TREASURY CONTROL OF CAPITAL REMOVED

Provided That Prospectus Certifies Money Will Be Spent in United Kingdom.

London, March 24.—Replying to a question in the house of commons to-day, Right Hon. Austen Chamberlain, chancellor of the exchequer, stated that after very careful consideration of representations made to him regarding the defence of the realm regulations, providing for treasury control of capital, and after consulting members of the house interested in the question and his advisers, he had concluded that in view of the general movement towards the removal of restrictions upon trade and industry, he was no longer interested in making government control over the distribution of capital for domestic purposes.

PREMIER PROMISES FULL INVESTIGATION

Chief Justice Sir William Meredith Appointed to Inquire Into Charges Against Chief License Inspector Ayerst—Accounts to Be Audited.

H. H. Dewar was not in the legislature yesterday. But the ship of state could not wait for him. It had something heavy in its hold and was in a hurry to lighten on to a royal commission. Premier Hearst was in his place at prayers. At their appointed desks also sat Attorney-General Lusk, provincial Treasurer McGarry, Hon. G. Howard Ferguson and Hon. W. D. McPherson—the big five. In the press gallery were special reporters waiting to inventory the cargo of repentance and atonement.

The chief part of the premier's announcement was that the accounts of the board of license commissioners during the period of O.T.A. operation will be laid before the public accounts committee, and every facility afforded for investigating them. Premier Hearst was quite frank about this. Equally prompt was Hon. Mr. McGarry in submitting a motion for the adoption of the legislature that all the accounts for the five years be taken from the protected secrecy of the license board room and deposited with the public accounts committee.

Before the business on the order paper was taken up, Premier Hearst announced that he had appointed Sir William Meredith, Chief Justice of Ontario, to investigate the charges and statements made by the members of the board of license commissioners. "As" in his address in the house, and that the chief justice has consented so to do. A royal commission will be issued forthwith, authorizing the chief justice to conduct such investigation.

London, March 24.—Commenting on the action of Hungary, The Times says: "It is not yet possible to judge the origin and extent of this last disturbance. In view of certain menacing words which German statesmen and the German press have freely employed and of the close relations between some Hungarian and German intriguers, it is susceptible of more explanations than one. On the face of it, however, it looks serious."

BOLSHEVIST ELEMENTS IN COMPLETE CONTROL

Crisis in Hungary Has Resulted From Line of Demarcation Fixed by Conference—Serbian Reports Say Hostilities Were to Begin Friday—All Foreigners Believed to Be Safe.

Washington, March 24.—Advices to the state department today from three widely separated European sources tended to increase the anxiety of officials over the situation in Hungary.

The recognition of the extreme claims of the Rumanians and Czechoslovaks and the establishment of neutral zones between these lines and the limits allowed to Hungary which zone was to be held by the French until the final peace treaty was completed, was said to have been more than the old Hungarian government was able to accept and remain in power. It was suggested that the fact that these lines were not to be the final limitations of

the new Hungarian state, was not appreciated by the Hungarians, who apparently proceeded upon the theory that they were to lose even the neutral zone occupied by the French.

Revolution Accomplished. Through Serbian sources, information was received that the revolution in Hungary had been completed. The Serbian advance declared that the new Magyar government had said that hostilities would begin last Friday night, but they did not state against whom the hostilities were ordered or whether they had actually begun. The Berne despatches threw some light on the personnel of the new government.

The appointment of Belokun as minister of foreign affairs was particularly disturbing to officials, as he was for some time an aide de camp of Leon Trotsky in Russia. The new minister of war was described as having been once punished for indiscretion in military affairs.

The state department advices were summarized in this statement: Foreigners Believed Safe. The state department has received a despatch from Belgrade that the Hungarian government was overthrown by the communist revolutionary element under Bolshevik leadership in Budapest on Friday. While telegraph and other communications were cut off, and there was some shooting and minor disorders, all the foreigners in Budapest are believed to be safe.

Through Serbian sources, information has come to the department that the Hungarian government has resigned and that the new Magyar government's proclamation announcing hostilities would be given last Friday night, Budapest time. The resignation of the old Hungarian government came after the French authorities now in Hungary had directed the Hungarian government to withdraw its armed forces to Szegedin-Debrecent boundary, the Rumanians to hold the Arad-Marmaros line and the French to occupy the territory in dispute.

Gorbai is President. A despatch from Berne, referring to the press reports concerning the resignation of Alexander Gorbai, who has assumed the presidency of the revolutionary government of workers, peasants and soldiers' councils, advised that the press is a workman who has now moved to the left. Joseph Pogonyi, minister of war, formerly president of the Soldatenrat and once minister of the second army and once punished for indiscretion in an army matter, Bohem, who has become commissioner for social affairs, was once minister of war, and has lately gone to the left. Belokun, minister of foreign affairs, used to be aide de camp for Trotsky in Russia, serving as such four years, and described as a very radical Bolshevik.

The state department has received a despatch from Copenhagen stating that Count Karolyi, heading the Hungarian provisional government at Budapest, in a memorandum received at Copenhagen claimed that Rumanians, Czechs and Serbs started rumors in entente countries that Bolshevism is developing in Hungary and claimed that by these rumors the Rumanians, Czechs and Serbs hoped they might be allowed to occupy disputed territory of Hungary on the pretext of restoring order and defending their nationals.

To Promote Revolution. Copenhagen, March 24.—A despatch from Budapest says that the government has occupied all theatres and music halls and arranged for revolutionary plays and addresses on the significance of the revolution.

LIKELY TO AVERT RAILWAY STRIKE

Leaders of Employes Express Satisfaction at Spirit of British Government.

London, March 24.—(By the A. P.)—The prospect of averting a railway strike was greatly improved tonight. There are still some points to be negotiated, but as a result of the weekend conferences at the board of trade, the leaders of the men express satisfaction over the spirit shown by the government in seeking a tangible solution of the controversy.

There had been some trouble in exactly interpreting the concessions of the men and it is expected that the men will ratify the agreement. The government has agreed that the whole situation shall be reviewed at the end of the year.
