TO STOP RUM-RUNNING

THURSDAY MORNING JULY 29 1920 HELLMUTH COUNSEL

First Public Meeting Held-Complete and Impartial

MACLAREN SECRETARY

Justice Sutherland presided at the created Hydro Radial Railway Commission, held at Osgoode Hall yester-

ereated Hydro Radial Railway Commission, held at Osgaode Hall yesterday. Commissioners Bancroft, Mitchell, McCallum and Amos, the other members of the commission, were also present. The chairman stated that the commission would conduct a complete and impartial inquiry.

Mr. Neill was appointed official stenographer for the inquiry and took the customary oath.

It was officially amnounced that I. F. Hellmuth, K.C., had been appointed to conduct the inquiry on behalf of the government. The chairman read a letter from the attorney-general, which stated that the government would bear the expense of counsel to be engaged by the Municipal Railway Association and the Hydro-Electric Power Commission, also counsel and secretary to bring out all the facts and such expert assistants as they may deem necessary.

The chairman further announced that Kenneth B. Maclaren, barrister, that Kenneth B. Maclaren, barrister, that Kenneth B. Maclaren, barrister, the chairman further announced that Kenneth B. Peculiar Method Discussed by

BLAZE THUS SMOTHERED

dary.

Advices received show that this has assumed enormous proportions, not only in Essex county but all along the international frontier. The matter has become one of national honor, and the federal and provincial authorities are called upon to take such prompt and meaningful action as will put an end to the disgraceful condition that is existing and to employ whatever means may be neces-Who ever heard of a highly organized squad of fire lighters pitching rocks at a fire in order to extinguish it? It sounds like a joke, but this was referred to yesterday at the fire chief's convention at Exhibition Park as the most efficient way to put out a blaze where oil seeping into a stream of water becomes ignited. In certain parts of Texas, in the vicinity of the oil fields, they are continually having oil fields, they are continually having

this trouble.

The topic of conversation was on oil fires and the best means of extinguishing them. Chief Charles Buttomer of Ranger, Texas, advanced the rockthrowing scheme. Audible titters were heard from the uninitiated in certain parts of the ball, but chiefs who had had experience with fires of this type supported Buttomer's statement. It supported Buttomer's statement. was pointed out that throwing rocks cuts a channel thru the oil and throws up a spray of water, which serves to

smother the conflagration.

Another method of fighting oil fires was said to be that of shooting a spray of water high into the air and letting it descend on the jubricating fluid. This serves the same purpose as throwing bombs.

ASK APPOINTMENT FOR A DISABLED VETERAN

In connection with the rumored vacancy on the board of pensions com. missioners, Ottawa, the Amputations Association at their meeting in the Central Y.M.C.A. last night, passed a Central Y.M.C.A. last night, passed a resolution which will be forwarded to the board, asking that a returned disabled soldier get the appointment if one is made. The resolution asked that the association be notified, so applications could be sent in.

Votes of thanks were given to the advisory board and to Mrs. Glazenbrook, in particular, for their efforts in connection with the equipping of in connection with the equipping of the new amputations club house. Mrs. Van Koughnet was also thanked for her work on soldiers' comforts.

WAR ON DRUG TRAFFIC ON THE ESSEX BORDER

Windsor, July 28 .- Opening a campaign for the extermination of the drug traffic on the Essex border, which is conducted more or less openly thru extensive channels, second only to the liquor traffic, Capt. Rev. H. Dobson-Peacock, secretary of the Windsor G. W. V. A., today followed the example of the border's other fighting parson, Rev. J. O. L. Spracklin, of Sandwich, who some time ago threw a bombshell that aroused the whole province, to devote his efforts thru the government to remedying the conditions existing

REICHSTAG APPROVES THE SPA AGREEMENT

Berlin, July 28.—The reichstag to-day, by an overwhelming majority, approved the agreement made recently by the government at Spa with the representatives of the entent.

HEAVY DECLINE IN U. S. SHIPBUILDING

Shrinkage Since January is Nearly Half a Million Gross Tons.

Shipbuilding for both governmen and private account is now on a declining scale, says a statement just issued by the Atlantic Coast Shipailders' Association. Shipping board Instruction has been dwindling from nonth to month for some time past, but June marked the first decrease in the amount of private tonnage under way. Practically no new orders are in sight and the prospects are that the great bulk of the work in hand will be completed by the end of the OVER THE BORDER

Toronto Wholesaler is an Exporter of Sixty Thousand Pounds.

Sarnia, Ont., July 28.—Custom officials in charge of exports at Sarnia refused tonight to give out the figures of sugar shipments across the border here. "That's sovernment on mother source it was learned that large shipments were being sent into the United States from this port. Word was received tonight that during the week ending July 17, following the week ending July 18, following the week ending July

Walter J. Harvey, manager of the Royal College of Science, \$50 with division court costs, in his action for \$280 against George H. Underhill, alleged due on a contract made in January, 1914 for a course of lectures on custof had been the victim of the leged due on a contract made in said uary, 1914, for a course of lectures on ophthalmology. Defendant pleaded that he went overseas in 1915 and that he went overseas in 1915 and that he course. The production of eggs in Prince Edward Island last year amounted to three million dozen, valued at \$1,380,000, Eighty-four per cent. of these eggs is sold outside the province.

Jiffy-Jell with its natural fruit flavor costs much less than jam or

POLICE FIND PARENTS OF MISSING CHILD

PY allowing your garage man to use imitation parts in D repairing your car you not only invite repeated repair bills and more serious breakdowns, but you actually endanger your own life and the lives of others. Cheap and inferior parts used in connection with the steering control are liable to cause accidents of a very serious nature.

You Risk Your Life When You Use **Imitation Spindles**

SHIP MUCH SUGAR

In a recent test the tensile strength of the genuine Ford Vanadium Steel spindle arm was found to be over 100% more than that of the counterfeit machine steel part. The arms were submitted to shock, and the counterfeit arm broke at a pulling force equivalent to 11,425 pounds applied to a cross section. The same pulling force applied to a corresponding cross section of a genuine Ford spindle arm did not even change its original size or shape. In order to separate the genuine spindle arm it was necessary to apply a pulling spindle arm it was necessary to apply a pulling force of 25,000 pounds.

The spindle arm is one of the vital parts entering into the control of a car, and by using spurious parts in such places, Ford owners are risking lives and property.

Genuine Ford Springs versus Imitation Springs

Genuine Ford front and rear springs are made of Vanadium spring steel having a tensile strength of 210,000 pounds per square inch, and an elastic limit of 200,000 pounds. Every genuine Ford spring is tested in the factory. Front springs are subjected to a pressure of 1,850 pounds. In the fatigue test the average genuine spring will stand 60,000 strokes before breaking. Rear springs are subjected to a pressure of 2000 pounds and the average genuine spring will absorb 40,000 strokes before breaking.

Imitation springs are generally made of carbon steel having a tensile strength of only 180,000 pounds per square inch and an elastic limit of only 115,000 pounds. In ordinary service they soon flatten out,

You are merely protecting yourself and avoiding repeated repair bills when you demand genuine Ford parts.

Only Genuine Ford Parts Can be Used with Safety
