Leopold and his mechanic, both of Los Angeles, Cal., were burned to death on the 96th lap, when their car caught fire and it made the southeast curve, turned over and they were covered with flaming gasoline.

The speed maintained up to the 275-mile point was the greatest in the history of the speedway.

Arthur Thurman, of Newark, N. J., in his first race on a brick track, was killed when his machine turned over on the north turn, soon after he had driven 100 miles.

J. Chascagno, relief driver for Ballot, and his mechanic were injured, but not seriously, when their machine went over on the north turn.

The speed maintained up to the 275-mile point was the greatest in the history of the speedway.

Major-General Seeley replied that the question had been considered and a satisfactory answer reached by the government.

Col. Ashley—"Will it be by gift or purchase?"

BERLIN FEARING TROUBLE TIGHTENS ON MARTIAL LAW

Public Gatherings Are Forbidden as They Were Breeding Trouble for the Government.

Berlin, Saturday, May 31.—(By the Associated Press)—The government is apparently anticipating trouble in Berlin in the near future, for the Minister of Defence, Gustav Noake, has tightened up the screws on martial law, under which the city still lives.

It was announced at night that the Minister had relaxed the provisions of the law so far as to allow demonstrations against the peace terms, public meetings and parades.

But he considers that this has been abundantly accomplished, and now forbids not only public gatherings, but even private meetings indoors, unless specific permission is given.

The most serious reason for this is that many meetings called, presumably for protest purposes, have developed into demonstrations dangerous to the government and agitations in favor of uprisings.

NAVAL BATTLE IN GULF OF FINLAND

British Warships Put to Flight a Bolshevik Naval Force.

Bulletin.—Helsingfors, Saturday, May 31, (By The A. P.)—A fifty minute battle occurred this morning between a Bolshevik fleet, comprising the battleship Petropavlovsk (23,307 tons) and three other warships which had been bombarding the coast west of Krasnaya Gorka, (15 miles west of Kronstadt) and seven British fleet ships. The Russians eventually fled to Kronstadt.

Saturday's encounter, which took place in the Gulf of Finland, was the second the British had had recently with Bolshevik naval forces which are trying to harass the Estonian army approaching Petrograd from the west.

On May 18, a thirty-five minute naval fight occurred not far from the locality of the one now reported. It had a similar result, the Bolshevik fleet retreating to Kronstadt. Some of their vessels were reported to have been hit. The British Admiralty stated later that there had been no casualties to the British forces.

OROMOCTO HAS HEAVY FIRE LOSS

One Residence and Several Barns Burned, Causing \$8,000 Loss.

Oromocto had another fire Friday afternoon which for a time threatened the entire village, as a heavy wind was blowing during its progress.

About 4 o'clock the large barn belonging to ex-Sheriff Holden and used by Dennis McCarthy burst into flames and in a short time the building and all its contents were destroyed.

The flames jumped to the residence of Mrs. Stanley Clowes and the three large barns in the rear, and they were burned to the ground. The household effects of Mrs. Clowes were saved, but the contents of the barns, including the household effects of Mrs. J. B. Stocker, which were stored in one of the barns, and valued at about \$1,000, were destroyed.
