Lorrain's orchestra will present the closing moonlight excursion of the season via City of Chatham, next Tuesday evening. The trip promises to be a most enjoyable one.

SEVERE BRONCHITIS

Yields Promptly to Dr. Chase's Syrup of Linseed and Turpentine.

I used your Dr. Chase's Syrup of Linseed and Turpentine for a severe attack of Bronchitis. I got better from the time of taking the first dose. Having a family of young children, my doctor's bills have annually come to a considerable sum. I believe a bottle of Dr. Chase's Syrup occasionally will aid me in reducing them very materially.

THE ROLLER BOAT

It Has Been Launched at Toronto.

Expected to Roll Sixty Miles an Hour Over the Surface of the Water.

Toronto, Sept. 9.—Frederick Augustus Knapp's much-talked-of roller boat, which has been under construction in Polson's shipyard here for some time past, is now afloat in Toronto Bay. All morning yesterday was getting the ways into place, and this afternoon the big cylinder was gently lowered into the water, where it now floats alongside the dock at Polson's yard. The vessel is cylindrical in shape, and is 110 feet long over all and about 25 feet in diameter. The diameter is the same to within five feet of either end, when the cylinder commences to taper rapidly, decreasing to a diameter of 15 feet at either end. The draught will be 23 inches. The original design of the inventor has been considerably changed. Instead of having a heavy stationary cylinder, around which the outer part could revolve, as at first intended, there is nothing at all in the centre of the hull. At either end there is to be a platform, resting on wheels, which touch the revolving part. This platform will be placed between the hull and the wheel, and will be a system of cog, cause the hull to revolve. There will be a platform similarly equipped at each end of the hull. The platforms each travel on four big driving wheels and weigh about fifteen tons, with complete engines and boilers complete. Mr. Knapp proposed to suspend the platform and use swinging gravity, but he has allowed the engineers in charge of the construction to use the direct application. The whole craft will weigh 100 tons, and 500 square feet of the will be in actual contact with the water. The boat, which is expected by its inventor to travel at the rate of a mile a minute, will be steered by two huge rudder or tail boards, one at each end, just below the platforms. Steam steering gear will likely be used.

DROWNED BY DRINK

Terrible Boating Disaster at Detroit.

Antics of Intoxicated Men Capsize a Sloop—Six Drowned.

Detroit, Sept. 9.—Thirteen men and boys, while recklessly moving about, caused the foundering of the sloop Blanche B. in Lake St. Clair, midway between Windmill Point and Peche island, late yesterday afternoon, causing the death of six of their number, while seven others narrowly escaped watery graves. Some of the survivors stated that a majority of those aboard the boat had been drinking and were in an exceedingly gay mood. They were admittedly out for a good time. One of the men, who claims to have swum ashore, a distance of nearly a mile, says that he does not know who was sailing the sloop and that he made ineffectual efforts to rescue two of his drowning comrades.

When asked if those on board had been drinking heavily, he replied, as he tossed back his head: "O, we had a few beers aboard." This statement was made by Ernest Thillman, who resides at the corner of Antoine and Franklin streets.

THE LOST AND SAVED.

The drowned were: Thomas Fritz, 183 Franklin street; Herman Gerteis, cigar-maker, 209 Catherine St.; Grant J. Murray, printer, 169 Chestnut St.; Thomas Newsome, horseman, Rioselle and Jefferson; Charles Rice, driller, 367 Hibbard; John Tansey, printer, 150 Baker St.

The saved were: Fred Belanger, 27 shoemaker, 15 Homer avenue; Victor Belanger, aged 18, 15 Homer avenue; Benjamin O'Brien, teamster, 367 East Woodbridge St.; Albert Peters, aged 14, 230 Crane avenue; Peter Smith, residence unknown; Timothy Rogers, peddler, Ernest Thillman, printer, 23 Antoine St.

Two of the survivors swam over a mile to shore. The other five were picked up by row boats. Said one of the saved: "If you want to know, the men were drunk, and the sloop, which is a third or fourth class yacht, had 2,000 pounds of ballast, and was easily capsized. Of course, if you wish to put it in a polite way it might be said a puff of wind did the business."

The capsizing was caused by the antics of the party, who were climbing the masts.

One Honest Man.

Dear Editor—Please inform your readers, that if written to confidentially, I will mail, in a sealed letter, particulars of a genuine, pure home cure, by which I was permanently restored to health and manly vigor, after years of suffering from nervous debility, sexual weakness, night losses and weak shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong and wish to make this certain means of cure known to all sufferers. I have nothing to sell and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness. I promise you perfect secrecy. Address with stamp:

1902 BETTER.

Milburn's Heart and Nerve Pills are curing heart and nerve troubles in every city, town and village in Canada. Mrs. F. Abbey, Toronto, says: "Milburn's Heart and Nerve Pills cured my husband, who had for fifteen years suffered with weak nerves caused by heart trouble. He was subject to pains in his head, dizziness, fainting spells, sleeplessness, etc. He is now free from these troubles, and feels 100% better than when he began using the pills."

THE WONDER OF THE AGE.

Dear Sir,—I must honestly say that I have tried your valuable medicine, B.B.B. for the disease called prairie itch, and have found this remedy to be the wonder of the age. I took only three bottles and to my great satisfaction was completely cured. I can highly recommend it to all who suffer from any skin disease or impurity of the blood.
