Practical Problems

IN

ARITHMETIC.

For First, Second, and Third Classes.

By JAMES WHITE, Public School Teacher,

EDMONTON, ONT.

This book is now ready for delivery. It contains nearly 700 Practical Problems in Arithmetic for the three lowest forms, and will supply the teacher with questions at once interesting and useful. The problems are properly graded for the separate classes, and answers are given in the appendix.

Board and Linen Covers—

Price, post-paid Only 25 cts.

ADDRESS:

Grip Printing & Publishing Co.

PUBLISHERS,

28 Front Street West, Toronto.

THE HIGH SCHOOL Drawing: Course.

Authorized by the Minister of Education.

The Course is now complete:

- No. 1—FREEHAND,
- No. 2—PRACTICAL GEOMETRY.
- No. 3—LINEAR PERSPECTIVE,
- No. 4—OBJECT DRAWING,
- No. 5—INDUSTRIAL DESIGN.

These books are all uniform in size and style, and constitute a complete uniform series. The same plan is followed through them all—the Text, the Problems, and opposite the Problems, in each case, the Exercises based upon them. The illustration is upon the same page with its own matter, and with the exercise, in every case, is a space for the student's work. Each copy, therefore, is a complete Text-book on its subject, and a Drawing Book as well, the paper on which the books are printed being first-class drawing paper. The student using these books, therefore, is not obliged to purchase and take care of a drawing book also. Moreover, Nos. 1, 4 and 5 are the only books on their subjects authorized by the Department. Therefore, if the student buys the full series, he will have a uniform, and not a mixed series, covering the whole subjects of the examinations, and edited by Mr. Arthur J. Reading, one of the best authorities in these subjects in this country, and recently Master in the School of Art.

Each book is in the direct line of the curriculum, and is authorized.

The examinations in High School Drawing will be set from the authorized books.

PRICE, ONLY 15c. PER BOOK.

ELECTRICITY AHEAD

There is nothing so desirable in the market as **THE** appliances, something **NEW**, which are operated by an **ELECTRIC** current and complete an **ALARM CLOCK** for ringing Bells or Gongs in any number of rooms. It is very simply

arranged and is **WHAT** every school should have. **WE WANT** appliances of an advanced character and scientific **FOR OUR COLLEGES**, of such a nature **AND** construction that **SCHOOLS GENERALLY** may find them an advantage in every respect. Will the Principals **PLEASE** give this matter their careful consideration and **SEND** for our New Regulator A clock, fitted ready for use, or let **US** put our appliances on the clock now in the school. **ONE** thing may, however, be **AT** least worthy of consideration, *i.e.*, a first-class clock **ONCE** put in

order by us, is not likely to need any further special attention for a lifetime. Any number of Bells, Gongs, or Buzzers may be rung in as many different rooms, changed as often as may be desired for the convenience of the classes, by any person. We will furnish a first-class Regulator A, fitted with the Electric appliances, for Fifteen Dollars, or lower grade clocks at less cost, any of which are good time-keepers. Or we will fit a clock which may be in use, for Five Dollars. All communications addressed to the

American Clock & Jewelry Co.

171 YONGE STREET, TORONTO, ONT.

P.S.—We can refer you to first-class electricians if you want anything in this line.

"Public School Temperance."

The attention of teachers is respectfully called to this new work, designed for use in the public schools. It is placed on the programme of studies under the new regulations, and is authorized by the Minister. It will be used in three forms. The object of the book is to impart to our youth information concerning the properties and effects of alcohol, with a view to impressing them with the danger and the needlessness of its use.

The author of the work is the celebrated Dr. Richardson, of England; and this book, though somewhat less bulky, being printed in smaller type, contains the whole of the matter of the English edition, slightly rearranged as to some of the chapters, to suit the requirements of our public school work. It is, however, but half the price of the English edition.

The subject is treated in a strictly scientific manner, the celebrated author, than whom there is no better authority on this subject, using the researches of a lifetime in setting forth the facts of which the book discourses. At the same time the style is exceedingly simple; the lessons are short and accompanied by appropriate questions, and the language is adapted to the comprehension of all who may be required to use the book. Price 25 cents, at all book-stores.
