HOMER MARKS RETURN OF RUTH

Makes It With Two Men on Bases

Yesterday in the Big Leagues—Leonard Hit Britton with Latter on One Knee, and Loses on Foul.

(Canadian Press.)

New York, June 27.—Bebe Ruth again in a winning cug in the Yankees' line. Returning to the game yesterday after his suspension of five days he made a homer off Jack Quinn in the fifth inning with two on, the hit figuring prominently in the six to four win of the Yankees over Boston. Shawkey clinched the victory for himself with another blow in the 9th.

Coveleside held St. Louis in check while his team mates hit Pruet for twelve hits and won, 6 to 0, thus enabling the New York Americans to gain a full game on the Browns. Two and a half games separated the rivals today.

Jimmy Ring twisted Philadelphia to its fifth straight victory over Boston and the Quakers climbed out of last place while the Braves tumbled to the bottom.

The Reds hit three St. Louis pitchers hard, while Keck, a recruit, was steady in the pinches and continued his winning streak by winning 7 to 4.

The Chicago Cubs got to Morrison in the latter stages of the game for several timely blows and won from the Pirates, 6 to 4.

Pittsburg, June 27.—Harry Greb won a newspaper decision over Hughie Walker of Kansas City in a ten-round bout at Forbes Field last night. Greb weighed 165 and Walker 180 1/2.

Leonard and Britton. New York, June 27.—Benny Leonard, second lightweight champion in twenty-seven years to attempt the lifting of the waterweight title, failed last night when, after being outpointed in twelve rounds, he fouled Jack Britton, the thirty-seven year old champion and was disqualified.

Two minutes and forty seconds in the 18th round while the latter was on one knee, taking a count, as if in pain—and motioned to his seconds to claim a foul. At this juncture Leonard struck Britton in the body with a left. Haley said he had not seen a referee struck when Britton went to his knees, but disqualified Leonard for violation of the rule prohibiting the striking of an opponent while he is kneeling.

Britton had had all the best of the contest and it was evident that he would win the fight. The referee's decision was a surprise to all those who had followed the contest since the limit of fifteen rounds.

The fighting, however, was interesting at all times, with both champions in display of their best known tactics.

Paris, June 27.—Eugene Criqui, French featherweight winner of the championship of Europe from Arthur Wynn, Belgian, before going to the U. S. with Kilbane his untimely death. He was being under way to sign up Criqui for a bout with "Pepper" Martin in New York. Duke Decas was made a silver cup for the fight here in Criqui and Wynn on July 7.

B. E. FINANCING PLANS NOT YET COMPLETED

Board of Directors of Steel Corporation Elected at Montreal Meeting Today.

Montreal, June 27.—The adjourned annual meeting of the shareholders of the British Empire Steel Corporation and its subsidiary companies was held here today. Roy W. Wolvin, the president, said the corporation's new financing plans had not yet been completed.

Despite rumors of important changes in the directorate, including the appointment of two or three prominent business men to executive positions, no announcement in connection with this was made.

The following board of directors was elected: Hon. C. P. Beaulieu, Right Hon. Viscount Furness, Sir Trevor Dawson, Major-General Sir Newton Moore, Hector Melnes, K. C. D. H. McDougall, Dr. W. L. McDougall, Frank Rees, W. D. Ross, H. B. Smith, J. F. M. Stewart, Galen L. Stone, Benjamin Talbot, and R. W. Wolvin. These constitute the first permanent board since the incorporation of the company less than a year ago.

CROPS SUFFERED IN THE STORMS AND FRESHET

Fredericton, N. B., June 27.—Strawberries and other small fruits and apples in New Brunswick suffered little if at all from the rains and summer freshet, according to reports reaching here.

Root crops in certain sections are said to have been washed out of the ground and large quantities of hay and grain have been seriously damaged.

It is safe to say that the damage to the crops has been as heavy as the losses suffered in the province from forest fires last year, said an official of the department of agriculture.

BEER BATTLE IN BRITISH COMMONS

London, June 27.—(Canadian Press)—In the House of Commons today there will be a battle over the beer duties, which have been increased greatly in the last few years. In the House of Lords the subject of chief discussion will be the Genoa conference.

Happy Juniors Free From School Duties

A Four Year High School Course Advocated by Principal

Anniversary Observed There—Addresses at St. Vincent's—Good Attendance, the Report in All the Schools—Presentations of I. O. D. E. Prizes—Little Ones Care-free for Ten Weeks.

(Canadian Press.)

New Brunswick high school courses and New Brunswick boys were unable to enter some United States colleges because they had only a three-year high school course.

St. Vincent's. Interesting, instructive and helpful addresses were given this morning at the closing exercises of St. Vincent's High School. His Lordship Bishop LeBlanc spoke to the girls on the life beyond the walls of the school and of the opportunities which were theirs. He pointed the way to the higher things in life and told them of the more desirable things, even though they might appear much less desirable at first sight. He hoped that pleasure and wealth would not be uppermost in their minds. Many people in the world were considered failures, judged by ordinary standards, but in reality were martyrs. He closed with an appeal to the girls to strive for the attainment of all that was best and noblest in life.

Mrs. C. D. Wilson congratulated the teachers and graduates on the excellent work accomplished during the year. She expressed the opinion that the teachers of St. Vincent's High School were second to none in Canada.

She was sure that the graduates would all prove a credit to their alma mater. In bygone years the school had turned out many graduates who went on to add to the laurels of the school. One of the graduates had been the secretary of the I. O. D. E. and had received the degree of Bachelor of Civil Law and others had done well in many professions. One ideal that she held out to them was that of higher education for women. Woman had wonderful capabilities as well as great responsibilities and although higher education could not reach the pinnacle which was her birthright, she held out to them that of higher education for women. Woman had wonderful capabilities as well as great responsibilities and although higher education could not reach the pinnacle which was her birthright, she held out to them that of higher education for women.

Dr. H. S. Bridges said this was the twenty-fifth anniversary of the date on which he had presented the first certificate to the graduates of St. Vincent's High School. This was also the anniversary of the establishment of free schools in New Brunswick.

Miss Elizabeth Morton read an essay telling of the founding of the old high school in St. John at the corner of German and Hoeselard streets. The first master was Mr. Jamieson. Mr. Weeks and Mr. Bremner were two of the later masters. From 1877 until 1897 the high school was located in various buildings under Dr. Bridges.

The Victoria High School in St. John was rated by the Marquis of Lorne as his ideal of all the institutions he had visited in Great Britain, France, Germany, the United States and Canada.

Mrs. Hawker carried on the history of the school from 1897 to 1922. In 1897 the present building was opened under Dr. Bridges who was succeeded by Mrs. Myles in 1907. The total number of graduates since 1897 was 1,518. The first orchestra was formed in 1898. The first band was organized in 1907. Frank Smith, Arthur Carter, Atwood Bridges, G. P. Brooks and George Skinner, carried off the championship in 1907. An essay on school athletics by James McInerney, captain of the football team, was then read. He also told of the foundation and drilling of High School Cadet Corps.

In 1906 the school colors, red and grey were instituted. Since the Shamrock grounds became unsuitable, High School had been in the search for a new site and consequently there was a falling off in athletic activities.

This year the basketball team came through the season undefeated, taking quite a number of prizes. The hockey team was also successful on account of lack of a rink in the city.

Edith Lawson read an essay on the Alumnae Society. Before 1896 the membership was limited to the girls, but after that date graduates of the boys, graduate high school were admitted. She told of the institution of the Alumnae gold medal for highest marks in grade 9. The honor roll of the former pupils who served in the war was placed by the Alumnae in the building. It contains 623 names. They also issued a scholarship in memory of those who gave their lives in the war.

The roll call of classes was a novel number, pupils of the 1922 class giving in verse some of the outstanding features of the classes from 1897 to 1922. Mr. Myles in announcing the valedictorian Miss Harriet Roberts, said that the content for premier honors was very close among five pupils and particularly between two.

Miss Roberts in her address spoke of the need of a new high school building to accommodate the ever increasing classes and expressed the hope that it would include a gymnasium and auditorium. She spoke words of thanks to the teachers and of encouragement to the undergraduates.

The diplomas were presented to the graduating class by Dr. H. S. Bridges. Dr. Bridges complimented the orchestra. He said the honors won by Rhodes scholars from the high school were due to the great extent to care and industry of the teaching staff.

Eloquent indeed was the address to the graduating class, delivered by Rev. Clifford Clarke, '05.

Ken Haley, '08, presented the honor certificates.

W. J. S. Myles presenting the Grade XII certificates said that the rooms in the high school were crowded in future. He did not favor the project to disperse with Grade IX in the building and spread it all over the city. He hoped next year that accommodations would be found and that the following year the school board would make plans for a new school or additions to accommodate 1,000 pupils.

He favored the four-year course in high school. He said Nova Scotia, Ontario, Manitoba and British Columbia

PLANS FOR GERMANS TO REBUILD FRANCE AND CHANNEL TUNNEL

Paris, June 27.—A huge war reparations plan under which the Germans would reconstruct France and also build the long planned tunnel under the English channel has been submitted by the minister of public works. It involves the use of German labor and materials to the extent of twenty billions of francs.

The newspapers publishing the details fully approve the project, declaring that under it Germany cannot refuse to pay.

SCHOOL QUESTION ONE BEFORE THE WOMEN'S COUNCIL

Vitality of Teachers and Pupils at the Lowest Ebb.

Fort William, Ont., June 27.—(Canadian Press)—Following the election of Mrs. C. E. Carmichael of New Glasgow, N. S., provincial vice-president for Nova Scotia, as president, the convention of the National Council of Women passed a resolution yesterday urging that certified teachers be issued previous to marriage.

(Canadian Press.)

Fort William, Ont., June 27.—(Canadian Press)—Following the election of Mrs. C. E. Carmichael of New Glasgow, N. S., provincial vice-president for Nova Scotia, as president, the convention of the National Council of Women passed a resolution yesterday urging that certified teachers be issued previous to marriage.

The council decided to appoint a representative on the dominion fire prevention association and co-operate with the association. Mrs. J. A. Wilson of Toronto, was appointed to endorse proposals for mental inspection in schools, classes for sub-normal children, and for the removal of children from mental hospitals through psychiatric clinics wherever possible, remedial punishment of children, and the discontinuance of annual examinations in schools where the vitality of both teachers and pupils is at the lowest ebb.

PROROGATION OF HOUSE IS NEAR

Perhaps Tonight, but More Likely Tomorrow.

The Matter of Transportation Costs—Senate Amendments to Canada Temperance Act are Rejected in the Commons.

(Canadian Press.)

Ottawa, June 27.—Prorogation will probably take place on Wednesday, but an effort will be made to reach it tonight, so Premier King said in the house this morning, just before adjournment. He said that the house order paper was practically clear of government business, but that it was doubtful whether the Senate could deal with all the bills before it in time to prorogue this evening.

The premier suggested that there might be a debate on redistribution. The Senate has a busy day before it to prepare for prorogation. Among the bills with which it has to deal is the railway rates measure.
