^{1/} Identified in accordance with approaches to be worked out in the context of Article II.

^{2/} Some delegations did not consider this table necessary.

^{3/} In accordance with the IUPAC (International Union of Pure and Applied Chemistry) Nomenclature.

^{4/} Different views exist whether it is necessary to state both the scientific chemical name and the structural formula in order for the declarations to be unambiguous.

^{5/} Some delegations suggested that multicomponent chemical weapons should not be declared as a special category in a separate table.
