

1873. **GRIP!** 1886.
CANADA'S COMIC JOURNAL.

The aim of "GRIP" is to set forth, in an impartial and independent manner, the passing events of Canadian political and social life. Its Cartoons speak more definitely and more pleasingly than whole columns of editorial. In this pungent, easily appreciable, and artistic style of presenting a subject, the whole situation is revealed at a glance. The success of *Grip* shows how well this fact is appreciated—its Cartoons on the passing political events of the country being even more eagerly sought after than the chaste and humorous letterpress of the paper—though the latter is equal to that of any similar publication on the continent.

Grip has always taken a firm stand on the Temperance and other moral questions—its outspoken utterances and cartoons on this subject being acknowledged by all friends of Temperance throughout the country.

GRIP'S PLATFORM:

Humour without Vulgarity; Patriotism without Partisanship; Truth without Temper.

ROBERT McLEAN, Esq., }

This Company has been formed by prominent temperance and business men on the basis of the United Kingdom Temperance and General Provident Institution of Britain, which is one of the most successful of British companies. We are now prepared to receive applications for Assurance and grant policies. This is the only Canadian Company that in any way secures to abstainers the full benefit of their superior lives. The experience of the "United Kingdom Temperance and General Provident Institution" for the last eighteen years is over 30 per cent. in favor of Total Abstainers. The manager of the Whittington Life Assurance Company of England says:—"Three years ago I stated that the death rate in the Temperance Section had in three years been 23 per 1,000 against 50 per 1,000 in the General Section. For the last three years it has been a little more favorable, being 22 per 1,000 in the Temperance Section and 51 per 1,000 in the General." The manager of the Sceptre Life Assurance Company of Great Britain calls attention to the fact that for the past ten years the deaths in the Total Abstinence branch of the Company amounted to only forty-five per cent. of the number anticipated.
