## PORK PACKING.

The Meeting at the Board of ers got. Trade Rooms Friday Night.

Addresses by Premier Emmerson, Hon, Mr. Labillois, Secretary Peters and Others.

a Factory. The meeting in the Board of Trade

rooms last Friday in the interests of pork packing and pork raising was well attended. W. M. Jarvis presided. and among those present were Premier Emmerson, D. J. Purdy, M. P. P., Hon. C. H. Labillois, T. A. Peters, W. M. Jarvis, Capt. Keast, T. S. Hall, D. R. Jack, T. L. Hay, E. Lantalum C. E. Evereitt, John Purdy, F. L. Potts, W. S. Fisher, Dr. Gilchrist, James Pender, Dr. J. M. Smith, Dr. Frink, C. J. Osman, M. P. P. (Albert), J. G. Scovil, F. O. Allison, F. Courney, J. A. Macintyre, F. Flewwelling, W. W. Hubbard, S. D. Scott, M. McDade and Hon. Wm. Pugsley. After a few opening remarks by the chalirman, George Robertson, M. P. P., spoke on the pork raising industry and the establishment of a pork pack-

ing factory in this city. Hon. Mr. Labillois, in response to a call, spoke at some length in favor of the establishment of a pork packing establishment in this city. J. J. Ferguson of Ontario, said it

rested with the farmers to supply the right kind of hogs. If the farmers raise hogs, he must be assured that there will be a pork packing establishment. The conditions, he thought, were favorable for pork raising and pork packing in this province. He spoke of the feeding system in Ontario, and stated that in some sections hogs could be raised cheaper than in Ontario. Hogs enough to keep a factory in operation could be raised in this province, but if there was scarcity there would be no trouble in setting a carload from Montreal in 24 hours. A corporation should not start with a small capital. Cash must be paid for the hogs and a company should have a considerable sum of money on hand to provide material. The cash returns will come in slow at first, and for this reason good provision should be made.

Mr. Ferguson, in reply to Dr. Gilchrist, answered several questions in regard to feeding hogs. He said in Ontario hogs could be sold, live weight, at an average of four and a half cents per pound. Mr. Ferguson last week, where a farmer told him that he would supply the pork fac-tory with 500 hogs a year, getting his feed from Ontario.

W. W. Hubbard thought farmers though there were some farmers making a good show off clover. He said the farmers would not produce the pigs unless there was a market for them, and therefore it remained for the moneyed men to establish the

Hon. Mr. Emmerson, in response to a request, spoke briefly. The commissioner of agriculture had frequently brought before his colleauges the importance of pork packing factories, with the result that the matter has agreement considers his interest. awakened considerable interest. It establishment of a pork packing fac-tory in this city. There have so far, however, been no practical steps taken to establish a factory. On the train he was conversing with a gen-tleman from Madawaska who sold three thousand dollars' worth of pork each year, imported from Ontaric.
This was only one man. He had no
policy to propound so far as the government was concerned beyond the
encouragement of raising of hogs.
The government has brought the matter before the public, and it now remains for the business people to take hold of it. He did not know what better way the government could aid in the establishment of pork packing factories than in the importation of some good breeds of stock, and from conversations he had with his colleagues the government would be favorable to such an importation. He was present for the purpose of get-ting information and learning the views of business men and farmers. Dr. Gilchrist read the circular is

sued some time ago in request to the establishment of a pork packing fac-tory, and criticized the same. Afterwards the doctor spoke of the feeding of hogs, and pointed out that there was no necessity for sending to On-tario for feed. Just as soon as the farmers are assured there is a mar-ket the hogs will be forthcoming for

T. A. Peters, secretary for agriculture, on being called on said one good argument in favor of the establishment of a pork packing factory was that never had one falled. He said that at least after the first year all the hogs required would be forth-coming. In fact he was satisfied that Kings county alone would supply hogs enough for a St. John factory. James Pender was of the opinio that it would be a good idea for the board of trade to endeavor to get Slipp & Flewelling to establish a factory in conjunction with other gentle-

T. L. Hay said the last letter he had received from Mr. Packingham stated that he offered to take stock up to ten thousand dollars. Mr. Hay did not think the properts were favorable for the establishment of a factory. He was, however, willing to subscribe some stock in the company.

W. S. Fisher spoke of the movement within the past two years for the establishment of a pork packing fac-

Frank Flewelling, of Slipp & Flew-elling, on being called on, said the

limit of his business was the limit of the hogs. He said he paid a cent to a cent and a half more to the farmers for their hogs than the Ontario farm-

In reply to W. W. Hubbard, Mr. Flewelling said he would take a carload of live hogs next September and pay the Toronto market price. Al-though there is a duty of two cents a pound, or four dollars a barrel, American pork is not shut out. The farmers will not raise hogs sufficient to supply the local demand.

W. M. Jarvis and Frank Flewelling spoke, Mr. carvis stating that it was apparent from all that had been said it was desirable to have the views of A Committee Appointed to Confer With the Hon. Mr. Emmerson carried out, namely, the importation of some good breeds of pigs.

C. J. Osman, M. P. P. of Albert, and Hon. Wm. Pugsley, M. P. P., Kings county, spoke on the subject of establishing a pork packing factory. Both were in favor of the scheme.

F. L. Potts, W. S. Fisher and Capt. Keast spoke briefly, after which a vote of thanks was tendered Hon. Messrs. Emmerson and Labillois, T. A. Peters, Mr. Ferguson and W. W. Hubbard.

Hon. Dr. Pugsley moved that a committee be appointed to confer with the government as to the establish-ment of a pork packing factory at some convenient point within the province.

Dr. J. M. Smith seconded the resolu-

E. Lantalum moved an amendment, that St. John be substituted for the words "some convenient point." S. D. Scott suggested that "some convenient point" be struck out. This was accepted by Hon. Mr. Pugsley and the amendment was, with-

CAPTAIN LEE'S APPOINTMENT.

(Philadelphia Evening Post.) The recent determination of the British government to create the permanent office of military attache to its embassy at Washington and to make Captain Arthur H. Lee of the Royal Artillery the first incumbent was a particularly timely act.

Captain Lee is an experienced campaigner, a former professor of mili-tary topography at the Royal Mili-tary college at Kingston, Canada, an officer of keen discrimination, and a gentleman who has made a multitude of friends in the United States.

His behavior throughout the Santi-ago campaign won him the esteem of the united regular and volunteer the qualities of the American soldier, both in official reports and in late magazine articles, will insure for him most cordial treatment in his new of-

A pleasing personality is reflected in his reports on the quick work of the Americans in Cuba. He made himself a part of the American army, and his liberal use of "we," "us," "our," and other intimate parts of speech established a solid friendship with officers and men alike.
