FROM A WOMEN'S POINT OF VIEW

Gallantry in St. John. In several of our local papers lately there have been articles speaking of discourtesy in street cars. In a Toronto paper not long ago a paragraph was published telling of the fact that a white-haired old lady stood during a long ride while gentlemen (?) sat still.

Pure Wheat Products. Macaroni, vermicelli and spaghetti offered for sale in Canada are with few exceptions of good quality and clean, says The Toronto Daily News. At the last examination by analysts of the Laboratory of the Inland Revenue Department, 142 samples were analyzed and only one sample was found to be mouldy.

Pointed Paragraphs. It takes a clever woman to obtain information without asking questions. Macaroni, vermicelli and spaghetti are made by mixing and kneading a flour of high gluten content, with water, and moulting the resultant dough by pressure through holes in flat plates, or otherwise. Macaroni is the larger of the pipe-shaped products.

FOR THE HOUSEKEEPER. To clean the muslin blouses, table centres, dissolve a tablespoonful of borax in a gallon of water; put the muslin into this, and let them remain for half an hour; then gently rub them out in fine wash.

When a wicker chair requires cleaning, dust it well and wash in tepid soap suds. Mix together equal parts of turpentine and sweet oil and a few drops of methylated spirits. When the chair is quite dry rub with a cloth moistened with the polish.

Some housekeepers get good results by starching with rice water. This is water in which potatoes have been boiled and strained thoroughly, of course—with cornstarch, with white flour. And then there is the fine starch that does not need cooking that can be very satisfactorily used in many cases.

THE LITTLE JOKE

What the Story Showed. A visitor to a Sunday school was asked to address a few remarks to the children. He took the familiar theme of the children who mocked Elijah on his journey to Beth-el—how the young ones taunted the prophet, and they were punished when two she-bears came out of the wood and ate forty-and-two of them. "And now, children," he said, "what does this story show?" "Please, sir," came from a little girl in the front row, "it shows how many children two she-bears can hold!"

BIRTHDAY GREETINGS. Uncle Dick wishes many happy returns to the following kiddies, who are celebrating their birthday today: Vivian Lockhart, 209 Union St., Moncton.

A Wrinkle. A fine cover for your light-colored parasol when you come to put it away, is an old silk stocking. It is a good plan to slip the stocking on when the sunshade is put in use, for it keeps the dust off.

Before fastening the chopper to the table place a piece of sandpaper, large enough to go under both clamps, rough side up, on the table; screw the chopper up tight and you will not be bothered with clamps working loose.

Raspberry Bar-le-Duc. One quart perfect raspberries, one cupful currant juice, three cupfuls sugar, one cupful red raspberry juice. Combine fruit juices, add sugar, let boil till they are very thick and almost jelly, then drop in the raspberries, a few at a time; cook for two or three minutes and remove with a skimmer to small glasses. When all the berries are cooked, the syrup will be considerably thinned, so boil it down till very thick again, pour into the glasses containing the raspberries and seal as usual.

Onion and Pepper Salad. Remove the seeds and vein from one red and two green peppers and soak the shells in cold water overnight. Drain, cut them into strips and mix with half a Spanish onion cut into thin slices and three stalks finely cut celery. Moisten with French or boiled dressing and serve on a bed of lettuce leaves.

PERSONAL

Succeeds Father. Boris Hamberg, the famous "cellist," has succeeded his father, the late Professor Michael Hamberg as musical director of the Hamberg Conservatory at Toronto.

Frank Daniels, Laugh Maker. Perhaps it is not commonly known that Frank Daniels' first and original occupation was that of a lithographer in a Boston firm. But he spent so much time mimicking customers for the benefit of his fellow employees that his work suffered. The boss finally decided to dismiss him, and introduced the subject by saying to Daniels: "As a lithographer, you're a laugh." The hero of many stage productions and of a number of Vitagraph comedies has confirmed the latter part of that statement for many years.

Edwards Earle has learned the Braille system by which the blind read in order to read realism to the portrait of the blind character he is called upon to play in Viola Dana's forthcoming Rolfe-Columbia five-act photo-drama, as yet unnamed. Mr. Earle plays the part of a young man who for years suffers the affliction of blindness, though he ultimately regains his sight. He has learned to read as the blind read for the sake of the scenes in which the character is slighted.

This will be Mr. Earle's first picture for Metro, although he was associated with Miss Dana and her director, John H. Collins, at the Edison studio. He is a Canadian by birth, his first experience having been gained in the Valentine Stock Company, Toronto, of which Mr. Earle was also a member. Some of his more important engagements have been with Tim Murphy in repertory, with William H. Thompson in "The Bishop's Move," with Henrietta Crossman, with Bertie Galloway, Mary Manning, James T. Powers, Marie Cahill and De Wolfe Hopper, in many Broadway successes.

Mr. Earle, who is immensely popular throughout the country among motion picture fans, has played for Famous Players and Pathe as well as for Edison. Among his best-known pictures have been "The Unopened Letter," "The Lost Money," "The Phantom Thief," and "A Theft in the Dark." He was the Vance Coleman in the "Olive's Opportunities" series.

Marie Shotwell Joins Thalhouser Studio. Marie Shotwell, who recently completed a five-part contract under the management of Daniel Frohman, has gone into moving pictures. She has signed with the Thalhouser company and is now at the New Rochelle studios working in an Italian story by Emmett Mix, in which she will be starred. Miss Shotwell is perhaps best known for her characterization of Shirley in "The Lion and the Mouse." For several years she was a member of the Lyceum Stock Company.

Lester Cunne, who plays the part of an Indian in "Mister 44," a Metro-York release in which Harold Lockwood and May Allison play the starring roles, was in his costume during the filming of the five-act play the outfit once worn by Bear Brown, a Comanche Indian. The outfit has been in Mr. Cunne's possession since childhood. It was a gift to the actor's father by Bear Brown.

"Her Father's Son" is Vivian Martin Picture to Follow "Stronger Love." Immediately following the release of "The Strong Love," Vivian Martin's initial production under the Metro banner on the Paramount program, the West coast producers announce that work has been commenced on Miss Martin's new subject, entitled "Her Father's Son."

The second vehicle is a drama of heart interest by Anna Fielder Brand, says Motion Picture News, and deals with the period in the south just prior to the civil war.

William D. Taylor, director of "Passion," "The American Beauty," "Davy Crockett" and many other Paramount successes, is staging the new Martin subject.

Supporting Miss Martin is another typical Morocco cast including such players as Herbert Standing, Alfred Vornburg, Helen Jerome Eddy, Joe Massey, Jack Lawton, Luellie Ward and Tom Bates. Homer Scott is supervising the camera work.

MAY ROBSON COMING. No woman of the stage of today will be more welcome visitor to St. John than May Robson, the distinguished American comedienne, who on next Monday, August 28th, at the Opera House, will be seen in her latest success, "The Making Over of Mrs. Matt," offering her delightful interpretation of that dear Middle West woman who remains true to her ideals, her love and her belief in justice.

Miss Robson in this play needs hardly any announcement for her portrayal of a trim, rural lady, and her making into a modern woman of modish mien, is too well known. Suffice that from a country-bred woman she becomes a fond, indulgent matter-of-fact, sensible person with a little "sparty," but not too gay a flash. But the play—well,

It is said to surpass both "The Chorus Lady" and "The Travelling Salesman" in laugh-provoking qualities, and Miss Robson in a sweet, wholesome, old-fashioned, refreshing way, gives to "Mrs. Matt," her best histrionic ability, with the result, that after viewing the play you will leave the theatre with a feeling that the whole world is akin. The play will be superbly staged, Miss Robson bringing here the entire settings and effects, as well as a thoroughly adequate cast. The advance sale of seats opens on Thursday.

Only 10c. return to South Bay Fair tonight. LUNENBURG OFFICER NOW AT CAMP NIAGARA. Major J. W. Margeson, M.P.P., Lunenburg County, N. S., was one of the speakers at Hamilton, Ontario, to a draft from the C.M.R. Battalion which left that city a few days ago.

He emphasized the importance of every soldier being given all the practical work possible, and stated that in his opinion, "Camp Borden is an excellent place for carrying on this kind of training." He had spent some days there, and while the weather was very hot, and the dust on certain windy days rather disagreeable, yet he declared that the feeling of dissatisfaction among a certain of the regiment there had died away. Major Margeson is visiting the various military districts in Canada, giving instruction to the several overseas units in the matter of overseas pay and records. He obtained practical knowledge of this work while paymaster and assistant adjutant in the 25th Battalion.

The Major's health has greatly improved of late and he hopes before long to be again able to return overseas. He is now at Camp Niagara.

BLACK LEG DISEASE IN MARITIME PROVINCES. The circular issued by the Department of Agriculture (experimental farms branch) entitled "The Black Leg Disease of Potatoes," states as follows:

A conservative estimate of the loss due to Black Leg in 1915 (in which the disease was extraordinarily abundant) in parts of the Maritime Provinces puts the figure at the astounding total of 10 per cent. of the entire crop, including diseased plants and miscues which could be traced to the disease. In some cases the percentage of Black Leg plants was very much higher than that, and the total losses were as high as 80 per cent. and more. These figures are the results of careful counts on more than one hundred farms.

The 10 per cent. loss in money cost:
