

say in the month of July and also a statement of the flow during days preceding but not after rains had taken place. The minister will see that there is no water supply.

Statistical offices, \$28,186.

Mr. FOSTER. Will the minister give us a statement of what is being done under that expenditure of \$28,186?

Mr. GRAHAM. The business of these officers is to keep a record of the volume of business passing through the various canals as outlined in this report. It is quite a large volume. My hon. friend will see that there is a lot of very valuable in-

formation in it. We have some 19 canals and it costs that much money to get the statistics to ascertain the movement of our merchandise.

Mr. BERGERON. How many officers are there employed in this work, and what are their duties?

Mr. GRAHAM. I have a list here which covers two pages.

Mr. BERGERON. Would the hon. gentleman read it so that it may go on 'Hansard'?

Mr. GRAHAM. It is as follows:

LIST OF STATISTICAL OFFICERS AND THEIR STAFFS ON THE VARIOUS CANALS.

			Per annum.	Per month.
			\$ cts.	\$ cts.
<i>Rideau Canal.</i>				
James Daley.....	Ottawa.....	Statistical officer.....	1,400 00	116 66
