SIXTEEN PAGES—SATURDAY MORNING AUGUST 31 1907—SIXTEEN PAGES

JURY'S VERDICT MURDER STRONG EVIDENCE GIVEN

Bertha Pearsall, Inmate of Turner Home, Swears That She Saw Illegal Operation Performed—Girl's Sweetheart Testifies.

"We find by the evidence given that the deceased Rose Winter came to her death at 243 Poplar Plains-road in the City of Toronto, on the twenty-fifth day of August, 1907, as the result of a criminal operation performed by Mrs. Minnie Turner and that the aforesaid Mrs. Minnie Turner did thereby feloniously and wilfully kill and slay the aforesaid Rose Winter."

Bertha Pearsall swore last night that she saw Minnie Turner perform a criminal operation on Rose Winter, with whose murder Mrs. Turner is charged.

The jury spent an hour in deliberation after hearing the evidence and a short charge by Chief Coroner A. J. Johnson.

J. Seymour Corley acted for the crown by special request of the attorney-general, while A. A. Bond of Cook, Bond & Mitchell, appeared for the prisoner. She was in court but a few moments, being brought in a short time after the evidence opened, and retiring shortly afterwards.

Coroner Johnson's address to the jury was brief. "It is one of those sad cases," he said, "where a desire to evade the responsibilities of motherhood has led a woman to allow another to perform an operation on her child."

He pointed out that an abortion such as was charged was a double murder of the unborn child and of the mother. He outlined the evidence in brief.

The jury was made up as follows: W. H. Acheson, 281 College-street; Sam Egan, 223 Spadina-avenue; John Hamilton, 494 Spadina-avenue; William A. Ward, 287 College-street; T. H. Wicks, 318 College-street; Arthur Lonely, 273 Markham-street; George P. Mason, 487 College-street; John M. Cork, 458 College-street; F. R. Elliott, 128 Lippincott-street; W. Grieves, 933 College-street; John Corliss, 490 Manning-avenue; D. McCall, 95 Cameron-street; and Edward Devine, 394 West Queen-street.

Mrs. Turner's eyes were red from weeping and tears were coursing down her cheeks.

Dr. S. B. Pollard's evidence was along the lines of his statement as given in yesterday's World. Mrs. Turner, he said, had told him that the girl had come to her house to help her move from Shelley-street. She was sitting in a chair about a week before and had complained afterwards of cramps. It was at this time that Mrs. Turner called on her and telegraphed telling of her father's death. When she returned the girl was in a serious condition.

In answer to Mr. Bond he said that both the girl and Mrs. Turner had repeatedly told the story of the fall.

Charles A. Connors, assistant of B. Humphrey, the undertaker, said a coffin, carriage, grave and hearse were ordered by Mrs. Turner. The price was about \$30, not including the grave. Mrs. Turner paid \$12 for the grave in advance.

Dr. Lehman said that he had seen a girl but did not remember her name or face as that of the "Winter" girl. He did not go to Mrs. Turner's home to see anyone, and did not know Mrs. Turner.

Dr. Jacob Zellinski said he did not know Mrs. Turner, and had not seen Mrs. Turner as far as he knew. This witness was handled by Crown Attorney Corley.

James Canty, sweetheart of the dead girl, went on the stand at this point. He was on the stand in the afternoon. He said he had known her since March of this year. He last saw her Tuesday night, Aug. 20, at the Turner home. This was in answer to a card from Mrs. Turner, asking him to call. He asked if the girl was seriously sick, and Mrs. Turner said she was.

Said No Blood Poison. He said she looked as if she had blood poisoning, but Mrs. Turner denied this, and said that Dr. Pollard was attending her. She added: "He is a very good doctor for anything like this."

Rose then said that the doctor said she had blood poisoning, but Mrs. Turner said he had just said that to frighten her.

He had seen her again, but Mrs. Turner had discouraged attempts, to notify other friends or to send the girl to the hospital, saying they could both be arrested. Mrs. Turner had told him of Miss Winter's death. Witness, at the girl's request, had burned her letters.

Dr. Silverthorne, who, with Dr. A. L. Graham, performed the post-mortem, said death was due to septic poisoning, due to miscarriage or abortion.

Dr. Graham corroborated this. Mrs. Turner had said she owned the trunk, but denied possession of the instrument when it was found. Mr. Corley said that owing to the undermanned condition of the detective department he could not have all the officers present.

Saw Operation. Bertha Pearsall said Miss Winter had told her she was in trouble and had come to Mrs. Turner's to be relieved. Mrs. Turner wanted \$25. Mrs. Turner told Rose she would have to give the doctor a present.

She then declared that on the night of Aug. 13 she saw Mrs. Turner perform the operation with a rubber catheter, in which a wife had been inserted, and that Mrs. Turner had afterwards said she had been successful. The operation was repeated the next morning. Mrs. Turner had said she was afraid she would get into trouble and told the witness to agree with her in all she said. She had had experience with bloodpoisoning in the case of another woman Mrs. Turner had said.

JAMES CANTY.

PROBABLE DATE OF BY-ELECTIONS Expected That Four Vacancies Will Be Filled, Within Month.

OTTAWA, Aug. 30.—(Special.)—The Brockville and St. John elections will probably be held on Sept. 18, and it is understood here that while the former will not be contested by the Conservatives, the latter will, and at headquarters here it is claimed that the opposition will be able to retain the seat.

The London and East Northumberland elections will probably take place on Sept. 25.

The Hon. N. A. Belcourt, senior member for Ottawa and late Speaker of the commons, also formally resigned his seat to-day, and a convention will be held immediately for the nomination of a Liberal candidate. It is practically certain that Auguste LeMoine, a younger brother of the postmaster-general, will get the nomination. Fred Cook will receive the Conservative nomination if he desires it, and he is probably the only straight Liberal in the city to-day who would have a chance of winning.

It is understood that Mr. Belcourt will be elevated to the senate. He has given up hope of a portfolio.

CRUSHED TO DEATH. Scarborough Man Between Lorry and Wall Succumbs to Injuries.

Oscar Britton of Scarborough died in St. Michael's Hospital last night from injuries sustained by being crushed between a C.P.R. lorry in the lane adjoining the Star Theatre yesterday afternoon.

Corner M. M. Crawford will hold an inquest.

In company with Fred Howard, he was walking up the lane, and in attempting to pass the heavy wagon, it is alleged that the wagon backed up, pinning the unfortunate man. It was with great difficulty that he was extricated and taken to St. Michael's, where he died in a few hours.

OPIUM POISONING.

William Clark Found on Street in Unconscious Condition.

William Clark aged 35, a plasterer, boarding at 32 Mercer-street, was found in the street about 9 o'clock last night in an unconscious condition. He was on Weston Lane-avenue when discovered by the police.

He was taken to Grace Hospital, where the attending physician concluded that the man was suffering from opium poisoning. At midnight he was slowly regaining consciousness, and was pronounced out of danger. It is not known how the poison was administered.

The Sunday World

Visitors to the exhibition from all parts of the United States as well as all Canadians should get a copy of this week's Sunday World. The illustrated section offers particular value, containing twelve pages on the events and people of the day.

Here are some of the features: Pictures of the noted Canadian bands playing at the exhibition; 4 scenes at the World's Fair; an illustrated article on New York millionaires and their yacht; a group of the Sons of England Society; an illustrated article on Casa Bianca; a photograph of a brilliant young Chatham artist; pictures of the Western Lacrosse Club; executive committee A.O.U.W.; attractive homes in Toronto, etc.

Twenty-two pages giving the latest news from all over the world; the Saturday sports; special articles; carefully edited departments, etc.

Be sure to get a copy this week.

MICHIPICOTON IS A SECOND COBALT

Prospector Has Samples Which Indicate Vast Mineral Wealth in Northern Island.

SAULT STE. MARIE, Ont., Aug. 30.—(Special.)—A stampede to Michipicoton Island, rivaling the rush to Cobalt, is promised by the disclosures made in the Soo to-day by Gordon L. Michael, a well-known prospector.

Michael, who has been quietly prospecting in the island for some months, has returned to the Soo with a large number of samples, showing an extraordinary richness in native copper and silver. He has staked out three claims on the island, and says that he will not be long until the place is swarming with men, endeavoring to secure locations.

It has been known for some time that native copper existed on the island, but it was the general impression that the place was practically covered by the old patents and leases, which closed the country to prospectors.

While in Toronto in February Michael was surprised to learn that nearly three-fourths of the territory was vested in the crown, and open for staking under the Mines Act. Michael, who has always had great faith in the island, immediately started operations, which have exceeded his most sanguine expectations.

Prof. Wilms, one of the best mining experts in Ontario, had the following to say after examining the samples: "If the samples had come from Cobalt there would be a stampede at once. The specimens of silver are as good as any that have come from the Montreal section. Michipicoton Island is geologically like the Keweenaw Peninsula, and while very little prospecting has been done on the island, there is good reason to believe that native copper deposits, similar to those at Calumet, may be found there. Years ago nickel and cobalt minerals were reported from the island, also that the association of nickel, cobalt and silver is similar to that of the Cobalt district."

"It is generally assumed that the diabase intrusions of the Cobalt are of the same age as the similar intrusions at Michipicoton Island. The samples would make a seasoned Cobalter envious. They show native silver alloyed with copper, not float, but samples taken from mineral place and knocked out with a pick. The best native copper discoveries are of the same nature, containing both iron and lime, this material forming a valuable flux for the highly silicious copper ores of Algoma."

Mr. Parent is chairman of the Quebec Bridge Company. He left for Quebec this afternoon along with M. J. Butler, deputy minister of railways. The federal government has ordered an investigation. Henry Holgate, C. E., of Montreal, will conduct the enquiry and the other members of the board will be Prof. J. G. Perry of McGill and Prof. Galbraith, principal of the School of Practical Science at Toronto.

This action by the government has been taken on account of the public importance of the disaster, and not of any departmental responsibility. The engineers of the department of railways and canals, which alone is concerned, simply certify to the amount of work put into the structure from time to time, thus enabling the contractors to receive instalments.

M. P. Davis, who was contractor for the piers and abutments, had some time ago handed over his work to the Quebec Bridge Co., and the same has been accepted by them; but if it should be that the trouble was due to any error on the part of the contractor, he is of course still fully liable and responsible for any losses and damages that have occurred.

It is generally assumed that Mr. Parent can give of the collapse is that in the rushing of the work the riveting machine was following the bridge and that the steel as fast as it showed, and that the drop was due to the weight of the load of steel which was being twisted.

The day before yesterday it was reported to Mr. Parent that one of the cables of the bridge had been twisted, which seemed to show the presence of some undue strain, but little importance was attached to this occurrence.

As to the ability of the Phoenix Bridge Company, in the event of its being at fault, to make good any loss that has occurred, there is not the least doubt.

The company is, one of the best on the continent. The plans for the structure were practically drawn by that company and were all gone over and signed sheet by sheet by Theodore Cooper of New York, who is recognized as well as one of the best living authorities on engineering calculations of this kind.

Not Fully Rivetted. An engineering authority in Ottawa, who has a knowledge of the bridge itself and who has received some messages on the subject, is of the opinion that the bridge was not properly rivetted, rather than to any structural weakness.

The Phoenix Bridge Company of Phoenixville, contractors for the steel work in this case, was the same concern as built the New York and Ottawa bridge across the St. Lawrence at Cornwall, which collapsed a few years ago, although it is but fair to the contractors to say that this Cornwall disaster was not due to any fault on their part, but to the shifting of the bed of the river.

Sympathy From Premier. Sir Wilfrid Laurier this morning sent the following message to Mayor Garnier of Quebec: "I pray you to express to the citizens of Quebec and to those who lost relatives and friends my profound sympathy in the awful disaster which occurred last evening. It is the duty of all not to lose courage. We must immediately apply ourselves to the preparation of the loss and to push the project with energy."

Arrested for Shoplifting. Mary Krome and Anna Koller, arrivals from Berlin, Germany, were arrested in Eaton's yesterday by Detectives Anderson and McKinney, charged with shoplifting. Under the capes of the foreigners were secreted three silk skirts and a brocade cape valued at \$80.

BRIDGE CO. IS HELD RESPONSIBLE GOVERNMENT TO SEEK FOR CAUSE

Phoenix Co. Said to Have Been Hurrying Construction at Risk of Safety—Experts to Make a Thoro Enquiry.

WARNING DAY BEFORE WHEN RIVETS CREAKED

QUEBEC, August 30.—(Special.)—The Phoenix Bridge Co. is held responsible for the collapse of the Quebec bridge. There are sixty-one missing, fourteen found dead and eleven injured, many having only slight light hurts. Late this evening another body was taken from the wreck. The body was so placed in between girders that it could not be moved. Finally at low tide the body was taken out, it being found necessary to cut it in half to get it out.

OTTAWA, Aug. 30.—(Special.)—It is evident from the attitude assumed by the government that the responsibility for the Quebec bridge disaster will be laid at the door of the contractors.

S. N. Parent, chairman of the Transcontinental Railway Commission, states that the Phoenix Company of Pennsylvania had been rushing the steelwork too fast and that that company is responsible for all losses, and so will have to meet also the claims for damages by the relatives of those who have lost their lives.

He estimates the loss upon the structure at about one million dollars, and it is probable that the damages for loss of life will amount to half a million.

Mr. Parent is chairman of the Quebec Bridge Company. He left for Quebec this afternoon along with M. J. Butler, deputy minister of railways. The federal government has ordered an investigation. Henry Holgate, C. E., of Montreal, will conduct the enquiry and the other members of the board will be Prof. J. G. Perry of McGill and Prof. Galbraith, principal of the School of Practical Science at Toronto.

This action by the government has been taken on account of the public importance of the disaster, and not of any departmental responsibility. The engineers of the department of railways and canals, which alone is concerned, simply certify to the amount of work put into the structure from time to time, thus enabling the contractors to receive instalments.

M. P. Davis, who was contractor for the piers and abutments, had some time ago handed over his work to the Quebec Bridge Co., and the same has been accepted by them; but if it should be that the trouble was due to any error on the part of the contractor, he is of course still fully liable and responsible for any losses and damages that have occurred.

It is generally assumed that Mr. Parent can give of the collapse is that in the rushing of the work the riveting machine was following the bridge and that the steel as fast as it showed, and that the drop was due to the weight of the load of steel which was being twisted.

The day before yesterday it was reported to Mr. Parent that one of the cables of the bridge had been twisted, which seemed to show the presence of some undue strain, but little importance was attached to this occurrence.

As to the ability of the Phoenix Bridge Company, in the event of its being at fault, to make good any loss that has occurred, there is not the least doubt.

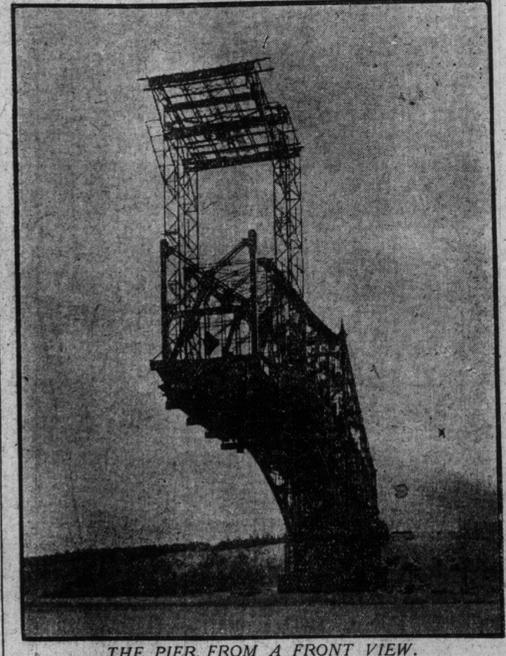

The company is, one of the best on the continent. The plans for the structure were practically drawn by that company and were all gone over and signed sheet by sheet by Theodore Cooper of New York, who is recognized as well as one of the best living authorities on engineering calculations of this kind.

Not Fully Rivetted. An engineering authority in Ottawa, who has a knowledge of the bridge itself and who has received some messages on the subject, is of the opinion that the bridge was not properly rivetted, rather than to any structural weakness.

The Phoenix Bridge Company of Phoenixville, contractors for the steel work in this case, was the same concern as built the New York and Ottawa bridge across the St. Lawrence at Cornwall, which collapsed a few years ago, although it is but fair to the contractors to say that this Cornwall disaster was not due to any fault on their part, but to the shifting of the bed of the river.

Sympathy From Premier. Sir Wilfrid Laurier this morning sent the following message to Mayor Garnier of Quebec: "I pray you to express to the citizens of Quebec and to those who lost relatives and friends my profound sympathy in the awful disaster which occurred last evening. THE PIER, FROM A FRONT VIEW.

ELECTRIC CARS CRASH 15 DEAD, 50 INJURED

Terrible Catastrophe Follows Collision Due to Confusion or Orders Received Over Telephone.

MATON, Ill., Aug. 30.—Fifteen persons were killed and about fifty injured to-day in a head-on collision between an inter-urban express train, consisting of a motor car and a traction electric car on the Maton and Charleston road, at a sharp curve, one mile west of Charleston, Ill. A confusion of orders received over the telephone is said to have been the cause of the accident.

The cars approached each other at high speed and the impact was so terrific that the motor car and the trailer were telescoped by the traction electric car. Most of the passengers were going to the fair at Charleston.

Maton sent special cars to the wreck and the dead and injured were brought to the morgue and the hospital. Several of the injured may die. The dead: Neal Purgate, Chas. Jones, Thos. Weakly, Maton, Ill.; William Nelson, North Okawa, Ill.; Chas. Nelson, young son of William; Howard Cole, boy, Cooks Mills, Ill.; Harold Cole, boy, brother of Howard; Zach Vandevanter, Maton, Ill.; Edward Reynolds, Paradise, Ill.; Albert Smith, Maton, Ill.; W. A. Price, Maton, Ill.; Douglas Logan, Humboldt, Ill.; Edna Walslein, Cooks Mills; three unidentified bodies.

Seriously injured: C. C. Armentrout, Mrs. Armentrout and two children, Chas. Joseph, Salisbury, Ind.; Samuel Boyer, James Casstevens, Gays; G. W. Davies, aged 28 years; Alex. Miller, North Okawa, Ill.; Mrs. Sarah Phillips, A. J. Phillips, Otto Towers, Humboldt; Grace Young, legs crushed; Wm. Swiez, Gays; S. F. Enos, Maton, both legs broken; Chas. Jones, ribs broken and injured internally.

Doctors and citizens hurried from Charleston to the disaster, dragged dead and injured from the broken mass of timbers and seats, and gave first aid to the injured.

The train was derailed along the track. The victims could not be taken to Charleston, because the track was blocked in that direction and the rest of the train was derailed.

The line on which the disaster happened is twelve miles long, running between Maton and Charleston, Ill., and has but a single track. Telephones are placed every two miles for orders to be transmitted to the cars passing over the road.

Mr. Borden at Three Rivers Given Fine Reception

Audience of 5000 to Hear Him—Representative Gathering on Platform.

THREE RIVERS, Que., Aug. 30.—(Special.)—This pretty little town was the scene of considerable excitement to-day in connection with the visit of Mr. Borden, K.C., leader of the Dominion opposition.

At the city hall Mayor F. S. Tourigny escorted him to the council chamber, where the mayor expressed the pleasure the citizens had in receiving first the prime minister some weeks ago and now the leader of the opposition. They were also pleased to see that in rendering homage to merit they recognized that the divided by nationalities, language and religion they were none the less members of the same Canadian family.

Mr. Borden spoke in French, apologizing for his inability to speak fluently, on the ground that the French members of parliament were such masters of English that he had no opportunity in parliament to acquire greater facility. A large crowd gathered in front of the Hotel Dufresne as the hour of meeting approached, and a brass band preceded Mr. Borden to the skating rink. Crowds lined the streets and upwards of 5000 people must have been present. The president of the Conservative Association expressed the belief that Mr. Borden's triumph would continue to the Pacific coast.

L. F. Marshall, K.C., repeatedly elicited loud applause. Describing Mr. Borden as a worthy successor of the great leaders of the past, he severely criticized the misdeeds and evils attending the present administration, attacking the immigration policy and the western land deals. He also attacked Sir Wilfrid Laurier's British preference policy as hurtful to the revenue and against the interest of Canadian workmen.

Mr. Borden was accorded an ovation. Speaking in French he expressed his

ARREST SUSPECT IN ARSON CHARGE

Ross Palmeter Taken in on Evidence Given at Inquest Held Yesterday Afternoon by Police.

Following the fire inquest held by Provincial Inspector Rogers at Dovercourt yesterday into a number of incendiary fires in the neighborhood, Ross Palmeter, aged 25 years, who with his wife lives on Dovercourt-road, was arrested last night by Constable Burns and County Constable Tomlinson, charged with arson.

Palmeter was taken on another street in the vicinity while undressing, and locked up in No. 1 police station, pending his removal to the jail.

It will be remembered that at the time of the several fires in Dovercourt the prisoner suffered the loss of a stable or large outbuilding.

The specific charge laid against Palmeter is that on Aug. 8 he set fire to an outhouse on Jameson's property.

The arrest was made on the advice of County Crown Attorney Monahan, after the evidence had been concluded yesterday.

Lattery Dovercourt Village has gained considerable prominence by reason of the numerous mysterious fires that have occurred there during the past three months.

With a view of clearing up the mystery, Provincial Detective Rogers, assisted by Acting Crown Attorney Monahan, commenced an investigation at the village schoolhouse this afternoon.

Altho 20 witnesses were examined, little light was thrown on the matter, so many startling rumors were circulated as to the cause, but these were not borne out by the evidence.

The star witness was Ross Palmeter, an expressman and carter, whose name was frequently mentioned by other witnesses and who has lost his home, stables and a valuable horse thru the fires.

The strange feature about him was the fact that he was nearly always the first man to discover an outburst. He was severely questioned as to his movements on the dates of each fire and gave a reasonably feasible story, but when pressed on any specific point, suffered from a very defective memory.

His story was corroborated in all points save one by his wife, and she insisted she was the last to leave the house on the night of her fire, despite the fact of Palmeter asserting that she had gone some five minutes previous to his leaving the house.

Palmeter also produced his diary to confirm his statements.

In cross-examination it was discovered that both he and his wife had separate keys and could enter or leave at any time.

In addition to Palmeter and his wife evidence was given by Norman Jamieson, H. Fletcher, Isabella Hopkins, Charles Clayton, Esther McLaren, W. Potter, James McLaren, W. Robinson, F. Thompson, W. McKeel, Sarah Mallett, J. Warburton, Minnie Mathews, H. Burns, W. A. Graham, J. J. Littler, Lucy Fairbairn, Chas. Goodenham and H. J. McKeel. All of them are of opinion that incendiarism is the cause, and that Palmeter knows more about the outbreaks than he has divulged.

The enquiry was adjourned until Sept. 7, when it will be resumed at the city hall.

Mrs. Mallock, a witness in the case, is attending the steps of the school at the noon hour adjournment, when she fell, striking her head, and was picked up unconscious. Her removal to her home and medical attendance.

BLEW OUT GAS. Farmer Found Dead in Riverdale Hotel With Gas On.

A farmer of the name of J. Johnson, from Usbridge came in to attend the fair and registered at the Riverdale Hotel.

On going to bed he blew out the gas. In the morning he was found lying on the bed, fully dressed, dead.

On his person was found \$35 and tools belonging to the painting trade. Dr. Graham will hold an inquest.

VEVUSIUS ACTIVE. Ominous Rumbblings Heard and Dense Smoke Issuing.

NAPLES, Aug. 30.—Ominous rumbblings are coming from Mount Vesuvius, and smoke is issuing from the crater. As a result the inhabitants of the villages surrounding the volcano are in a state of great alarm. These are the first signs of volcanic activity since the eruption of March, 1866.

A VALUABLE REMINDER. Torontoians and visitors can do a profitable business of this day contemplating the purchase of furs for the coming season. Dimeen's, the famous furriers and hatters, have been allowing a 25 per cent. concession on fur purchases during August.

Now bear in mind that 'tis is the last day of the month and that the furs will resume regular prices on Monday. So call in to-day and see what you can save. You will be interested in the beautiful exhibit, which cannot be surpassed anywhere. Your purchase will be carefully stored until wanted.

The palatial store at Yonge and Spadina-streets will be open to-day. Saturday is always a busy day for Dimeen's hat salesmen. The old firm have the newest ideas of the best makers in headgear, and prices are reasonable.

12,000 MOORS ATTACK. Give French a Hard Three Hours' Battle.

CASABLANCA, Aug. 29.—The fighting yesterday near the French camp between the Moors and the forces under Gen. Drude was one of the most serious engagements since the occupation of Casablanca. The Moorish attack was quite unexpected, and the tribesmen, as on previous occasions, showed an absolute fearlessness.

Native auxiliaries charged the Moors, sabring them furiously and the enemy finally broke and fled in disorder.

In the meanwhile the French warships had showered shells into the hills where the natives were sheltered.

The engagement lasted three hours. The line of battle extended over two miles, and it is estimated that over 12,000 Moors were engaged.

This afternoon another French regiment, the party was attacked by 1500 Moors.
