SHORTLY WILL BE PUBLISHED. At the Office of the City Gazette,
THE SAINT JOHN ALMANAC,

THE SAINT JOHN ALMARAC,

OR NEW-BRUNSWICK FARMERS' CALENDAR;
FOR 1830.

VASI numbers of Almanacs have unutally been imported from the United States, which, in hobogh they contain some useful matter, yet, being calculated for a different Meridian, are not found applicable to many important purposes.

In compliance with the suggestions of a number of persans, who have expressed their regret that a necessity for such importations should be thought to exist; and with a view to superiede the idea of such necessity, and to contain the input towards vendering the Province independent of foreign supplies of that article, the present work has been taken in calculating the Astronomical Tables for the Meridian of Saint John and it is thought that such a degree of accuracy has been attained, as willlentitle them to confidence, and render them generally useful.

To the improvement of our rural and domestic concerns also, such a degree of attention has been given, as will, it is hoped, obtain the approbation and patronage of the Agricultural community, and of the public generally.
