

### When Every Milking Counts

TRADE MARK: PRO-FAT, L.E. PROFIT

FEED DRIED BREWERS GRAIN AND WATCH THE MILK FLOW INCREASE.

As a body builder and Milk Producer there is nothing like "PRO-FAT" for your cows. "PRO-FAT" is a wholesome, nutritious feed. It increases the milk flow and ensures the quality. Every milking counts in real profits.

#### "PRO-FAT" FEED

is scientifically prepared from DRIED BREWER'S GRAINS. They have proven their food value to hundreds of leading dairymen.

### Gossip.

#### ALLOWAY LODGE SOUTH-DOWNS.

The importation of Southdowns which are now being exhibited at the leading shows, both here and on the American side, by Robt. McEwen, of Byron, Ont., are, Mr. McEwen believes, a better lot in all than those with which he won out at the shows last year. These sheep were all selected by himself, from the two leading flocks of England, those of Capt. McCalmont and Lady Wernher, and while the importation comprises only sixteen head in all, it includes some of the best Southdowns that could be purchased in England, and the fact that two ram lambs from the first-prize pen at the Royal, and a shearling from the second-prize pen, were in the importation, shows that the best in the estimation of the Englishman and of the Canadian are nearly identical. During the past decade, when sheep in almost every Province of the Dominion have been steadily decreasing in numbers, the Southdown has held its own, and, in fact, has very materially increased its numbers. This breed, by its steady rise in popularity, has proven itself a moneymaker to the mixed farmer, and seems to be coming to its own here.

The Southdown flock exhibited by Alloway Lodge in the Canadian West this season, won every first and championship for the breed at the leading shows, and a gold medal for the best fat sheep, any breed, at Brandon, and every first in the fat class at Regina and Edmonton. These sheep, with two exceptions, were all bred by Mr. McEwen, and many of them are staying in the West to go into some of the leading Southdown flocks there.

#### SOME NEW RECORDS IN THE LAKEVIEW HERD.

Method worked out from science and experience, and conducted with persistency, will certainly lead to success. This is a business axiom that has been the guiding feature on the Lakeview Farm of E. F. Osler, at Bronte, Ont., not only in his Holstein-breeding operations, but throughout the entire farm management. Persistent improvement is annually in evidence in the producing ability of the Holsteins as exposed by the official R. O. M. and R. O. P. tests. Following is a list of the tests just recently conducted: Queen Inka De Kol, mature, seven days, butter 27.53 lbs., milk 727.1 lbs.; thirty days, 111.70 butter, 3,055.4 milk; R. O. P. for twelve months, 24,278 lbs.; best day's milk, 109.4 lbs.; seven-day test, twelve months after calving, 20.34 lbs. butter, 407.4 lbs. milk. This we believe is a world's seven-day record twelve months after calving. This cow has again just freshened and will be re-tested, and is expected to easily reach 30 lbs. Her calf this time is a bull that should be worth considerable as a herd-header. Pet Canary Countess 2nd, three years old—Seven days, butter 27.14, milk 506.9; thirty days—butter 110.23, milk 2,273, which makes her the Canadian thirty-day three-year-old champion. Eleven months after calving she made, of butter, 17.55 lbs.; milk, 311.9 lbs. Her R. O. P. test is not concluded. Lakeview Daisy, mature—Seven days, butter 28.30, milk 696; thirty days, butter 114.14, milk 2,924 lbs.; best day's milk 104 lbs. Emma Pauline De Kol, four years—Butter 26.66, milk 567.6; thirty days, butter 106.33; milk 2,555.3 lbs. Lakeview De Kol Duchess, three years—Butter 24.33, milk 489.6 lbs.; thirty days, butter 95.67, milk 2,064 lbs. This cow is a daughter of the senior stock bull, Count Hengerveld Fayne De Kol, and makes the sixteenth daughter of his to enter the official records. The others, as two-year-olds, range from 14 to 20 lbs. He is but a young bull yet, and will surely in another year or two be recognized as one of the greatest sires of the breed in Canada. The junior stock bull is Dutchland Colantha Sir Mona. Only one of his daughters has come to milk as yet, and she, at two years and two months of age, made in seven days 17.33 lbs. butter and 446.2 lbs. milk. This is a remarkable showing for the first trial, and looks like a bright future for this bull as a sire. This is the kind of breeding the young herd-headers carry that are always on hand for sale.

### PEERLESS POULTRY FENCE

Does all you could wish of a poultry fence and more. Built close enough to keep chickens in and strong enough to keep cattle out. Even small chicks cannot get between the close mesh of lateral and vertical wires. The heavy, hard steel top and bottom wires, together with intermediate laterals, will take care of a carelessly backed wagon, or an unruly animal and spring back into shape immediately. The wires are securely held together at every intersection by the PEERLESS Lock.

**The Fence That Saves Expense**  
It never needs repairs. It is the cheapest fence to erect because, owing to its exceptionally heavy top and bottom wires, but half the usual amount of lumber and posts are required.

Send for Literature  
and address of nearest agent. We also make a complete line of farm and ornamental fencing. Agents nearly everywhere. Agents wanted in unassigned territory.
