OPINIONS OF THE PRESS.

"We notice with pleasure the appearance of a second Edition of BELCHER'S MAP OF NOVA SCOTIA. This Map, originally compiled in 1834 by William McKay from actual surveys, has now been revised, and corrections down to the present year have been carefully introduced. We observe that the projected lines of Railway are marked out, and the routes and stations of the Telegraph Line are also indicated. A late Edition of a correct Map is one of the most desirable possessions. We bespeak, therefore, a speedy and extensive sale for Belcher's Map of Nova Scotia."—*Provincial Wesleyan.*

"*Belcher's Map of Nova Scotia.*—Good office Maps of our own Province have, for some time past, been in great demand; but we have not this want to complain of any longer, now that a second Edition of Belcher's excellent Map is in the market. This is a great improvement upon the old one. Errors which must have been all but unavoidable at the time the Map of 1834 was published, and which became more apparent as the interior of the country came to be better known, have in this Map been, for the most part, carefully corrected. Not the least valuable of the many additions made, is the laying down of the several lines of Railway lately surveyed, and the courses of the Telegraph lines and the marking out of localities where the Telegraph offices are situated. The corrections and improvements reflect much credit on the draughtsman, and must have cost him no small amount of labor. The execution of the work is, in the highest degree, admirable."—*Acadian Recorder.*
