COUNTY WEST IS FOR DUNN AND RUDDICK.

FINE LIBERAL RALLY IN ORANGE HALL, FAIRVILLE; CANDIDATES SPLENDIDLY RECEIVED.

The Charges of the Opposition Fully Answered and the Electors Told in Convincing Terms Why the Government Should Be Returned-W. H. Trueman Deals With Some Practical Matters - Able Ad. dress by Hon H. A. McKeown-Tone of Meeting Means Victory for Government in the County.

The Laberal meeting held Wednesday evening in Orange hall, Fairville, was of the type that clearly reveals that the attitude of the electors of Musquash and Lancaster in the present political contest, is favorable to the government. Every seat in the hall had its occupant and much of the space not occupied by those seated was taken advantage of by electors content to stand.

The speakers were applauded when they rose to speak and applauded throughout, the interest in the proceedings showing that each elector had a keen personal concern in what was going on. In short the meeting was one of enthusiastic Laberal heard their doctrine ably

Shortly after 8 o'clock the speakers, comprising Hon. H. A. McKeown, Dr. R. C. Ruddick, Hon. A. T. Dunn and W. H. Trueman, took places on the platform, accompanied by Hon James Holly and W. F. Barnhill. The latter was appointed chairman and Joseph O'Brien secretary. The candidates were received with en-

Doctor Ruddick, of St. Martins, was the first speaker. After expressing his pleasure at being given the privilege of addressing the electors, he dwelt on his position as a candidate and his reason for one. Hon. Mr. Dunn was accorded a rousing reception. He accepted the spirit of the meeting as a happy omen of victory. Referring to political struggles in general, he said that certain statements and misstatements would arise, and public men would become targets for the approval or the said that certain statements would become targets for the approval or the said that certain statements would become targets for the approval or the said to t disapproval of press and public. The gov-ernment had been called extravagant, it had been charged that a wise and pru-dent financial outlay had not been, but if no expenditures had been made there would have been accusations of meanness and an unwillingness to spend. The public expenditures were checked over by an audit committee in which were representatives of the Liberal and Conservative parties. Never had he heard a comparties. Never had he heard a com-plaint respecting unwise financial outlays. When it was borne in mind that such sterling business men as Mr. Humphrey and Mr. Melanson, opposition members, had been members of this audit com-mittee and that they were satisfied with the presentation of the administration's finances, it must be very obvious that these charges of extravavance rested on these charges of extravagance rested on

Mr. Anderson, of St. Martins, a gentleman on the opposition ticket, had claimed the surveyor-general had not administered the affairs of his department as well as he might have done. Mr. Anderson, against whom he had no ill-will personally, could be invited to enter the surveyor general's office and take, if necessary, a week or a month in examining the hooks, and he would find that books, and he would find that ne dollar had been spent other than in the best interests of the people of New Brunswick. Not one dollar had been wrongfully expended. (Cheers.)

Prosperity Throughout the Province.

Here Mr. Dunn entered into a detailed and specific explanation of the Muskoka lumber matter and referred at length to promise an increased revenue to New Brunswick and a cheapening of the product to the consumer. The government policy regarding cheese and butter was gone fully into and exploited. The speaker, in his official capacity, had traveled in all sections of the province and everywhere could be seen striking evidence of prosperity. There were better farm buildings, the land was better tilled, the fences in a better state of repair—in all parts could be seen proof of the wisdom of the adoption by the government of an of the adoption by the government of an one of the candidates was an able speaker and gained at Glenlevit Monday night, where Mr. He now had his career as a legislator and restoring the confidence of the audience.

The Labor Candidates.

Mesers. McInerney and Hatheway were the labor candidates. They did not properly represent the laboring classes. They did not come from the ranks of the workers. When their political anticedents were analyzed it would be seen both were Conservatives of the most pronounced type, political purposes. If there was such a possibility as a Conservative victory these entlemen could not act freely and un-ettered in the interests of labor. To aid and Haitheway were not of the labor can-didate type which England had produced. Phey did not rise from the great mass of collers and were not acquainted with the cup of human suffering as were John Burns and his colleagues. Messrs. McInerney and Hatheway stood for labor merely because of a political device employed by the opposition as one method of lifting it into Mr. Haezn had said the government was

While in Ottawa Mr. Hazen had witnessed corruption on the part of the Conservative cabinet officers but had kept silence. fact that the future of Canada was bound up in the Liberal party. (Applause).

Hon. H. A. McKeown. Hon. H. A. McKeown expressed his con not something to plan out and exhibit in one's buttonfrole. The representation of a county was a load, a trust, a burden, and called for the sacrifice of valuable time. He felt that a representative, when he

This was a heavy duty and on the legislative floors there was strife between the different rep-resentatives along the lines of material advancement. When the electors had be fore them such a man as Hon. His department was an ex ceedingly important one, and contribut in a very large degree to the revenue of the province. The speaker well knew the estimate in which Mr. Dunn was held and it was such that Mr. Dunn had every eason to feel proud of. Mr. Hazen said the present government was corrupt and unworthy of the people's support, and that the administration was abusing its power. This accusation was wholly baseless. The picture of the government elbow deep in the public treasury was ridiculous. It had been claimed the attorney general's fee of \$9.000 in the province and people. With the auvent of the province and people. With the auvent of the province and people.

The government should sure'y receive credit for this. (Cheers.) The government, recognizing that a dol lar saved is a dollar made, put into the hands of the people the way to enable them to save their money, and New Brunswick in consequence saved over one-quarter of a million dollars yearly. The government was doing its duty by the county. It was carrying on the country's affairs and carrying them on

BIG GOVERNMENT MEETING AT ST. STEPHEN.

Fire the First Gun in the Campaign, St. Stephen, Feb. 18-(Special)-A wellattended meeting of the supporters of the

government was held at the Armory, Milltown, this evening and listened to the first gun of the campaign, fired by N. Marks Mills, one of the government candithe county in search of a running mate dates, and John L. Carleton, K. C., of St. John. B. H. Kerr, of Milltown, presided, and

in a neat speech introduced the first speaker as one of the members of the next house of assembly, N. Marks Mills, who was received by well marked enthusiasm. The speaker at once launched into the now celebrated resolutions and how he was induced to attend the conference held in the Windsor hotel and the acceptance by those present, except one gentleman, who refused to sign. After the resolutions were turned down by the convention, the leaders adjourned and concluded, notwithstanding the convention, or rank and file of the party as they called it, they would not accept the voice of the convention, but place two men on the coalition ticket The speaker said it was the highes honor that he could receive—that of be longing to the rank and file of the party. He believed the people of Charlotte, through their delegations, should be the parties to say who should be nominated by either or any party. The other party by either or any party. The other party eing on was the only one recognized the representatives of the people as well as the headquarters of the province, and believed with many others the fight on Feb. 28 will not be government or opposit tion, but whether Charlotte county will be controlled by the makers of any deal.

Mr. Hazen held a meeting here last fall, which all know was a failure, and from all appearances it indicated his condition on Feb. 28th. He wanted them to remember that the government ticket was in to win and was going to do so, because we have the rank and file of the people wening at this place by two of the government candidates—Messrs. Scovil and help being winners. "Come out and help us to down the bosses," he said, "whether you are Liberal or Conservatives, you have the welfare of the people at heart."

Mr. Mills received an ovation as he finished a splendid speech.

Mr. Carleton was received with ap-plause. The speaker stated that, so far as local issues were concerned, he would not touch, as Mr. Mills gave a succinct account of those matters, but he would say that he regretted the absence of such old friends as Hon. Geo. F. Hill and W. F. Fodd. However, he was here to recognize ment convention and recognized by the government convention and recognized by the government of this province, and a vote for them was a vote for the government led by Mr. Tweedie.

he chose a different course. The speaker recognized that the young men were the ones to look up to for the future. He told of an occasion in St. John when the will of the people was set aside as it had been attempted here. The only charge that he could find against the government candidates was that they were too young, but he assured them that in time they would overcome that charge. He then spoke of Mr. Hazen, personally

The speaker than explained how the The speaker then explained how the eneral accounts committee, at last session, after a rigid auditors. P. reported everything correct in all expenditures. He then took up the so-called platform of Mr. Hazen, dissecting each plank and showing the real absurdity of some of them, and how many would be impossible to carry out. Mr. Hazen does not tell how he will effect some of these

the agricultural and other policies of the present government, telling of the great yearly increase in the products of the farms of the province, especially the large amount exported to Great Britain and the United States, and the receipt of the ash for the pockets of the farmers.

He agreed with Mr. Hazen on the in reasing of teachers' salaries, but that polls on Feb. 28 and vote for the government ticket-Messrs. Milis, Dewar, Byro

could possibly doubt the result if they did this, any more than it could be doubted that the Liberal party was dominant in St. John. He appealed to his political friends in

the audience not to be misled by the enemy into splitting their votes. He asked them to be true to their great leader, Sir Wilfrid Laurier, as they were in the memorable fight of 1900. The minister sat down amid sustained heers, and after the usual cheers for the king and the candidates and the leaders of the party the meeting closed.

E. H. McAlpine was first introduced and was heartily received. He took up the claims of the opposition candidates to he labor vote. Mr. Hatheway, he said vas a wealthy man, yet not one dollar the laboring man. Mr. Ellis' stand was because Messis.

Tweedie and Pugsley had come over to
the Liberal party. But for Doctor Pugsley, said the speaker, Mr. Ellis might
never have been elected in 1896. Mr.

Pugsley was a candidate and secured 1,500 votes, mostly Conservative. Futher, he was doubtful if Mr. Ellis would be a senator today were it not for Doctor Pugaley. Mr. Ellis ought to be ashamed to advise his followers to go over to the enemy in the midst of a campaign.

Mr. Carleton was given a good reception. At the York Theatre opposition rally of a week ago, he said, Mr. McInerney thought it advisable to have sonie sport at the expense of Mr. Lantalum and Mr. Carleton. Mr. Carleton had no objection to his chaff, but would ask Mr. McInerney to give him opportunity for a reply on the hustings. (Cheers).

He would like to meet Mr. McInerney there face to face, and let the labor man decide on a plain presentation of facts as between the one side and the other. Mr. Cariton said he could see back of the labor candidature. He might be able he labor candidate a dissatisfied official of whom Mr. Carleton spoke briefly. The

first thing this gentleman did was to create a labor candidate. Mr. Hatheway's bill, which had been held over for a session, gave something to start on. It was well known the laboring men wanted Mr. Mullin, but the gentleman to whom he had referred wanted Mr. McInerney, and had referred wanted Mr. McInerney, and so the ticket was made up of Messrs. Mr. McInerney had called up the shades of Hon. Isaac Burpee, John Smith and T. W. Anglin, and asked what would they think to see the Liberal party in New Brunswick led by Hon. L. J. Tweedie and Hon. Mr. Pugsley. Mr. Carleton recalled the George V. McInerney who was the first vice-president of the Liberal party in New Brunswick, who in Kent county was the standard bearer of that county was the standard bearer of that party, who traveled Quebec with Sir Wil-frid Laurier, making speeches in French rivalling Laurier himself, and turned from this to Mr. McInerney, the Conservative in the dominion commons, went there, moved the address in reply to the speech from the throne and boldly said: "I never was a Liberal in my life." Of him at the time Mr. Ellis said: "We accept the time Mr. Ellis said: We accept
the gentleman's word, but what will we
say of his hypocracy?" (Applause).
Mr. Carleton gave the workmen a question to ask Mr. Hazen: On what occas on did you ever raise your voice or poll

a vote at Fredericton or Ottawa in favor of the working people of Canada. The strangest thing of all, said Mr. Careto was to see the Conservative party catering to the laboring man. Did the Conservative laboring man? Never, indeed, said, Mr. Car cton, and tince 1896 the Liberal party has done more
