

calling such meeting, and such notice shall be published weekly for two consecutive weeks in *The Canada Gazette* and in a newspaper published in the city of Quebec.]

Line of railway described.	<p>9. The Company may lay out, construct and operate a railway of the gauge of four feet eight and one half inches, from a point at or near Gaspé Basin in the county of Gaspé, following the valley of the York river for a distance of about thirty miles, thence through the interior of the Gaspé peninsula, to a point on the Intercolonial Railway, north of Causapséal, in the county of Rimouski, with branch lines to Paspébiac or to any point on the line of railway of the Baie des Chaleurs Railway Company.</p>	5 10
Branch lines.		
Telegraph and telephone lines.	<p>10. The Company may construct and operate telegraph and telephone lines along the whole length of its railway and branches, and may establish offices for the transmission of messages for the public, and collect tolls for so doing; and for the purposes of operating such telegraph and telephone lines the Company may enter into a contract with any other company, or may lease the Company's lines or any part thereof; and may connect its lines with the lines of any other telegraph or telephone company.</p>	15 20
Arrangements with telegraph and telephone companies.	<p>2. The Company may enter into arrangements with any other telegraph or telephone company for the exchange and transmission of messages, or for the working in whole or in part of the lines of the Company.</p>	25
Rates to be approved.	<p>3. No rates or charges shall be demanded or taken from any person for the transmission of any message by telegraph or telephone, or for leasing or using the telegraphs or telephones of the Company, until such rates or charges have been approved of by the Governor in Council, and such rates may, from time to time, be revised by the Governor in Council.</p>	30
R.S.C., c. 132.	<p>4. <i>The Electric Telegraph Companies Act</i> shall apply to the telegraphic business of the Company.</p>	
Powers of Company. Electricity.	<p>11. The Company may,—</p> <p>(a) manufacture, furnish, use and sell light, heat and motive power generated from electricity, and construct, acquire, work or carry on lines of wire, tubes or other apparatus for conducting electricity either by land or water;</p>	35
Lands and plant for electric power.	<p>(b) acquire lands, water courses and water powers, and erect, use and manage works, machinery and plant for the generation, transmission and distribution of electrical power and energy;</p>	40
Powerhouses.	<p>(c) build power houses and stations for the development of electrical force and energy, and acquire the factories or stations of other like companies, or lease their works, equipments, appurtenances and power;</p>	45
Patent rights.	<p>(d) acquire any exclusive rights in letters patent, franchises or patent rights for the purposes of the works and undertakings hereby authorized, and again dispose of such rights;</p>	
Vessels.	<p>(e) construct, acquire, navigate, use and dispose of steam and other vessels, in connection with the said railway and to bring traffic thereto, enter into agreements with owners of steam and other vessels for such purposes, and carry on the business of transportation of goods by water, and of ware-housemen generally;</p>	50
Transportation.
