipment—so that the amount so expended now stands at many thousands of dollars. Within the last few years, however, it has been found advisable to obtain special workers, and we now possess two who devote their entire time to College work. These naturally are paid. At this moment the College is as fully equipped for its work as is any College in the Dominion. Our endeavour, and in this I know we are successful, is to give a thoroughly practical training. In one department, Midwifery, whose successful practice has such an important bearing on the success of a general practitioner, we possess advantages certainly not surpassed, if equalled, by any Medical College in Canada—we possess a Women's Hospital which is under the charge of our Professor of Midwifery, where the practice is so extensive as to give our graduates practical charge of as many cases as fall, as a rule, into the hands of the young practitioner during the first four or five years of his professional life. The University has graduated M. D. 222 students. Of these thirty have passed to their rest. Those who survive are in the full pursuit of their life work
