

## For Handling Rush Orders

DOES the "busy season" find you unable to cope with the increased volume of business? Do the orders pile up to the general confusion of your men and the disorganization of your plant? You may hope to catch up with your orders by putting on an extra gang, or working an additional shift, but how about the RUSH ORDERS? Are they filled, or do you simply let them wait until the inevitable wire comes with instructions to cancel?

Rush orders are, if anything, more important than the regular willing-to-wait routine business. To refuse them indicates poor service, slovenly methods, inefficiency. To handle them promptly means grateful customers who will not readily forget your helping them out when they needed the goods in a hurry.

Rush orders pay well. You simply cannot afford to ignore them.

An Otis-Fensom Freight Elevator will enable you to economize both time and labor. It will increase the efficiency of your working force, eliminating the necessity of hiring extra help or working expensive night shifts during the busy season.

Rush orders may be filled promptly and satisfactorily, and profits increased through the greater volume of business handled.

### OTIS FENSOM FREIGHT ELEVATORS
