RESTORATION OF THE JEWS.

Disturbances reported of daily occurrence at the great Zionist congress now being held in London. The Zionist movement, which has grown to its present dimensions in less than half a decade, looks toward the restoration of Palestine to the Jews. This is the great central object of the hosts enlisted under its banner. The ideal is an ancient one, and Zionism is but a recrudescence of an historic religious unrest. Now, as at past epochs in the annals of the Jewish people, many eminent in the highest walks of life are among the most ardent believers in the inevitable "return of the Jews." Dr. Herzl is President of the congress. Dr. Max Nordau, Rabbi Gortel and others are recognized leaders. Judging from the names of the delegates and the London despatches we should imagine that many of the wealthiest and most influential Jews in the United States are prominent in the cause. PROPER TREATMENT OF MILK.

The annual report of Dr. Sheard draws attention anew to the danger to health, especially of children, from the improper treatment of milk. Coming from such a source, the information is of course reliable and should be taken seriously by every one who uses milk. To secure the necessary equipment for handling and treating milk properly requires such a large capital that no ordinary milk dealer can accomplish it, even so he had the requisite knowledge. The enormous outlay being made by the City of Toronto on their new premises on Spadina-avenue indicates what
