

GERMANS AT HOME KNOW LITTLE ABOUT OPERATIONS IN THE EASTERN THEATRE OF WAR

Berlin Gets Most of Its Information From Russian Newspapers — Great Rejoicing Over News of Alleged Victory for Kaiser's Forces at Ypres.

Berlin, April 23 (Via London, April 24).—The headquarters bulletin issued today again says, "the situation in the east is unchanged." The report from the Russian front has been in this exact wording every day for a fortnight. It has been several weeks since any fighting between the Germans and Russians has been reported, but various indications point to a resumption of activity in the eastern theatre of the war shortly.

Just what form the new campaign will assume or in what locality of the long front it will be staged is one of those mysteries, which Von Hindenburgian strategy is so accomplished in making, even from the Germans, and speculation regarding it and concerning the present whereabouts of the Field Marshal can be heard in every coffee house and beer garden.

The latest Russian newspapers, received in Berlin today, report that the Germans are busily engaged in fortifying in the vicinity of Suwalki and Augustowa. It is asserted that they have completed two strong lines of entrenchments on the eastern side of the swamp belt, which is presumed here to indicate that it is the German intention to remain on the defensive before the East Prussian frontier.

Heavy spring rains are falling in the Carpathians making aggressive operations in this region most difficult. The reports from correspondents in the Carpathians generally are to the effect that important movements of Russian troops are taking place behind the Russian front indicating that the Muscovites are making new dispositions of their forces to meet an expected German blow or to launch a new offensive.

Today's reports of German successes near Ypres and of the activity of the German fleet in the North Sea caused general rejoicing among the public, which for some time has been forced to be content to get its war news from the Austrian reports. The victory at Ypres was not considered great enough to bring out the flags on the buildings in Berlin, but the populace expressed pleasure at the number of cannon captured and declared that it compared favorably with the defeat of the Allies at Soissons. The military critics in their articles dealing with the German advance declare that it is a satisfactory answer to the British success at Neuve Chapelle.

Further details concerning the fighting are expected to reach Berlin tomorrow.

THE DISASTROUS END OF A BRITISH AVIATOR'S NIGHT FLIGHT IN BELGIUM

This picture, forwarded from Belgium, shows the disastrous end to a night flight by a British aviator. The poles were part of an elaborate lighting system for illuminating the field so that the pilot could make a safe landing, but the sudden blaze of light confused the pilot, with the result shown. The pilot escaped serious injury.

RUSSIAN CAVALRY HAS INVADED EAST PRUSSIA

London, April 24, 3.50 a.m.—"A strong column of Russian cavalry again has invaded East Prussia near Memel," says the Daily News Petrograd correspondent, "and is threatening the Germans' left flank."

More Peace Talk.
London, April 24.—The Daily Mail's Warsaw correspondent sends to his newspaper a long statement from "a high authoritative source," in which the possibility is discussed of an early conclusion of a separate peace with Austria.

"Although the air is full of such stories, and the indications show that Austria is desirous of an instant and lasting peace," the statement says, "it must be understood that if Austria ceased to be a belligerent her position as a neutral would mean that she would be able to offer as great, if not a greater, obstacle to the success of Russian arms as if she remained a belligerent."

"The Russian plan of campaign now is definitely based on Grant's despised American civil war theory of a continuous extension of battle lines, it is necessary that Russia possess herself, temporarily at least, of the Austro-German frontier line from Cracow westward. Grant failed to hack his way through, although he had the preponderance of five men to his opponents two which is a greater preponderance than we can hope to attain. But he kept extending his line until one day the foe failed to meet him and was outflanked."

MORE MODIFICATIONS OF THE WOOL EMBARGO BY GREAT BRITAIN
Washington, April 23.—In extension of the concessions to American woolen manufacturers to import raw wools the British government today gave notice that it would also raise the embargo on the exportation to the United States of "wooled sheepskins"—skins with the wool on—provided the exportations are in accordance with the arrangements made with representatives of the American Textile Association which guards against the re-exportation to other than allied countries.

GOOD WORK OF FINNISH ARMY WINS REWARD

Czar Decides to Re-establish it with Same Constitution as Previous to Year 1898.

London, April 24.—The Copenhagen correspondent of the Exchange Telegraph Company says it is stated that the Emperor of Russia has decided to re-establish the Finnish army with the same constitution as previous to 1898. It is said that the Emperor will take this action on the advice of Grand Duke Nicholas, commander-in-chief of the Russian forces, who has been impressed by the brilliant strategic word done by Finnish officers serving in the Russian army during the present war.

WOMEN WORKERS IN FRANCE WHO ARE PAID ONLY CENT AN HOUR

Extraordinary Facts Brought in French Senate During Debate on Starvation Wages Women Receive.
Paris, April 23.—Some extraordinary statements regarding sweatshop wages in this country were brought out in the Senate yesterday during the debate on a bill to fix a minimum living wage throughout France by boards created by the government. Jean Morel said that between nine hundred thousand and one million women in France are now enduring insupportable servitude and receiving wages barely sufficient to maintain life.

M. Morel, Henry Cheron and Edouard Herriot submitted masses of details on the subject. It was stated that twenty-seven per cent. of the workers at home, on household linen goods, make from two and one-tenth cents to four cents per hour by intense industry. In some provincial centres pay for such work is one cent per hour. In Paris fourteen per cent. of the women working upon under garments make a maximum of forty dollars yearly. Artificial flower makers, employing much taste and manual dexterity, are able to make in the best season, from eighty cents to a dollar per day, but more than fifty per cent. never are able to get beyond thirty or forty cents. In the provinces women working in underwear and ready-made clothing are able to make only ten to twelve cents a day in most cases, and rarely as much as twenty cents.

M. Morel, who prepared the senatorial committee's report, went into the question of how such women are able to live. He cited one case of a woman who made nineteen cents a day. She paid thirteen cents on an average for bread, cheese and vegetables, leaving six cents a day for lodging and clothing. Another case was that of a woman who had a child to support. The mother began to sew at the machine at three o'clock in the morning, and worked all day and part of the night. She was able to earn twenty-five cents a day, but could afford nothing more to eat than soups.

The bill passed its first reading in the senate. It is already passed the chamber in November, 1911.

ASK RECALL OF BRITISH ENVOY TO THE VATICAN

London, April 23, (Gazette Cable).—The Scottish members of parliament have been the recipients of numerous demands for the recall of the British envoy to the Vatican, this being the outcome of the resolutions passed recently by the various Presbyterian Synods. The situation will probably be ineffective, as there is good authority for stating that Sir Henry Howard's mission has proved of immense value to Great Britain and the cause of the allies.

LARGE NUMBER TOOK EXAMS FOR ENTRANCE TO NAVAL COLLEGE

Government's Intention to Put Institution on Same Footing as Military College at Kingston.
Special to The Standard.
Ottawa, April 23.—The annual entrance examinations of the Royal Naval College at Halifax have just been held. There was a large class and from the successful candidates some seventeen will be admitted to the college. This will be the number of students up to 45 which is the limit of the accommodation. The other successful candidates will have to wait for vacancies. If the number of boys wishing to enter keeps on increasing, steps will be taken to obtain larger quarters. The age for entrance is between 14 and 16. It is the intention of the government to establish the college on the same footing as the Royal Military College at Kingston, the courses including not only those for naval service but also for engineering and other professions in civil life.

From the same source the correspondent says he learns that recently there have been two conferences between Emperor William and Emperor Francis Joseph and Archduke Eugene of Austria at which a possible separate peace for Austria was discussed.

PLAYING THE EITEL'S GAME?

Newport News, April 23.—The German auxiliary cruiser Kron Prinz Wilhelm, removed from drydock and anchored in the stream, donned a veil of mystery today, and until Commander Thierfelder attempts a dash past the allies' cruisers waiting off the Cape, or notifies the United States government that he desires to intern his vessel, it is evident that developments will be guarded with secrecy, to prevent information with regard to the sea rider's movements from reaching her enemies.

Customs Collector Hamilton today declined to discuss the status of the Wilhelm.
