## The Advantages of Buying Millinery at the Simpson Store

The advantages of city buying in the matter of Millinery can hardly be exaggerated. Millinery of the right kind, the newest and the most artistic examples of the work of the best milliners in Paris, London, and New York, only reaches Canada after the expiration of a large amount of time and money irrespective of the actual cost of the hat itself.

The Simpson Company, buying in immense quantities, is willing and able to stand for this expense in order to get the best. Few small milliners are able to make a personal tour of inspection and have naturally to buy more or less in the dark. All the advantages reaped by the buyer with a large cheque, who not only chooses for himself but is in the position to demand the best attention, careful packing and quick delivery, are lost to the small milliner.

On Tuesday our Millinery Salon has demonstrated this fact most conclusively. The hats on view at \$10, \$7.50 and \$5 apply to any more or less in the dark. All the advantages reaped by the customer the advantages of price and style offered by the Simpson Company.
