## TO THE POLICY-HOLDERS.

A desire having been expressed that there should be afforded to the Policy-holders a share in the election of Directors and a representation on the Company's Roard, you may recall that in the Directors' Annual Reports of 1897 and again last year it was intimated that that subject had been receiving consideration, and that the Directors then proposed to apply to Parliament for such amendments to the Charter as would enable them to give effect to it. Subsequently, however, it Valuations for Probate Made, being anticipated that a general measure affecting Insurance Competent, Reliable, Ceneral Auctioneers. Flour, 44f Nothing, however, having come of the Government's intention, the Board resolved upon the 20th inst. to apply to Parliament for such an amendment to the Charter as would enable its desire and that of the Policy-holders to be attained, and the necessary legal notice is now being given for that purpose.

This will, I have no doubt, be very satisfactory to the Policy-holders, and it will be a further proof of the desire of the Board to do everything that may be fair and reasonable in their interests, which may be compatible with the welfare and prosperity of the Company.

Chicago Gossip.

Henry A, King & Co., 12 East Kingstreet, received the following deapatch today from Chicago:

Wheat—The market has ruled moderately active and firm to-day. The volume of business was smaller than yesterday. Commission houses were the most prominent buyers, the seiling, which was light, being confined to local operators chiefly. Liverpool was flat to-day, closing ½d lower than yesterday's final quotations. Foreigners were moderate buyers in the New York market in the early part of the session, with some orders under the market. March wheat is still ruling firm, being up fully a cent on the claim of over sales by foreigners. St. Louis market was also firm to-day. Local receipts 95 cars. Northwestern receipts 402 cars, against 267 cars a year ago. Argentina shipments aggregated 1,288,000 bushels. Clearances 529,586 bushels. There was a slight reaction on realizing sales near the end of the session, but it brought about a good buying movement by professionals and the price quickly advanced a cent, closing strong. Corn—We can report a much better market to-day in corn, with prices ruling active and higher, the close recording best figures for the day. Commission people and elevator interest were the most prominent buyers and the seiling was light and scattered. Receipts moderate at 614 cars. Cash and shipping demand more brisk.

Provisions—A fair trade reported with
