Dr. Falconer's Praise.

"We were all impressed by the good form that was shown by you on the march." Dr. Falconer told the student soldiers. "It has been a very real manifestation of the progress that has been made." The president told them that they looked as if they had come for a holiday, but when he looked at their course of training and saw the beneficial results of the discipline undergone he knew that a great deal of hard work had been done.

"This training" Passel hard work had been done.

"This training," President Falconer eclared, "has benefited not only the declared, "has benefited not only the Canadian Officers' Training Corps but the entire university. This camp will focus the entire work of the year, and whatever happens in the future there will be a new standard set, that was not set a month ago." Colonel Lang, the officers and men, were heartily congratulated by Dr. Falconer on the progress attained. He said that the men would go away better soldiers and that a precedent had been set which would endure as a standard to be reached in future years.

View of Principal Hutton.

Principal Hutton's brief speech said that the camp had added an element which had always been missing in university life. Besides the training of the mind it was necessary to discipline the will. The university college men were asked to remember the motto of the college, "A Light in Darkness," and to be true to that motto
