

I96670.

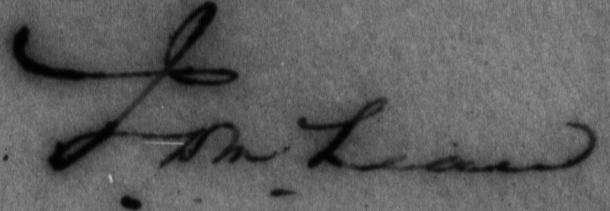

Ottawa, August 21st., 1908.

Sir,

The Department is in receipt of a telegram from Dr. Holmes stating that no Cots have been received for the Hospital. These were ordered, together with a large Tent, on July 11th, but the Manufacturer failed to forward them. The tent is nearly ready and will be shipped in a few days.

I wired you today that the Cots will be shipped by Express to your address tonight.

Yours obedient servant,

Secretary.
