You're on your way

If you meet these basic requirements, our Simplified Passport Renewal Process lets you apply using a shorter application form, without a guarantor, and without submitting proof of Canadian citizenship and supporting identification. Renewal applications are, however, subject to all current security verifications.

Where to get your application

A passport application form can be obtained at any Passport Canada service location, Service Canada Centre or Canada Post office. It can also be downloaded from Passport Canada's website: www.passportcanada.gc.ca.
