MAGNOLIA METAL

Endorsed by United States and German Governments.

THE EQUITABLE LIFE ASSURANCE SOCIETY,
 No. 120 BROADWAY, NEW YORK.

Engineer's Department,

October 26th, 1890.

THE MAGNOLIA ANTI-FRICTION METAL CO.,

Gentlemen:—In compliance with your request for my experience with your Magnolia Metal, I beg to
 say, for the past three years I have used it in the Crank and Cross head bearings of a 12" x 12" Armington
 & Sims Engine making 285 revolutions per minute running our night circuit of Electric Light. This en-
 gine is very heavily loaded, frequently doing from 90 to 100 H. P. We also have your metal in the Crank
 bearing of our main Electric Engine, a 600 H. P. Watts Campbell Co's Corliss. I have never had trouble
 of any kind either from heating or otherwise. I further desire to say that in my 28 years experience with
 machinery I have never found it's equal for Anti-Friction and wearing qualities.
 Very respectfully, J. F. WILSON, Eup't & Chief Engineer.

Note:—Fly wheel of the main engine weighs 68,000 lbs.; revolutions 84 to minute; and runs more
 than 5,000 United States Electric Lamps in the Equitable Building.
