HAY IN DEMAND AT GOOD PRICES

LOCAL MARKET. Wednesday, May 20.

Hay sold as soon as the loads appeared in the market and prices were higher than was paid at yesterday's market. Sales mere made at \$11 50 to \$13 50 per ton.

There should be a brisk demand for hay tomorrow and also on Friday. No oats offered today

WEEKLY REVIEW. There was considerable business transacted at the markets held here the past week. Saturday's' market

was a particularly large one, in fact, it was the largest market for several weeks. Although there was a large quantity

of farm produce offered, prices, as a rule, held steady.

ing crops. The farmers agree that the growth so far is ahead of last year! at this time

Grain-Oats have taken quite a quotations and are now selling at nal at 70c; No. 2 feed, 65c, at Georgian at 92c per bushel and barley at \$1 42

Hay and Straw-The supply of hay is not sufficient for the brisk demand higher than a week ago as sales are made at present at \$11 50 to \$13 50 per ton. Straw is a trifle slow and prices are steady at \$7 and \$7 50 per

Butter and Eggs-So far there has not been any great change in the price The dealers are cautious about buying any considerable quantity as they expect a sharp decline in prices. Some of the dealers say that butter will not go below 20c per to \$9 per ton. pound, as they claim that at the present price of cheese the farmers will at \$12 to \$14 per ton, in car lots on track send their milk to the cheese factories rather than convert it into butter if prices should go lower than mentioned above. The farmers who make butter have an advantage over those who send their milk to the factories, as they can use the skim milk for fattening hogs and calves. Sales are crocks and pound rolls. doz. for crate lots. The most of the \$6 50. ales are made at the higher figure. Hogs-Receipts, 20,000; 5c to 10c higher;

not a great deal is wanted. Spring heavy, \$5 25 to \$5 62½; roughs, \$5 25 to chickens are lower in price at 25c per \$5 35; good to choice heavy, \$5 35 to \$5 62½; pound alive, or 28c dressed. Turkeys pigs, \$4 to \$5 15; bulk of sales at \$5 45 to sell at 11c to 12c per pound alive, or \$5 55. 121/2c to 13c dressed.

has been the means of curtailing the demand; sales are made at \$8 50 per

Live Hogs-Prices paid here Monlikely to be any shipment from here on that day.

Small pigs are dull, as there is a large number offered. Sales are made at \$3 50 to \$6 per pair. Butchers' Meat-The demand is fair

and the supply is small at \$7 to \$9 25 per cwt for beef, \$6 to \$7 25 for veal. Spring lambs sell at \$6 to \$6 50 each. Yearlings at 13c per pound by the carcass.

Hides and Wool—Hides are selling ewes, \$5 25. at 6c per pound for No. 1; 5c for No. 2, and 4c per pound for No. 3 grades The dealers expect that 14c to 15c will be paid for washed wool and 8c for unwashed as soon as the farmers start to bring it in.

DAIRY MARKETS. LIVERPOOL DAIRY REPORT, WEEK

ENDING MAY 8. [Hodgson Bros.' Letter.1

Cheese-There has been a little better inquiry at the quotations for old cheese, also the few fodder States which have arrived (where full creams and showing quality) have been readily picked up Medium grades, however, are still a slow sale. The New Zealand arrivals are unsatisfactory in quality, and pressed for sale at lower prices. We quote today: Finest Canadian, fall-made, colored, 62s 6d to 63s 6d per cwt; do, white, 61s 6d to 62s 6d; earlier-made States and Canadians, white and colored, 58s to 60s; finest first grade New Zealands, white and colored, 60s 6d to 62s; finest new fodders,

States, white and colored, 55s to 57s.

Butter-There has been a fair inquiry strictly choicest Danish and other continental sorts at higher prices, but there is a slightly easier feeling at the end of the week. The demand for colonial butters is smaller and values are reduced. Irish arrivals are a shade more plentiful, but readily absorbed at about unchanged values. Medium grades of butter are still scarce, and in but moderate demand. The Copenhagen quotation is cabled unchanged for next week, the anticipation having been for a slight decline. We report today's values as follows: Choicest Canadian creamery, in 56-lb boxes, none; choicest Danish, in Kiel casks, 113s to 116s per cwt; choicest Russian and Siberian in Kiel casks, 106s to 112s; secondary grades, do, 102s to 104s; choicest Australian and New Zealand, 108s to 114s; choicest Irish creamery, 108s to 112s choicest Argentine, scarce, 110s to 112s; choicest States creamery, none; States process creamery, nominally 84s to 88s; States ladles and imitations, in small sup-
