## VALUABLE ROLLING MILL FOR SALE By written tender only, on Aug. 1, 1907

THE following described property, being the plant of the Northern Iron and Steel Company, Limited, sit-uated at Collingwood, on the South Shore of Georgian Bay, in the Province of Ontario, Canada, on the line of the Grand Trunk Railway, and reached by water Control of the South Shore of Georgian State and Closet, electric light and gas, such as the state of the Grand Trunk Railway, and reached by water Control of the South Shore of Georgian State and Closet, electric light and gas, such as the state of the state of the state of the state of the South State of the state sale by the Union Trust Company, Limited, of Toronto, Ontario, the liquidator of the business of the Northern Iron and Steel Company, Limited.

The plant is equipped for the rolling of iron and has been run on scrap for but two months, so that much of its important machinery is new. The quality of iron produced was good. Purchasers must satisfy themselves as to the condi-tion and efficiency of the property. It is confidently believed that the Town of Collingwood, which would like to see the plant in successful operation, would render some financial assistance to carry on a successful rolling mill and who would be willing themselves to become financially interested. The plant consists of the following buildings, all erected, and with the neces-sary appliances, including power, in place:

BUILDINGS. Boiler House Building, 170x50x 20 feet, built of stone, and rooted with cor-rugated sheet iron. It contains among other things a battery of four hori-rontal tubular boilers, 72 x 16. set up with all the necessary gauges, etc., in place, connected with the various en-gines throughout the plant.

plete.

gines throughout the plant. Bar Mill Building, 192 x 114 x 14, stone walls, wooden truss structure, cover-ed with corrugated sheet iron, con-nected with 10-inch hot-bed buildings size 100 x 48 x 14. These buildings are fitted with line shafts, countershafts, and wired for are and incandescent clectric light. The entire building floored with cast iron floor plates and pined for water.

iron floor plates, and piped for water, steam and wired for electricity.

Open Hearth Buildings, 100 x 100 x 30, high steel structures throughout, with a steel lean-to, contains three ladle cranes. capacity 20, 15 and 10 tons parts. as Producer Building, 80 x 20, contains

Gas Producer Bullding, 80 x 20, contains four gas producers, set up and connected with open hearth furnaces, ready for fire-brick ining, with the necessary brick on the ground. Elevated cold storage platform, with capacity of 100 tons, connected with railroad by standard gauge trestle.
Fump House Building, 32 x 46 x 20, the pumps installed and piped to the different buildings where used.
Cill House, 12 x 16 x 8, contains painting grease, linseed, machine and cylinder olls.

oils. One Office Building, 20 x 30 x 12, contain-ing automatic time recording clock, and rail shear house and scrap shed, containing one boiler, one engine and rail shear. Brick shed, 20x30x9, containing silica

**Dyeing and Cleaning** 

Ladies' Suits. Skirts. Blouses, Jackets Etc., Dyed or Cleaned. Gents' Overocats and Suits Dyed or Oleaned.

MACHINERY. Duplex Steam Pump, 12 x 8 x 10. Atlas Engine, 14 x 20, dynamos, lathes, planers, vises, mandrels, tools, gigs, etc.; bolt cutter, combined punch and har shear

planers, vises, randrels, tools, gigs, etc.; bolt cutter, combined punch and bar shear. inch Mill Engine, Corliss type, size  $28 \times 54$ . Porter narrow gauge locomotive tender, size 7 x 12. 14 narrow gauge cars. Railroad track scale. Rail tongs, wrenches, crowbars, picks.

July 31, 1907, is the last date on which tenders may be made. Only bids of par-ties of known financial strength will be considered. Right is reserved to reject any or all bids and to set a new date for awarding the property. For further information and right to inspect the property, address the UNION TRUST COMPANY, Limited, Temple Building, Toronto, Ontario.
